Film Noir Homer B. Pettay, 2014-11-11 Explores the development of film noir as a cultural and artistic phenomenon This book traces the development of what we know as film noir from the proto noir elements of Feuillade's silent French crime series and German Expressionism to the genre's mid twentieth century popularization and influence on contemporary global media By employing experimental lighting effects oblique camera angles distorted compositions and

shifting points of view film noir's style both creates and comments upon a morally adumbrated world where the alienating effects of the uncanny the fetishistic and the surreal dominate What drew original audiences to film noir is an immediate recognition of this modern social and psychological reality Much of the appeal of film noir concerns its commentary on social anxieties its cynical view of political and capitalist corruption and its all too brutal depictions of American modernity This book examines the changing often volatile shifts in representations of masculinity and femininity as well as the genre's complex relationship with Afro American culture observable through noir's musical and sonic experiments Key features

- Traces the history of film noir from its aesthetic antecedents through its mid century popularization to its influence on contemporary global media
- Discusses the influence of literary and artistic sources on the development of film noir
- Includes extensive bibliographies filmographies and recommended noir film viewing
- Concludes with a reflective chapter by Alain Silver and James Ursini on their own influential studies and collections on film noir criticism

of body citizenship class and experience through historical case studies Kathleen Canning opens the book with a new overview of the state of the art in European gender history She considers how gender history has revised the master narratives in some fields within modern European history such as the French Revolution but has had a lesser impact in others Weimar and Nazi Germany Gender History in Practice includes two essays now regarded as classics Feminist History after the Linguistic Turn and The Body as Method as well as new chapters on experience citizenship and subjectivity Other essays in the book draw on Canning s work at the intersection of labor history the history of the welfare state and the history of the body showing how the gendered social body was shaped in Imperial Germany The book concludes with a pair of essays on the concepts of class and citizenship in German history offering critical perspectives on feminist understandings of citizenship Featuring an extensive thematic bibliography of influential works in gender history and theory that will prove invaluable to students and scholars Gender History in Practice offers new insights into the history of Germany and Central Europe as well as a timely assessment of gender history s accomplishments and challenges Berlin Coquette Jill Suzanne Smith,2014-02-28 During the late nineteenth century the city of Berlin developed such a reputation for lawlessness and sexual licentiousness that it came to be known as the Whore of Babylon Out of this reputation for debauchery grew an unusually rich discourse around prostitution In Berlin Coquette Jill Suzanne Smith shows how this discourse transcended the usual clichés about prostitutes and actually explored complex visions of alternative moralities or sexual countercultures including the New Morality articulated by feminist radicals lesbian love and the New Woman Combining extensive archival research with close readings of a broad spectrum of texts and images from the late Wilhelmine and Weimar periods Smith recovers a surprising array of productive discussions about extramarital sexuality women s financial autonomy and respectability She highlights in particular the figure of the cocotte Kokotte a specific type of prostitute who capitalized on the illusion of respectable or upstanding womanhood and therefore confounded easy categorization By exploring the semantic connections between the figure of the cocotte and the act of flirtation of being coquette Smith s work presents flirtation as a type of social interaction through which both prostitutes and non prostitutes in Imperial and Weimar Berlin could express extramarital sexual desire and agency **Crime and Criminal Justice in Modern Germany** Richard F.

illuminate German social history gender history and the history of sexuality *Pain and Prosperity* Paul Betts, Greg Eghigian, 2003 The turn of the millennium has stimulated much scholarly reflection on the historical significance of the twentieth century as a whole Explaining the century's dual legacy of progress and prosperity on one hand and of world war genocide and mass destruction on the other has become a key task for academics and policymakers alike Not surprisingly Germany holds a prominent position in the discussion What does it mean for a society to be so closely identified with both inflicting and withstanding enormous suffering as well as with promoting and enjoying unprecedented affluence What did Germany's experiences of misery and abundance fear and security destruction and reconstruction trauma and rehabilitation have to do with one another How has Germany been imagined and experienced as a country uniquely stamped by pain and prosperity The contributors to this book engage these questions by reconsidering Germany's recent past according to the themes of pain and prosperity focusing on such topics as welfare policy urban history childbirth medicine racism political ideology consumerism and nostalgia *Facing Fear* Michael Laffan, Max Weiss, 2012-10-14 Fear is ubiquitous but slippery It has been defined as a purely biological reality derided as an excuse for cowardice attacked as a force for social control and even denigrated as an unnatural condition that has no place in the disenchanted world of enlightened modernity In these times of institutionalized insecurity and global terror *Facing Fear* sheds light on the meaning diversity and dynamism of fear in multiple world historical contexts and demonstrates how fear universally binds us to particular presents but also to a broad spectrum of memories stories and states in the past From the eighteenth century Peruvian highlands and the California borderlands to the urban cityscapes of contemporary Russia and India this book collectively explores the wide range of causes experiences and explanations of this protean emotion The volume contributes to the thriving literature on the history of emotions and destabilizes narratives that have often understood fear in very specific linguistic cultural and geographical settings Rather by using a comparative multidisciplinary framework the book situates fear in more global terms breaks new ground in the historical and cultural analysis of emotions and sets out a new agenda for further research In addition to the editors the contributors are Alexander Etkind Lisbeth Haas Andreas Killen David Lederer Melani McAlister Ronald Schechter Marla Stone Ravi Sundaram and Charles Walker *Women in German Yearbook 2005* Marjorie Gelus, Helga W. Kraft, 2006-01-01 *Women in German Yearbook* is a refereed publication that presents a wide range of feminist approaches to all aspects of German literature culture and language including pedagogy Reflecting the interdisciplinary perspectives that inform feminist German studies each issue contains critical studies that employ gender and other analytical categories to examine the work history life literature and arts of the German speaking world Marjorie Gelus is a professor of German at California State University at Sacramento Helga W Kraft is a professor of Germanic studies at the University of Illinois at Chicago *Psychological Trauma and the Legacies of the First World War* Jason Crouthamel, Peter Leese, 2016-11-17 This transnational interdisciplinary study of traumatic neurosis moves beyond the existing histories of

medical theory welfare and symptomatology The essays explore the personal traumas of soldiers and civilians in the wake of the First World War they also discuss how memory and representations of trauma are transmitted between patients doctors and families across generations The book argues that so far the traumatic effects of the war have been substantially underestimated Trauma was shaped by gender politics and personality To uncover the varied forms of trauma ignored by medical and political authorities this volume draws on diverse sources such as family archives and narratives by children of traumatized men documents from film and photography memoirs by soldiers and civilians This innovative study challenges us to re examine our approach to the complex psychological effects of the First World War

International Adventures Tim Bergfelder, 2005-09-01 West German cinema of the 1960s is frequently associated with the emergence of a new generation of filmmakers collectively known by the 1970s as the New German Cinema Yet for domestic and international audiences at the time German cinema primarily meant popular genres such as exotic adventure films Gothic crime thrillers westerns and sex films which were dismissed by German filmmakers and critics of the 1970s as Daddy s Cinema *International Adventures* provides the first comprehensive account of these genres and charts the history of the West German film industry and its main protagonists from the immediate post war years to its boom period in the 1950s and 1960s By analyzing film genres in the context of industrial practices literary traditions biographical trajectories and wider cultural and social developments this book uncovers a forgotten period of German filmmaking that merits reassessment *International Adventures* firmly locates its case studies within the wider dynamic of European cinema In its study of West German cinema s links and co operations with other countries including Britain France and Italy the book addresses what is perhaps the most striking phenomenon of 1960s popular film genres the dispersal and disappearance of markers of national identity in increasingly international narratives and modes of production
