The Routledge Research Companion to Shakespeare and Classical Literature Sean Keilen, Nick Moschovakis, 2017-03-31 In this wide-ranging and ambitiously conceived Research Companion, contributors explore Shakespeare's relationship to the classic in two broad senses. The essays analyze Shakespeare's specific debts to classical works and weigh his classicism's likeness and unlikeness to that of others in his time; they also evaluate the effects of that classical influence to assess the extent to which it is connected with whatever qualities still make Shakespeare himself a classic, arguably the classic of modern world literature and drama. The first sense of the classic, which the volume addresses, is the classical culture of Latin and Greek reading, translation, and imitation. Education in the canon of pagan classics bound Shakespeare together with other writers in what was the dominant tradition of English and European poetry and drama up through the nineteenth and even well into the twentieth century. Second and no less central is the idea of classics as such: that of books whose perceived value exceeds that of most in their era, justifies their protection against historical and cultural change. The volume's organizing insight is that as Shakespeare was made a classic in this second antiquarian sense, his work's reception has more and more come to resemble that of classics in the first sense of ancient texts: subject to labored critical study by masses of professional interpreters who are needed to mediate their meaning simply because of the texts' growing remoteness from ordinary life, language, and consciousness. The volume presents overviews and argumentative essays about the presence of Latin and Greek literature in

Shakespeare's writing. They coexist in the volume with thought pieces on the uses of the classical as a historical and pedagogical category and with practical essays on the place of ancient classics in today's Shakespearean classrooms.

Heterotopic Theatres Russell West-Pavlov, 2025-05-26 This book seeks to elaborate a theory of troping that expands the purview of linguistic work and agency parsing its transformative work beyond the limits usually set by theories of language. It registers a sea change in the theorization of theatrical art from representation to intervention. The book thereby seeks to lay bare the activity of language as a heterotopology. It focuses on early modern theatre from Shakespeare's *Hamlet*, *Macbeth*, *Romeo and Juliet*, *Troilus and Cressida* and other theatrical forms of the same era, the Court Masque dramas by Ford or Johnson through to the Restoration; it also reads a number of contemporary avatars of Shakespearean texts from Stoppard to Jones and of early modern and postmodern performance spaces such as the New Globe Theatre. In a dozen readings of early modern theatre it asks how the remarkable energy and social purchase ascribed to theatrical language by contemporary commentators can be reconceptualized, mobilized anew and thus harnessed for our own turbulent times.

Bracht Branham, 2019-11-07 *Inventing the Novel* uses the work of the Russian philosopher Mikhail Bakhtin 1895 1975 to explore the ancient origins of the modern novel The analysis focuses on one of the most elusive works of classical antiquity the *Satyricon* written by Nero's courtier Petronius Arbiter whose singular suicide described by Tacitus is as famous as his novel Petronius was the most lauded ancient novelist of the twentieth century and the *Satyricon* served as the original model for F Scott Fitzgerald's *The Great Gatsby* 1925 as well as providing the epigraph for T S Eliot's *The Waste Land* 1922 and the basis for Fellini's *Satyricon* 1969 Bakhtin's work on the novel was deeply informed by his philosophical views if as a phenomenologist he is a philosopher of consciousness as a student of the novel he is a philosopher of the history of consciousness and it is the role of the novel in this history that held his attention This volume seeks to lay out an argument in four parts that supports Bakhtin's sweeping assertion that the *Satyricon* plays an immense role in the history of the novel beginning in Chapter 1 with his equally striking claim that the novel originates as a new way of representing time and proceeding to the question of polyphony in Petronius and the ancient novel *The Academy and Literature* ,1913
