most important if not the fundamental quality that makes us human distinguishing us from animals on one hand and machines on the other But what is conscience exactly Is it a product of our biological roots as Darwin thought or is it a purely social invention If the latter how did it come into the world In this biography of that most elusive human element Martin van Creveld explores conscience throughout history ranging across numerous subjects from human rights to health to the environment Along the way he considers the evolution of conscience in its myriad occasionally strange and ever surprising permutations He examines the Old Testament which erroneously it turns out is normally seen as the fountainhead from which the Western idea of conscience has sprung Next he takes us to meet Antigone the first person on record to explicitly speak of conscience We then visit with the philosophers Zeno Cicero and Seneca with Christian thinkers such as Paul Augustine

Aquinas and above all Martin Luther as well as modern intellectual giants such as Machiavelli Rousseau Kant Hegel Nietzsche and Freud Individual chapters are devoted to Japan China and even the Nazis as well as the most recent discoveries in robotics and neuroscience and how they have contributed to the ways we think about our own morality Ultimately van Creveld shows that conscience remains as elusive as ever a continuously mysterious voice that guides how we think about right and wrong

Renaissance and Reformation William R. Estep, 1986-02-04 Readable and informative this major text in Reformation history is a detailed exploration of the many facets of the Reformation especially its relationship to the Renaissance Estep pays particular attention to key individuals of the period including Wycliffe Huss Erasmus Luther Zwingli and Calvin Illustrated with maps and pictures

Martin Luther's Basic Theological Writings Martin Luther, 2012 Martin Luther's Basic Theological Writings has become the gold standard for use in seminary and college environments It not only offers all of Luther's most influential noted and important writings in the modern translations but also includes excerpts of his sermons and letters that shed light on Luther's own religious and theological development The volume takes the reader straight to Luther the man to his controversial Reformation insights to his strongest convictions about God and Scripture and the life of the church and most valuably to his theology a still exciting encounter with the meaning of Jesus Christ for each age

The Sign of the Cross Daniel Rancour-Laferriere, 2017-09-08 This book presents a unique effort to create a new understanding of the Christian sign of the cross At its core it traces the conscious and unconscious influence of this visual symbol through time What began as the crucifixion of a Jewish troublemaker in Roman occupied Judea in the first century eventually gave rise to a broad spectrum of readings of the instrument used to accomplish such a punishment a cross The author argues that Jesus was a provocative grandiose masochist whose suffering and death initially signified redemption for believers This idea gradually morphed into a Christian sense of freedom to persecute and wage war against non believers however as can be seen in the Crusades wars of the cross Many believers even construed the murder of their savior as a crime perpetrated by the Jews and this paranoid notion culminated in the mass murder of European Jews under the sign of the Nazi hooked cross Hakenkreuz Rancour Laferriere's book is expertly written and argued it will be readable to a large audience because it touches on many areas of controversy interest and scholarship The work is critical but not unfair it employs psychoanalysis art history the study of the symbol of the cross in works of art religion and religious texts and world history generally The interweaving of these various themes is what gives this work its ability to draw in readers and will ultimately be what keeps the reader interested through the conclusion

Triadosis Eduard Borysov, 2021-01-01 The complex nature of Christian communion with a personal God requires a nuanced expression Since its inception the early church affirmed God's unknowable nature and also participation

in God through Christ The church fathers employed the language of theosis in talking about union with God and human transformation in the likeness of God However the term theosis or deification is a broad category and requires precise explanation to avoid human dissolution into the divine in the mystical union it attempts to describe In Triadosis Eduard Borysov offers a new approach to the conundrum of the imparticipable divine nature and the prospect of personal union between human and the Trinity Most significantly he proposes that if God is Trinity then we are created and restored in the image of the same tri personal God
