that has happened any time as it brought the public sphere into the home and women into the public sphere Taking this claim as its starting point *Sound Citizens* examines how a cohort of professional women broadcasters activists and politicians used radio to contribute to the public sphere and improve women s status in Australia from the introduction of radio in 1923 until the introduction of television in 1956 This book reveals a much broader and more complex history of women s contributions to Australian broadcasting than has been previously acknowledged Using a rich archive of radio magazines station archives scripts personal papers and surviving recordings *Sound Citizens* traces how women broadcasters used radio as a tool for their advocacy radio s significance to the history of women s advancement and how broadcasting was used in the development of women s citizenship in Australia It argues that women broadcasters saw radio as a medium that had the potential to transform women s lives and status in society and that they worked to both claim their own voices in the public sphere and to encourage other women to become active citizens Radio provided a platform for women to contribute to public discourse and normalised the presence of women s voices in the public sphere both literally and figuratively
