Luminous Bliss Self Realisation Through Meditation:

Luminous Bliss Traleg Kyabgon, 2015 MEDITATION DENNIS HILL, 2014-08-07 Through meditation we begin to get glimpses of the stillness With practice the stillness enters us and we begin to enjoy the spontaneous inner sense of serenity Over time the stillness becomes the foundation of our perception and we look out on the world from our peaceful presence Once we know this as our Self we can be free of the anxiety doubt disappointment and fear just being the watcher This is Deep Peace It might come as a surprise that consciousness the Self is the watcher of the mind In this we can become the impartial witness of mental dramas creating separation between the watcher and the chaos of ego Fortunately the mind begins to like the stillness and the suffering evaporates due to lack of interest In this we become truly happy and content

Mind at Ease Traleg Kyabgon, 2004-06-29 A detailed introduction to the Tibetan Buddhist practice of Mahamudra meditation as a means of alleviating suffering and seeing the true beauty of the world In this uniquely insightful overview and practice guide Traleg Kyabgon presents a thorough introduction to the Kagyu lineage s Mahamudra tradition The author s approach is straightforward he presents the Mahamudra teachings as a means of seeing things in as he says a positive and open light Even things we might normally regard as bad and undesirable can be interpreted in a more uplifting way due to the expansiveness of the Mahamudra vision Mahamudra which means great seal or great symbol referring to the symbol or mark of ultimate reality or emptiness points to the true nature of mind as well as the ultimate insubstantiality of all things The book includes an exploration of Mahamudra fundamentals and thorough explanations of Ground Path and Fruition Mahamudra including meditation techniques for investigating experiencing and contemplating these teachings *truth within*

Yoga, Meditation, and Mysticism Kenneth Rose, 2016-09-08 Contemplative experience is central to Hindu yoga traditions Buddhist meditation practices and Catholic mystical theology and despite doctrinal differences it expresses itself in suggestively similar meditative landmarks in each of these three meditative systems In Yoga Meditation and Mysticism Kenneth Rose shifts the dominant focus of contemporary religious studies away from tradition specific studies of individual religious traditions communities and practices to examine the contemplative universals that arise globally in meditative experience Through a comparative exploration of the itineraries detailed in the contemplative manuals of Theravada Buddhism Patajali's Yoga and Catholic mystical theology Rose identifies in each tradition a moment of sharply focused awareness that marks the threshold between immersion in mundane consciousness and contemplative insight As concentration deepens the meditator steps through this threshold onto a globally shared contemplative itinerary which leads through a series of virtually identical stages to mental stillness and insight Rose argues that these contemplative universals familiar to experienced contemplatives in multiple traditions point to a common spiritual mental and biological heritage Pioneering the exploration of contemplative practice and experience with a comparative perspective that ranges over multiple religious traditions religious studies philosophy neuroscience and the cognitive science of religion this book is a
