*From the Earth to the Moon, Direct in Ninety-Seven Hours and Twenty Minutes: and a Trip Round It* Jules

Verne, 2022-06-13 *From the Earth to the Moon* is a novel by Jules Verne telling the story of the Baltimore Gun Club, a post-American Civil War society of weapons enthusiasts and their attempts to build an enormous Columbiad space gun to send to the Moon. Three people have to be on board: the Gun Club's president, his Philadelphian armor-making rival, and a French poet. The book is notable for Verne's attempt to do rough calculations, and some of the figures were remarkably accurate. [Moon](#)

[Facts](#) Amelia Khatri, AI, 2025-02-18 *Moon Facts* embarks on a journey to uncover the secrets of our Moon, blending lunar science with the history of its exploration. It examines the Moon's geological composition and probes into the theories surrounding its formation, including the giant impact hypothesis. The narrative progresses from early telescopic observations to the groundbreaking Apollo missions, showcasing the evolution of space technology and the enduring human quest to explore the unknown. Delving into lunar geology reveals insights into the early solar system and the Earth's own formation. The book uniquely combines rigorous scientific analysis with accessible language to explore the Moon's influence on Earth. Lunar missions have enabled scientists to determine the Moon's composition and surface features, such as craters and maria. *Moon Facts* unfolds in three parts, systematically covering lunar geology, exploration, and cultural significance, culminating in a discussion of future lunar endeavors like lunar bases and resource extraction. The book emphasizes the Moon as a dynamic celestial body that has profoundly impacted Earth's history, making it a crucial platform for future scientific discovery and space exploration.

**Moon Rituals** Nakoa Rainfall, AI, 2025-02-26 *Moon Rituals* delves into the profound impact of the moon on human civilization, revealing its multifaceted influence across history. From ancient lunar calendars that governed agricultural practices to religious ceremonies honoring lunar deities, the moon has shaped our understanding of time, the natural world, and even our social structures. Intriguingly, lunar symbolism often embodied powerful feminine principles, representing cycles of birth, death, and rebirth, reflecting humanity's deepest fears and aspirations. The book begins by establishing the astronomical context of lunar cycles, then explores archaeological evidence of early lunar calendars and their agricultural applications. It examines the moon's role in various religious traditions, from Mesopotamian deities to Greek and Roman mythologies, and investigates its influence on agricultural cycles and traditional farming practices. This comprehensive approach provides unique insights into the deep-seated connections between humanity and the natural world, making it a valuable resource for those interested in history, religion, and cultural studies. The study culminates by tracing the moon's influence on literature and storytelling, analyzing lunar motifs in folklore, poetry, and prose across different cultures and time periods. By presenting a synthesis of scientific, historical, and cultural perspectives, *Moon Rituals* offers a holistic

understanding of the moon's pervasive role in the development of human societies
