MacArthur Communicative Development Inventories Larry Fenson, Philip S. Dale, J. Steven Reznick, 2003-01-01 Professionals can learn a great deal about young children s emerging language and communication skills by consulting the ones who know the children best their parents or caregivers Now with the CDIs and their Spanish adaptation the Inventarios professionals can tap into parents invaluable day to day knowledge and respond to legislation that requires parental input in child evaluations Top language researchers developed these standardized parent completed report forms CDIs for English speakers and Inventarios for Spanish speakers designing the forms to focus on current behaviors and on salient emergent skills and behaviors that parents can recognize and track Both the CDIs and the Inventarios have three components A words and gestures form The CDI Words and Gestures is for use with children ages 8 16 months while Inventario I Primeras Palabras y Gestos is for 8 18 months In both the forms the first part prompts parents to document the

child's understanding of hundreds of early vocabulary items separated into semantic categories such as animal names, household items, and action words. Parents mark the words understood or used, and the forms yield separate indexes of words understood and words produced. The second part of each form asks parents to record the communicative and symbolic gestures the child has tried or completed. Note: The Spanish and English forms were developed separately to reflect the vocabulary and grammatical structure of each language. A words and sentences form. Both CDI Words and Sentences and Inventario II Palabras y Enunciados are for use with children ages 16-30 months. In the first part of each form, parents document the child's production and use of hundreds of words divided into semantic categories. The second part analyzes the early phases of grammar, including the child's understanding of word forms and the complexity of the child's multi-word utterances. Parents identify the words the child has understood or used and provide written examples of the child's three longest sentences. Note: Vocabulary checklists in the Inventarios were adapted to reflect linguistic and cultural differences, and the grammar section was modified to fit certain features of the Spanish language, such as the existence of four definite articles. User's Guide and Technical Manual. The manuals for CDIs and Inventarios are both in English, but each has been tailored to the content of its corresponding tool. Both provide detailed instructions for administering, scoring, and interpreting the forms; various uses of the inventories for clinical and research purposes; background information on the development of the forms; technical reports on reliability and validity; and tables and graphs of norming data. **MacArthur**

Communicative Development Inventories (User's Guide And Technical Manual) Larry Fenson, Philip S. Dale, J. Steven Reznick, 2002-11. Inventario I Primeras Palabras y Gestos, sold in packages of 25 for easy re-ordering, is one of the two standardized parent-completed report forms that make up the Spanish adaptation of the MacArthur Communicative Development Inventories (CDIs), which was designed by top language researchers to assess language and communication skills in young children ages 8-30 months. With the Inventarios, professionals can tap into parents' invaluable day-to-day knowledge about their children's language and communication skills and respond to legislation that requires parental input in child evaluations. The forms focus on current behaviors and salient emergent behaviors that parents can recognize and track. Numerous studies document the reliability and validity, clinical utility, and research potential of the CDIs and Inventarios. The CDIs were normed on approximately 1,800 children in three locations, and the Inventarios were normed on more than 2,000 children. The CDI and Inventario forms were developed separately to reflect the vocabulary and grammatical structure of each language. Inventario I Primeras Palabras y Gestos is a words and gestures form for use with children ages 8-18 months. The first part of the form prompts parents to document the child's understanding of hundreds of early vocabulary items separated into semantic categories such as animal names, sound effects, and question words. Parents mark the words understood or used, and the form yields separate indexes of words understood and words produced. The second part of the form asks parents to record the communicative and symbolic gestures the child has tried or completed. This form generally

takes 20-40 minutes to complete and 20-30 minutes to score by hand it is also desktop scannable with the appropriate software Also available are the Inventario II Palabras y Enunciados and the User's Guide and Technical Manual These forms are part of the MacArthur Bates Inventarios del Desarrollo de Habilidades Comunicativas Inventarios The Inventarios and their English version the CDIs are standardized parent completed report forms that track young children's language and communication skills Top language researchers developed the report forms designing them to focus on current behaviors and salient emergent behaviors that parents can recognize and track This product is sold in a package of 20 Learn more about the CDIs and the Inventarios

Origins of Language Disorders Donna J. Thal, Judith S. Reilly, 2014-10-13 This special issue represents the initial products of the first five years of a multi center project entitled Origins of Communicative

Disorders As the title implies the common goal of investigators involved in this project was to describe the development of communicative skills from their earliest measurable points so that factors characterizing the earliest stages of communicative disorders can be teased apart from those which lead to development of typical language ability in later childhood The papers in this volume provide a comprehensive picture of early language development and its neural correlates across a range of typical and atypical populations By looking at language abilities from their point of origin from the very first signs of word comprehension to the emergence of grammar the authors construct a foundation for future research on the nature and etiology of communication disorders Library of Congress Subject Headings Library of Congress,2012 **Essentials of**
