Lutheran Identity and Mission William Henry Lazareth, Peri Rasolondraibe, 1994
Lutheran Identity and Political Theology Carl-Henric Grenholm, Goran Gunner, 2015-03-26 Lutheran tradition has in various ways influenced attitudes to work the economy the state education and health care One reason that Lutheran theology has been interpreted in various ways is that it is always influenced by surrounding social and cultural contexts In a society where the church has lost a great deal of its cultural impact and authority and where there is a plurality of religious convictions the question of Lutheran identity has never been more urgent However this question is also raised in the Global South where Lutheran churches need to find their identity in a relationship with several other religions Here this relationship is developed from a minority perspective Is it possible to develop a Lutheran political theology that gives adequate contributions to issues concerning social and economic justice What is the role of women in church and society around the world Is it possible to interpret Lutheran theology in such a way that it includes liberating perspectives These are some of the questions and issues discussed in this book

The Pietist Impulse in Christianity Christian T. Collins Winn, Christopher Gehr, G. William Carlson, Eric Holst, 2011-07-01

From intellectual inquiry to spiritual practice to social reform, Pietism has exerted an enormous influence on various forms of Christianity and on Western culture more generally. However, this contribution remains largely unacknowledged or misunderstood in Anglo-American contexts because negative stereotypes—some undeserved, others deserved—tend to cast Pietism as a quietistic and sectarian form of religion interested in a narrow set of individualistic and spiritual concerns. In this volume, scholars from a variety of disciplines offer a corrective to this misunderstanding, highlighting the profound theological, cultural, and spiritual contribution of Pietism and what they term the pietist impulse. The essays in this volume demonstrate that Pietism was a movement of great depth and originality that was

not merely concerned with the pious soul and its God Rather Pietists were from the beginning concerned with issues of social and ecclesial reform the nature of history and historical inquiry the shape and purpose of theology and theological education the missional task of the church and social justice and political engagement In addition the essays collected here fruitfully raise the question of the ongoing relevance of Pietism and the pietist impulse for contemporary problems and questions across disciplines and in the church at large

Global Lutheranism in the Contemporary World Richard

Cimino, 2025-07-18 This book explores Lutheranism and its various expressions throughout the world This Protestant tradition has spread and developed far from its European and American heartlands to take on increasingly diverse forms The global dispersion of Lutheranism and how it interacts with different cultures and worldviews has resulted in Lutheran pluralism in theology and church practices Still there are distinctive Lutheran teachings that are present in most churches going by that name However complex the concept of world Lutheranism may be this volume demonstrates that a wide angle view can best be achieved through understanding national Lutheran expressions and the lived religion of these churches and their adherents The globalization of Christianity has impacted all communions but at the same time local and national contexts and institutions remain crucial in mediating global and transnational flows and shaping Christian identity particularly as globalization has been challenged by nationalism and populism The contributors employ historical and sociological research methods along with theological analysis to understand Lutheranism The chapters consider prospects for Lutheranism and Lutheran identity in vastly different societies reflecting the continuing growth of Lutheran churches in the global South and East The countries and regions examined may not comprise all of the world's Lutherans but they are in most cases the societies with the strongest Lutheran presence that will decide the future of Lutheranism The book will be of particular interest to scholars of global Christianity and the history of Christianity
