**The Report: Ghana 2014** Oxford Business Group, 2014-12-18. The economy has a history of strong government involvement and a legacy of socialist policies in the 1960s and 1970s with statist companies involved in both energy and agriculture yet the country's market is now among the more liberalised in the region. Ghana has a strong export profile although it is somewhat dependent on commodities. It is the world's second largest exporter of cocoa behind Côte d'Ivoire and one of the continent's largest gold producers while new reserves of oil and gas have helped further expand its resource wealth. The economy saw expansion of 7.1% in 2013 while inflation reached 14.5% in March 2014. Although inflation and balance of payments remain the country's biggest economic challenges measures have been taken to strengthen the cedi and curb inflation.

Routledge Handbook on Tourism in the Middle East and North Africa Dallen Timothy, 2018-12-07. The Routledge Handbook on Tourism in the Middle East and North Africa examines the importance of tourism as a historical, economic, social, environmental, religious and political force in the Middle East and North Africa (MENA). It highlights the ecological and resource challenges related to water, desert environments, climate change and oil. It provides an in-depth analysis of the geopolitical conditions that have long determined the patterns of tourism demand and supply throughout the region and how these play out in the everyday lives of residents and destinations as they attempt to grow tourism or ignore it entirely. While cultural heritage remains the primary tourism asset for the region as a whole, many new types of tourism are emerging, especially in the Arabian Gulf region where hyper-development is closely associated with the increasingly prominent role of luxury real estate and shopping retail, medical tourism, cruises and transit tourism. The growing phenomenon of an expatriate workforce and how its segregation from the citizenry creates a dual socio-economic system in several countries is unmatched by other regions of the world. Many indigenous people of MENA keep themselves apart from other dominant groups in the region although these social boundaries are becoming increasingly blurred as tourism, being one socio-economic force for change, has inspired many nomadic peoples to settle into towns and villages and rely more on tourists for their livelihoods. All of these issues and more shape the foundations of this book. This Handbook is the first of its kind to examine tourism from a broad regional and inclusive perspective, surveying a broad range of social, cultural, heritage, ecological and political matters in a single volume. With a wide range of contributors, many of whom are natives of the Middle

East and North Africa this Handbook is a vital resource for students and scholars interested in Tourism Middle East Studies and Geography      **Worldwide Destinations** Brian Boniface, Robyn Cooper, Chris Cooper, 2016-03-31 Worldwide
