Technology Challenged Miguel Flach Aznar, 2005 For most of the earth's existence it has hosted organic life. Single cell life evolved into multicellular plants and animals. Some animals started to use simple tools from otters cracking open shellfish with rocks to chimpanzees dipping into termite mounds with sticks but another animal went farther. It used tools to create even better tools. With spears it hunted. With sewn animal

hides it survived the cold With plows it created surplus With tablet and scribes it recorded information These tools led to the printing press microscope steam engine telephone airplane and computer We call these things technology and for a million years they have been transforming our environment with ever increasing speed and power costs and benefits Technology creates new fields of study destroys old lines of work and offers new ways to cure illness Our political decisions and consumption choices rest atop technology So how do we choose How do we evaluate technology and technological issues to choose what is good for us our community and our civilization Through simple questions Technology Challenged reveals patterns underlying all technology helping us to understand our creations and choose our future Praise for Technology Challenged Fish don't notice water and most of society doesn't think about technology But technology grows ever more powerful and blindly accepting or rejecting it grows ever more dangerous The critical thinking process described by Aznar opens a door to understanding through which every citizen in our country should walk Karl Pister Chancellor Emeritus University of California at Santa Cruz Technology infuses everything we do Like a gathering storm it has become the fastest moving most powerful new element of our natural world Like any force of nature it is something we should study well to chart a course to a better future a course that takes care of our loved ones along the way Only a lifelong learner can be a good captain in our technological world and this scintillating optimistic book will help you get your sea legs Read Technology Challenged consider its advice and rejoice This is a wondrous time to be alive John Smart President Institute for the Study of Accelerating Change Technology Challenged is a passionate and personal voyage of discovery into today's complicated world of technology Here educators and parents can find a simple road map to understanding technology and find a new approach to get across technologys culture and wisdom to children of all ages Dom Lindars Senior Director Oracle Corporation Having tracked technology on surprising pathways to its secret dumping grounds in the slums of China and India I have witnessed both sides of the technology coin the glory as well as the horror Our very survival as a species requires that we fully appreciate both possibilities Anyone concerned about the life and death relationship between our planet's future and technology should read Technology Challenged Jim Puckett Coordinator Basel Action Network Aznar tackles the important issue of how we as a society evaluate our technology With the power to feed the world or to destroy it technology is worth thinking about Cathy Barlow Dean Watson School of Education University of North Carolina at Wilmington
