**Religious Warfare in Europe 1400-1536** Norman Housley, 2008-11-06 Religious warfare has been a recurrent feature of European history In this intelligent and readable study the distinguished Crusade historian Norman Housley describes and analyses the principal expressions of holy war in the period from the Hussite wars to the first generation of the Reformation The context was one of both challenge and expansion The Ottoman Turks posed an unprecedented external threat to the Christian republic while doctrinal dissent constant warfare between states and rebellion eroded it from within Professor Housley shows how in these circumstances the propensity to sanctify warfare took radically different forms At times warfare between national communities was shaped by convictions of sacred patriotism either in defending God given native land or in the pursuit of messianic programmes abroad Insurrectionary activity especially when driven by apocalyptic expectations was a second important type of religious war In the 1420s and early 1430s the Hussites waged war successfully in defence of what they believed to be God s Law And some frontier communities depicted their struggle against non believers as religious war by reference to crusading ideas and habits of thought Professor Housley pinpoints what these conflicts had in common in the ways the combatants perceived their own role their demonization of their opponents and the ongoing critique of religious war in all its forms This is a major contribution to both Crusade history and the study of the Wars of Religion of the early modern period Professor Housley explores the interaction between Crusade and religious war in the broader sense and argues that the religious violence of the sixteenth and seventeenth centuries was organic in the sense that it sprang from deeply rooted proclivities within European society     *Luther: A Guide for the Perplexed* David M Whitford, 2013-12-27 This is an upper level introduction to the German Reformer Martin Luther who by his thought and action started the Reformation movement Martin Luther was one of the most influential and important figures of the second millennium His break with Rome and the development of separate Evangelical churches affected not just the religious life of Europe but also social and political landscapes as well More books have been written about Luther than nearly any other historical figure Despite all

these books Luther remains an enigmatic figure This book proposes to examine a number of key moments in Luther's life and fundamental theological positions that remain perplexing to most students This book will also present an introduction to the primary sources available to a student and important secondary works that ought to be consulted The Guides for the Perplexed series are clear concise and accessible introductions to thinkers writers and subjects that students and readers can find especially challenging or indeed downright bewildering Concentrating specifically on what it is that makes the subject difficult to grasp these books explain and explore key themes and ideas guiding the reader towards a thorough understanding of demanding material

Music in Martin Luther's Theology Yakub E. Kartawidjaja, 2021-04-12 The study aims to analyse the impact of Luther's theology on his thoughts about music It limits itself to an analysis of the topic by focusing on the three most important statements of Luther about music in his unfinished treatise On Music The first statement is that music is a gift of God and not of man *Dei donum hominum est* second music creates joyful soul *facit letos animos* and third music drives away the devil *fugat diabolum* The relation between these three statements to each other and to Luther's theology in general can be understood in connection with his personal experiences and commitments to music which were undergirded by his theology Luther as a man of medieval times took for granted the existence of the devil and many of his writings contained frequent references to the personal attacks of the devil where it influenced his thoughts about music

**Martin Luther's Theology of Two Kingdoms in Buddhist and Christian Communities** Pa Yaw, 2024-05-29 Socially engaged religion teaches that people of faith have a responsibility to address and reduce suffering in all its forms both physical and spiritual including suffering resulting from social injustice exploitation oppression false faith and so forth True religion engages with society to alleviate suffering and bring transformation In other words religious violence is an obscenity a deviation from the true character of religion Martin Luther's Theology of Two Kingdoms in Buddhist and Christian Communities examines the principle of separation between religion and politics in the context of both Buddhist and Christian communities In predominantly Buddhist contexts such as Myanmar where a reciprocal relationship between religion and politics is expected separation is not effective Attempts by Christians to separate religion and politics cause the church to run away from tyranny and follow the state with blind obedience Martin Luther's model of two distinct but interconnected systems for religion and politics creates space for each institution to give constructive advice and criticism to the other for the health of all human beings

**Luther and the Radicals** Harry Loewen, 2010-10-30 In their zeal to tell the true story of sixteenth century radicalism some sympathizers of the Anabaptist movement have portrayed the once maligned individuals and groups as innocent pious people who suffered cruel persecution at the hands of the wicked state churchmen Their side of the story is thus often as one sided as was the story of the enemies of Anabaptism This book written by a Mennonite scholar seeks to understand the reasons for the clash between Luther and

the radicals a point often neglected when one or the other side is emphasized The study keeps Luther however in a central position exploring the issues which led to the Reformer s attitude toward the radicals and analyzing the principles that were at stake in his struggle with the dissident groups      **Martin Luther** Bernhard Lohse,1986 Attention is given to major writings relative importance genre and historical context Guides reader through significant issues in Luther s theology and discusses contributions
