Lyon Et Sa Region:

Lyon et sa région ,1920 **Regional Dynamics Burgundian Landscapes in Historical Perspective** Carole Crumley,2013-10-24 Regional Dynamics Burgundian Landscapes in Historical Perspective challenges traditional practices and approaches to regional studies by anthropologists and economic geographers This book attempts to incorporate various fields such as natural sciences social sciences and humanities for a more comprehensive framework in regional studies A region that has historical record of depth i e Burgundy France is chosen for this book The book begins with a chapter on theories that critique the past approaches to regional studies and introduces relevant concepts covered in the book such as landscape sociohistorical structures heterarchy etc The following chapters focus on the physical structures of the region the archaeological excavations settlement and land use during the Iron Age and Gallo Roman times multiscalar research design and Roman period beginning from its conquest until the Middle Ages A summary of important themes is given in the last chapter This book caters to many students and professionals in various fields like anthropology geography archeology history economics and ecology **TOP Bulletin** ,1986-12-29 **Roman Gaul (Routledge Revivals)** John Drinkwater,2014-04-08 Roman Gaul first published in 1983 makes use of a wealth of archaeological discoveries and modern methods of interpretation to give an account of the Roman presence in Gaul from the time of Caesar s conquests until the Crisis of the third century Professor Drinkwater emphasises the changes caused in the Three Gauls and Germany by the impact of Romanisation urbanisation agriculture trade and education and points out the often curious ways in which Roman influences survive in these areas to the present day Particular attention is paid to the evolution of the landowning class as well as its relationship with the artisans and traders found in townships and cities An assessment of the strength of Romano Gallic society and its economy in the tumultuous third century AD concludes this lively and provocative coverage of an intriguing subject Roman Gaul will be of interest to all students of the Roman legacy *Rivers and the Power of Ancient Rome* J. B. Campbell,2012 Figuring in myth religion law the military commerce and transportation rivers were at the heart of Rome s increasing exploitation of the environment of the Mediterranean world In *Rivers and the Power of Ancient Rome* Brian Campbell explores City Phil Hubbard,2006-09-27 Locates the concept of the city within traditions of social thought providing a basis for understanding its varying usages and meanings Spelling out the importance of a geographical perspective on the city this book suggests that it is only by bringing different ways of mapping it together that we can begin to make sense of it **Old Age from Antiquity to Post-Modernity** Paul Johnson,Pat Thane,2002-11-01 Based on themes such as status and welfare Old Age from Antiquity to Post Modernity examines the role of the elderly in history This empirical study represents a substantial contribution to both the historical understanding of old age in past societies as well as the discussion of the contribution of post modernism to historical scholarship *The Wretched of France* Abdellali Hajjat,2022-03-01 In 1983 as France struggled with race based crimes police brutality and public unrest youths from V

nissieux working class suburbs of Lyon led the March for Equality and Against Racism the first national demonstration of its type in France As Abdellali Hajjat reveals the historic March for Equality and Against Racism symbolized for many the experience of the children of postcolonial immigrants Inspired by the May 68 protests these young immigrants stood against racist crimes for equality before the law and the police and for basic rights such as the right to work and housing Hajjat also considers the divisions that arose from the march and offers fresh insight into the paradoxes and intricacies of movements pushing toward sweeping social change Translated into English for the first time *The Wretched of France* contemplates the protest's lasting significance in France as well as its impact within the context of larger and comparable movements for civil rights particularly in the US

Le Corbusier. Le Couvent Sainte Marie de La Tourette / The Monastery of Sainte Marie de La Tourette Philippe Potié, 2015-04-24 In 1952 Le Corbusier was commissioned to dwell in the silence of men of prayer and study and to construct a church for them The result was his impressive Convent of La Tourette marking a significant step in modern religious architecture Beginning with the rectangular form common to the Cistercian monastic tradition he created a building whose stark form contrasts beautifully with the organic elements of the interior court and the grasslands surrounding it The church itself is a model of simplicity the cement has been left rough and the well located sources of light evoke a feeling of silence and reflection The order's precept of prayer study and reflection is aptly mirrored in the architecture Like the other Le Corbusier Guides published by Birkhäuser this volume provides a wealth of plans details photographs and information on this building which today is also a conference centre

Encyclopedia of the History of Classical Archaeology Nancy Thomson de Grummond, 2015-05-11 With 1,125 entries and 170 contributors this is the first encyclopedia on the history of classical archaeology It focuses on Greek and Roman material but also covers the prehistoric and semi-historical cultures of the Bronze Age Aegean the Etruscans and manifestations of Greek and Roman culture in Europe and Asia Minor The Encyclopedia of the History of Classical Archaeology includes entries on individuals whose activities influenced the knowledge of sites and monuments in their own time articles on famous monuments and sites as seen changed and interpreted through time and entries on major works of art excavated from the Renaissance to the present day as well as works known in the Middle Ages As the definitive source on a comparatively new discipline the history of archaeology these finely illustrated volumes will be useful to students and scholars in archaeology the classics history topography and art and architectural history

Cities in Globalization Peter Taylor, Ben Derudder, Pieter Saey, Frank Witlox, 2006-11-20 Despite traditionally being a strong research topic in urban studies inter-city relations had become grossly neglected until recently when it was placed back on the research agenda with the advent of studies of world global cities More recently the external relations of cities have taken their place alongside internal relations within cities to constitute the full nature of cities This collection of essays on how and why cities are connecting to each other in a globalizing world provides evidence for a new city-centered geography that is emerging in the twenty-first century *Cities in Globalization*

covers four key themes beginning with the different ways of measuring a world city network ranging from analyses of corporate structures to airline passenger flows Second is the recent European advances in studying urban systems which are compared to the Anglo American city networks approach These chapters add conceptual vigour to traditional themes and provide findings on European cities in globalization Thirdly the political implications of these new geographies of flows are considered in a variety of contexts the localism of city planning specialist political world cities and the war on terror Finally there are a series of chapters that critically review the state of our knowledge on contemporary relations between cities in globalization Cities in Globalization provides an up to date assembly of leading American and European researchers reporting their ideas on the critical issue of how cities are faring in contemporary globalization and is highly illustrated throughout with over forty figures and tables
