## Macaulay And The Whig Tradition:

**Macaulay and the Whig Tradition** Joseph Hamburger, 1976      Herbert Butterfield and the Interpretation of History K. Sewell, 2005-01-13 This book examines successive stages in the development of the thought of Sir Herbert Butterfield in relation to fundamental issues in the science of history In a carefully nuanced way it lays bare the unspoken motivations and hidden tensions in Butterfield's debate with himself and with a host of contemporary historians in the period between 1924-79      Liberalism and Local Government in Early Victorian London Benjamin Weinstein, 2011 This is an exploration of the conflict between Whig politicians and London radicals in metropolitan government      *Lord Macaulay's History of England* John Burrow, 2010-06-01 Thomas Babington Macaulay's History of England from the Accession of James II was his masterwork and one of the great enduring classics of English historical writing This volume contains the celebrated third chapter which inherently contributed to the development of social history by presenting a highly contextually relevant extensive survey of English society in the year 1685 in terms of such things as population cities classes and tastes Macaulay's approach to his subject as John Burrow explains in his masterly introduction was that of a definite advocate of progress He saw many real achievements in British and World history as resulting from policies pursued by Whig political interest

Writing the Victorian Constitution Ian Ward, 2018-08-21 This book charts the writing of the English constitution through the work of four of the most influential jurists in the history of English constitutional thought Edmund Burke Thomas Babington Macaulay Walter Bagehot and Albert Venn Dicey Stretching from the French Revolution to the death of Queen Victoria their writing is both representative of and formative to the Victorian constitution Ian Ward traces how constitutional writing changed over the course of the long nineteenth century from the poetics of Burke and the romance of Macaulay to the pragmatism of Bagehot and the jurisprudence of Dicey A century on our perception of the English constitution is still shaped by this contested history      *The Historian At Work* John Cannon, 2018-10-24 This volume originally published in 1980 discusses the way in which distinguished historians such as Gibbon Ranke Macaulay De Tocqueville Marx Maitland Bloch Namier Wheeler Butterfield and Braudel have regarded and tackled their discipline As well as chapters by individual authors who are experts on their chosen historian there is a substantial introduction by the editor which serves as the basis for a discussion about the problems involved in the writing of history      **The New Philosophy and Universal Languages in Seventeenth-century England** Robert E. Stillman, 1995 That saving form of knowledge as it develops in the lines of linguistic thought that extend from Bacon's Instauration to Wilkins's Philosophical Language is both a product of and one potent agent in producing the emerging scientifically designed modern state      *Fifty Key Thinkers on History* Marnie Hughes-Warrington, 2014-09-04 Fifty Key Thinkers on History is an essential guide to the most influential historians theorists and philosophers of history The entries offer comprehensive coverage of the long history of historiography ranging from ancient China Greece and Rome through the Middle Ages to the contemporary world This third edition has been updated

throughout and features new entries on Machiavelli Ranajit Guha William McNeil and Niall Ferguson Other thinkers who are introduced include Herodotus Bede Ibn Khaldun E H Carr Fernand Braudel Eric Hobsbawm Michel Foucault Edward Gibbon Each clear and concise essay offers a brief biographical introduction a summary and discussion of each thinker s approach to history and how others have engaged with it a list of their major works and a list of resources for further study

**Words on Fire** Rob Goodman,2021-12-16 Ranging from Cicero s Rome to contemporary politics Words on Fire is a provocative rethinking of political eloquence for our time

**The Political Thought of Woodrow Wilson, 1875-1910** Niels Aage Thorsen,2014-07-14 Niels Thorsen argues that Woodrow Wilson was one of America s most important political scientists Focusing on the period from Wilson s early years until he was elected Governor of New Jersey this work shows why he deserves a prominent place in the history of American political thought even apart from his later attainments in the political arena His book Congressional Government his seminal article on The Study of Public Administration and his textbook on The State were important contributions during the formative years of academic political science in America In contrast to those who propose psychological explanations of Wilson s early interest in political problems Thorsen contends that the crisis of the election of 1876 against the backdrop of the Civil War was decisive in turning Wilson s attention to political ideas Implying the abandonment of a more traditional form of political thought based on the social contract and on constitutionalism egalitarianism and common sense Wilson linked his conclusions about the nature of politics to the rise of the social and economic sciences Distinctive in his academic work were ideas about social and economic diversification as the condition for the growth of national power and about political leadership asserted at home and abroad as a way to overcome traditional American fears about centralized power Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

*Moderate and Radical Liberalism* Nathaniel Wolloch,2022-01-31 This book provides a new reading of one of the most significant chapters in the history of social and political thought the transition from the late Enlightenment to early liberalism In contrast with prevailing interpretations of the emergence of liberalism which emphasize the conservative liberal reaction of the nineteenth century it presents a more optimistic depiction of how formerly radical principles of the Enlightenment were eventually adopted by the mainstream of moderate early liberalism To substantiate this innovative interpretation the book provides a detailed history of late Enlightenment and early liberal social and political thought on both sides of the Atlantic See inside the book

**The New History and the Old** Gertrude Himmelfarb,1987 The New History and the Old is a marvelously written perfectly serious yet vastly entertaining critique of current fashions in the writing of history social

history psychoanalytic history quantitative history Marxist and neo Marxist history mentalit history As the new history is coming to dominate the profession Gertrude Himmelfarb argues it tends to supplant rather than supplement the old which centered on political constitutional diplomatic and intellectual events The effect is not only to transform the discipline of history but also to alter profoundly our sense of the past A mode of history that belittles politics and ideas denigrates the political institutions and intellectual traditions that have shaped our past and severs the continuity between past and present leaving little that is usable in their place This provocative analysis of the revolution in history as it has been called has implications that go well beyond the discipline of history itself It raises fundamental and far reaching questions about the nature of our postmodern society and will undoubtedly arouse a good deal of discussion and debate along broad cultural lines

*Routledge Library Editions: Historiography* Various, 2021-06-23 The greatest problem in historical scholarship theoretically and practically is the relation between historians and their subject matter The past is gone and historians can only study its remnants On what basis do scholars select certain facts from the mass of data left from the past How do they explain the interrelationship of the facts they select What criteria do they use to evaluate their subject The 35 volumes in this set originally published between 1926 and 1990 discuss and answer these essential questions faced by historians The development of historical understanding during the 18th and 19th centuries was one of the most striking features of Western culture Both historiography and historical thinking advanced as never before The historical movement of the 19th century was perhaps second only to the scientific revolution of the seventeenth century in transforming Western thought One consequence was extensive organisation and professionalization of research which the volumes in this set reflect

*Encyclopedia of the Romantic Era, 1760-1850* Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism

J.S. Mill's Encounter with India Martin Moir, Douglas M. Peers, Professor of History and Dean of the Faculty of Arts Douglas M Peers, Lynn Zastoupil, 1999-01-01 John Stuart Mill worked for the East India Company in London for thirty five years 1823-58 drafting many hundreds of dispatches for the guidance of British administrators in India Historians have long been aware of Mill's involvement in British Indian government This comprehensive effort brings together different strands of scholarship on Mill to determine the character of his role based on analyses of his draft despatches and comparisons of their practical and theoretical concerns with the broad themes of Mill's major writings on political philosophy and economics The essays in this collection explore specific aspects of Mill's approach to Indian issues including religion law education and security and also place him within the broader currents of utilitarianism The

contributors present different perspectives on the ideology in Mill's pragmatic work for the Company and his personal philosophy

**The Economic Causes of the English Civil War** George Yerby, 2019-08-19 This is a coordinated presentation of the economic basis of revolutionary change in 16th and early 17th century England addressing a crucial but neglected phase of historical development It traces a transformation in the agrarian economy and substantiates the decisive scale on which this took place showing how the new forms of occupation and practice on the land related to seminal changes in the general dynamics of commercial activity An integrated self-regulating national market generated new imperatives particularly a demand for a right of freedom of trade from arbitrary exactions and restraints This took political force through the special status that rights of consent had acquired in England based on the rise of sovereign representative law following the Break with Rome These associations were reflected in a distinctive merchant gentry alliance seeking to establish freedom of trade and representative control of public finance through parliament This produced a persistent challenge to royal prerogatives such as impositions from 1610 onwards Parliamentary provision especially legislation came to be seen as essential to good government These ambitions led to the first revolutionary measures of the Long Parliament in early 1641 establishing automatic parliaments and the normative force of freedom of trade

**An Intellectual History of Liberal Catholicism in Western Europe, 1789-1870** Aude Attuel-Hallade, 2024-01-25 This volume probes and deciphers the tensions and contradictions that underlie modern European Liberal Catholicism Beginning with the French revolution and looking at dialogues between European public moralists the book discusses the ways in which liberal Catholics loosened their bonds with religion all the while relying on it It reflects on how and why they promoted a post-revolutionary state and society based on religious dogma and morality and what new liberal order and socio-political and religious models they proposed Beyond the analysis of the work of these Catholic intellectuals the question of their conceiving a specific liberal approach through Catholicism is also investigated More generally it prompts a vital reappraisal of the political ideological and philosophical pressures that the religious question caused in the redefinition of Western European post-revolutionary liberalism

*Lewd and Notorious* Katharine Kittredge, 2009-12-21 Hags tarts killers and freaks this compelling collection explores the representations of eighteenth-century female aberrations and grotesques

**British Historians and National Identity** Anthony Leon Brundage, 2015-10-06 Two eminent scholars of historiography examine the concept of national identity through the key multi-volume histories of the last two hundred years Starting with Hume's History of England 1754-62 they explore the work of British historians whose work had a popular readership and an influence on succeeding generations of British children

[Essays on Liberalism and the Economy, Volume 18](#) F.A. Hayek, 2024-05-31 A deft selection of unpublished and little-known works by F.A. Hayek that will serve to enlighten and enliven debates around the ever-changing face of Western liberalism Across seventeen volumes to date the University of Chicago Press's Collected Works of F.A. Hayek series has anthologized the diverse and prolific writings of the Austrian economist synonymous with classical

liberalism Essays on Liberalism and the Economy traces the author's long and evolving writings on the cluster of beliefs he championed most liberalism its core tenets and how its tradition represents the best hope for Western civilization This volume contains material from almost the entire span of Hayek's career the earliest from 1931 and the last from 1984 The works were written for a variety of purposes and audiences and they include along with conventional academic papers encyclopedia entries after dinner addresses a lecture for graduate students a book review newspaper articles and letters to the editors of national newspapers While many are available elsewhere two have never appeared in print and two others have not been published in English The varied formats collected here are enriched by Hayek's changing voice at different stages of his life Some of the pieces resonate as high minded and noble some are meant as cuts to intellectuals a pejorative term when used by Hayek like Keynes and Galbraith All serve to distill important threads of his worldview

Fuel your quest for knowledge with Authored by is thought-provoking masterpiece, **Macaulay And The Whig Tradition** .
