## **Russia And The West Environmental Discourses In The European Arctic:**

**Russia and the West** Geir Hønneland, 2003-09-02 Hønneland assesses current environmental discourses and applies this analysis to look at the relations between Russia and the West with regards to environment problems. It includes three in depth case studies on environmental problems: living marine resources, nuclear safety and air pollution. **International Politics in the Arctic** Geir Hønneland, 2017-10-30 As the ice around the Arctic landmass recedes, the territory is becoming a flashpoint in world affairs. New trade routes cutting thousands of miles off journeys are available and the Arctic is thought to be home to enormous gas and oil reserves. The territorial lines are new and hazy. This book looks at how Russia deals with the outside world vis-à-vis the Arctic. Given Russia's recent bold foreign policy interventions, these are crucial issues and the realpolitik practiced by the Russian state is essential for understanding the Arctic's future. Here Geir Hønneland brings together decades of cutting edge research investigating the political contexts and international tensions surrounding Russia's actions. Hønneland looks specifically at region building and environmental politics of fishing and climate change, on nuclear safety and nature preservation and also analyses the diplomatic relations surrounding clashes with Norway and Canada as well as at the governance of the Barents Sea. **The Politics of the Arctic** is a crucial addition to our understanding of contemporary International Relations concerning the Polar North. **Climate Change Discourse in Russia** Marianna Poberezhskaya, Teresa Ashe, 2018-08-06 This book explores the development of climate change discourses in Russia. It contributes to the study of climate change as a cultural idea by developing the extensive Anglophone literature on environmental science, politics and policy pertaining to climate change in the West to consider how Russian discourses of climate change have developed. Drawing on contributors specialising in numerous periods, regions, disciplines and topics of study, the central thread of this book is the shared attempt to understand how environmental issues, particularly climate change, have been understood, investigated and conceptualised in Soviet and post-Soviet Russia. The chapters aim to complement work on the history of the discursive political construction of climate change in the West by examining a highly contrasting but intimately related cultural context. Russia remains one of the world's largest greenhouse gas emitters with one of the most carbon intensive economies. As the world begins to suffer the extreme consequences of anthropogenic climate change, finding adequate solutions to global environmental problems necessitates the participation of all countries. Russia is a central actor in this global process and it therefore becomes increasingly important to understand climate change discourse in this region. Insights gained in this area may also be illuminating for examining environmental discourses in other resource rich regions of the world with alternative economic and political experiences to that of the West, e.g. China, Middle East. This book will be of great interest to students and scholars of Russian environmental policy and politics, climate change discourses, environmental communication and environment and sustainability in general. **Russia as a Great Power** Jakob Hedenskog, Vilhelm Konnander, Bertil Nygren, Ingmar Oldberg, Christer Pursiainen, 2013-07-04 After a period of relative

weakness and isolation during most of the 1990s Russia is again appearing as a major security player in world politics This book provides a comprehensive assessment of Russia's current security situation addressing such questions as What kind of player is Russia in the field of security What is the essence of its security policy What are the sources capabilities and priorities of its security policy What are the prospects for the future One important conclusion to emerge is that while Russian foreign policy under Putin has become more pragmatic and responsive to both problems and opportunities the growing lack of checks and balances in domestic politics makes political integration with the West difficult and gives the president great freedom in applying Russia's growing power abroad

**Arctic Euphoria and International High North Politics** Geir Hønneland, 2017-08-02 This pivot describes the ups and downs of Norwegian High North politics since the end of the Cold War It considers how political interest in the Arctic has been growing rapidly in the international community as states stake their claim to areas of the continental shelf in the Arctic Ocean and focuses on Russia's actions as the Arctic state with the longest shoreline and the only one outside NATO The author argues that among the Western countries Norway has the most extensive experience in tackling Russia in the Arctic and the neighbourhood with the Russian Bear invariably shapes foreign policy notably in matters of security and how foreign policy concerns are intertwined with economic motives be that hopes of access to the big Russian market or to the oil and gas fields on the Russian Arctic shelf To achieve the combined goal of security and business the Norwegian Government has regularly orchestrated Arctic waves to direct the attention of local national and international politicians and businesses to the alleged opportunities of the North In this book the author takes us through the Great Barents Awakening of the 1990s the Great High North Enchantment of the early 2000s and recent years Arctic wave in Norwegian foreign policy

**Russia's Far North** Veli-Pekka Tynkkynen, Shinichiro Tabata, Daria Gritsenko, Masanori Goto, 2018-03-09 The Russian Far North is immensely rich in resources both energy and other resources and is also one of the least developed regions of Russia This book presents a comprehensive overview of the region It examines resource issues and the related environmental problems considers the Arctic and the problems of sea routes maritime boundaries and military build up assesses economic development and considers the ethnic peoples of the region and also cultural and artistic subjects Overall the book provides a rich appraisal of how the region is likely to develop in future

Russia and the Arctic Geir Hønneland, 2020-01-09 The world is currently witnessing an Arctic Scramble as the major powers compete to demarcate and occupy Arctic territory The region is known to be home to large gas and oil reserves and its position at the top of the globe holds significant trading and military advantages Yet the territorial boundaries of the region remain ill defined and Russia under the increasingly bold foreign policy of Vladimir Putin has emerged as a forceful power in the region Geir Hønneland investigates the political contexts and international tensions surrounding Russia's actions focusing especially on the disputes which have emerged in the Barents Sea where European and Russian interests compete directly Skillfully delineating Russian policy in the region and analyzing the mineral and environmental consequences of the

recent treaty agreements Russia and the Arctic is a crucial addition to our understanding of contemporary International Relations concerning the Polar North This new updated edition takes into account Russia's recent moves in the Arctic region and the development of the Arctic council

**International Relations in the Arctic** Leif Christian Jensen, 2015-10-12 As the ice around the Arctic landmass recedes progressively further each year the territory has become a flashpoint in world affairs New and lucrative trade routes from East to West are now becoming accessible for shipping lanes and military deployment and the Arctic is known to be home to large gas and oil reserves Yet the territorial boundaries of the region remain ill defined In response to these geographical changes the Scandinavian countries especially Denmark and Norway have begun staking large proprietary claims in the face of pressure from the major powers Russia Canada the US and China for the trade routes to be designated as International Waters Here Norwegian scholar Leif Christian Jensen shows how Norway has undergone a positional shift after declaring its assertive position on the Arctic in 2005 Its disputes with Russia have created a new foreign policy dilemma and a new set of red lines in Norwegian policy Is Norway as it would like to be seen an environmentally friendly peaceful enlightened nation Or does this geopolitical shift in world affairs necessitate a new and more aggressive Scandinavia International Relations in the Arctic makes a timely contribution to the turn to the North in International Relations and Political Science

Law And Politics in Ocean Governance Tore Henriksen, Geir Hønneland, Are K. Sydnes, 2006 Explores how the commitments based on the 1995 Fish Stocks Agreement are acted upon by States in a selection of regional fisheries management regimes This book reviews three established regional fisheries management regimes and two regional agreements establishing such regimes negotiated following the 1995 Agreement

*Russian Fisheries Management* Geir Hønneland, 2004 This book is the first comprehensive introduction to Russian fisheries management in the Western literature It sets out the basic principles and organisational structure underlying Russian fisheries management and describes associated processes and practices such as quota allocation technical regulation and enforcement of fishery legislation The book focuses attention on fisheries management at the federal level and in Russia's northern fishery basin which is the largest fishery region in European Russia Problems such as institutional conflict alleged corruption and incomplete legislation on fisheries are discussed as are the assets of scientific and technical expertise found in the country's Soviet legacy Throughout the book the performance of the Russian system for fisheries management is evaluated in relation to the requirements of a precautionary approach to fisheries as set out in contemporary international law

Borderland Russians G. Hønneland, 2010-10-13 Geir Hønneland discusses some of the big questions in

social science What is identity What is the role of identity and narrative in the study of international relations The location is the Kola Peninsula the most heavily militarized area of the world during the Cold War now set to become Europe's next big oil playground *The Routledge Handbook of Russian International Relations Studies* Maria Lagutina, Natalia Tsvetkova, Alexander Sergunin, 2023-02-27 This handbook examines the study of international relations IR in Russia giving a comprehensive analysis of historical theoretic conceptual geographical and institutional aspects It identifies the place and role of Russia in global IR and discusses the factors that facilitate or impede the development of Russian IR studies The contributors represent diverse Russian regions and IR schools and offer an overview of different intellectual traditions and key IR paradigms in the post Soviet era Filling the vacuum in international understanding of the Russian perspective on pivotal international issues they demonstrate the continuity and change in Russia's international policy course over the past three decades and explain how different foreign policy schools and concepts have affected Russian foreign policy making and the decision making process Providing a unique contribution to the discussion on non Western IR theory this handbook will appeal to scholars and students of international relations Russian studies world politics and international studies

**Arctic Discourses** Anka Ryall, Johan Schimanski, Henning Howlid Wærp, 2010-02-19 Both fictional and non fictional accounts of the Arctic have long been a major source of powerful images of the region and have thus had a crucial part to play in the history of human activities there This volume provides a wide reaching investigation into the discourses involved in such accounts above all into the consolidation of a discourse of Arcticism modelled on Edward Said's concept of Orientalism but also into the many intersecting discourses of imperialism nationalism masculinity modernity geography science race ecology indigeneity aesthetics etc Perspectives originating from inside and outside the Arctic along with hybrid positions are examined with special attention being given to the textual genres narratives and figures which they mobilize together with to the close relationship between the Arctic as an unknown place and the literary imagination The different chapters address a wide geographical range of texts providing a necessary supplement to most previous work in the field and also address the wide variety of genres which flourish under the aegis of Arctic discourse ranging from exploration accounts travel writing political texts and journalism through diaries and historical documents to novels and novelizations and including also other media such as music and opera

*Arctic governance* Elana Wilson Rowe, 2018-06-08 This electronic version has been made available under a Creative Commons BY NC ND open access license The volume explores a question that sheds light on the contested but largely cooperative nature of Arctic governance in the post Cold War period How does power matter and how has it mattered in shaping cross border cooperation and diplomacy in the Arctic The role of power in global governance cooperation has been explored in international relations and political geography literature yet largely overlooked in an Arctic context Through carefully selected case studies from Russia's role in the Arctic Council to the diplomacy of indigenous peoples organizations this book seeks to shed light on how power performances are enacted to constantly shore up Arctic

cooperation in key ways The conceptually driven nature of the inquiry makes the book appropriate reading for courses in international relations and political geography while the carefully selected case studies lend themselves to courses on Arctic politics

**The EU-Russian Energy Dialogue** Pami Aalto, 2016-03-16 EU Russian energy dialogue represents a policy issue that forces us to take a serious look at several crucial questions related to the present and future of Europe such as how can the EU area ensure its future energy security when it is running out of its own energy resources and at the same time incorporating new members who are also dependent on energy imports This book not only outlines the overall characteristics of the energy dialogue but also illustrates the involved policy implementation challenges by paying special attention to the regional context of northern Europe The study contributes to diverse fields such as international relations and political science European studies studies on energy politics international political economy post Soviet politics and literature on regionalization and regionalisms with a special reference to northern Europe

*European Identities and Foreign Policy Discourses on Russia* Marco Siddi, 2020-06-09 This book examines the relationship between national identity construction and current foreign policy discourses on Russia in selected European Union member states in 2014 2018 It shows that divergent national discourses on Russia derive from the different ways in which the country was constructed in national identity The book develops an interpretive theoretical framework and argues that policy makers agency can profoundly influence the contestation between different identity narratives It includes case studies in policy areas that are of primary importance for EU Russia relations such as energy security the Nord Stream 2 controversy the Ukraine crisis and Russia's military intervention in Syria Focusing on EU member states that have traditionally taken different stances vis vis Russia Germany Poland and Finland it shows that at the peak of the Ukraine crisis national discourses converged towards a pragmatic but critical narrative As the Ukraine crisis subsided and new events took centre stage in foreign policy discussions i e the Syrian civil war international terrorism long standing and identity based divergences partly re emerged in the discourses of policy makers This became particularly evident during the Nord Stream 2 controversy Deep rooted and different perceptions of the Russian Other in EU member states are still influential and lead to divergent national agendas for foreign policy towards Russia This book will be of interest to students and scholars working in European and EU politics Russian and Soviet politics and International Relations
