

# Macedonian Empire

**Arthur Mapletoft Curteis**

## **Macedonian Empire:**

**By the Spear** Ian Worthington, 2014-05-02 Alexander the Great arguably the most exciting figure from antiquity waged war as a Homeric hero and lived as one conquering native peoples and territories on a superhuman scale From the time he invaded Asia in 334 to his death in 323 he expanded the Macedonian empire from Greece in the west to Asia Minor the Levant Egypt Central Asia and India Pakistan and Kashmir in the east Although many other kings and generals forged empires Alexander produced one that was without parallel even if it was short lived And yet Alexander could not have achieved what he did without the accomplishments of his father Philip II r 359 336 It was Philip who truly changed the course of Macedonian history transforming a weak disunited and economically backward kingdom into a military powerhouse A warrior king par excellence Philip left Alexander with the greatest army in the Greek world a centralized monarchy economic prosperity and a plan to invade Asia For the first time *By the Spear* offers an exhilarating military narrative of the reigns of these two larger than life figures in one volume Ian Worthington gives full breadth to the careers of father and son showing how Philip was the architect of the Macedonian empire which reached its zenith under Alexander only to disintegrate upon his death *By the Spear* also explores the impact of Greek culture in the East as Macedonian armies became avatars of social and cultural change in lands far removed from the traditional sphere of Greek influence In addition the book discusses the problems Alexander faced in dealing with a diverse subject population and the strategies he took to what might be called nation building all of which shed light on contemporary events in culturally dissimilar regions of the world The result is a gripping and unparalleled account of the role these kings played in creating a vast empire and the enduring legacy they left behind

**Alexander the Great Failure** John D Grainger, 2009-08-11 In this authoritative book John Grainger explores the foundations of Alexander's empire and why it did not survive after his untimely death in 323 BC

**Rise of the Macedonian Empire** Arthur Mapletoft Curteis, 1916 Discusses many inventions from earliest times to the twentieth century providing information on how they work and when they were first invented

[The Rise of the Macedonian Empire](#) Arthur Curteis, 2018-04-13 The first two centuries of the Macedonian monarchy covered by the reigns of six kings were a period shrouded in obscurity during which the rising kingdom had enlarged itself at the expense of its neighbors and crossing the Axios had even reached the Strymon This career of conquest had been scarcely arrested by the Persian invasions of Europe Indeed Alexander I son of Amyntas was cunning enough to bow to the storm and while cautiously doing his utmost to befriend the Greeks affected to fall in with Persian ideas as to Macedon being the centre of a great vassal state and thankfully accepted any extension of territory which the Great King might be pleased to give him By these means he gained a footing among the Thracian tribes as far as Mount Haemus while he attained an object by which he set even greater store as a true blooded Hellene for his claims to that title were publicly acknowledged at Olympia and his victories in the Stadium celebrated by the Hellenic Pindar Yet the difficulties of Alexander did not cease but rather increased when danger no longer

threatened Greece from the side of Persia He had removed his capital from Aigai to Pydna a step nearer to the Hellenes whom he admired so much But close to Pydna lay Methone an independent Greek city while to the eastward in Chalcidice and as far as the Strymon were numerous Hellenic colonies whose sympathies drew them naturally to the south rather than the west to Hellas not to Macedon and which after the Persian wars recognized in the maritime Athens their natural leader and protectress

The Macedonian Empire James R. Ashley,2024-12-02 The Macedonian Empire lasted only 36 years beginning with Philip II s assumption of the throne in 359 B C and ending with the death of his son Alexander the Great in 323 B C In that span the two leaders changed the map in the known world Philip established new tactics that forever ended the highly stylized mode that had characterized Classic Greek warfare and Alexander s superb leadership made the army an unstoppable force This work first examines the 11 great armies and three great navies of the era along with their operations and logistics The primary focus is then on each campaign and significant battle fought by Philip or Alexander detailing how the battles were fought the tactics of the opposing armies and how the Macedonians were able to triumph

Rise of the Macedonian Empire Arthur Mapletoft Curteis,1911

The Rise of the Macedonian Empire Arthur M. Curteis,2015-12-05 In Greek mythology Makedon is the eponymous hero of Macedonia and is mentioned in Hesiod s Catalogue of Women The first historical mention of the Macedonians occurs in the works of Herodotus during the mid 5th century BC The book s seventeen chapters cover the history of Macedonia from pre Philip II Alexander s father until Alexander s death Highlights include the many battles of Alexander with Persia the sack of Persepolis and the death of Darius the founding of Alexandria and Alexander s conquest of India

**World Monarchies and Dynasties** John Middleton,2015-06-01 Throughout history royal dynasties have dominated countries and empires around the world Kings queens emperors chiefs pharaohs czars whatever title they ruled by monarchs have shaped institutions rituals and cultures in every time period and every corner of the globe The concept of monarchy originated in prehistoric times and evolved over centuries right up to the present Efforts to overthrow monarchies or evade their rule such as the American French Chinese and Russian revolutions are considered turning points in world history Even today many countries retain their monarchies although in vastly reduced form with little political power One cannot understand human history and government without understanding monarchs and monarchies This fully illustrated encyclopedia provides the first complete survey of all the major rulers and ruling families of the world past and present No other reference work approaches the topic with the same sense of magnitude or connection to historical context Arranged in A Z format for ease of access World Monarchies and Dynasties includes information on major monarchs and dynasties from ancient time to the present This set includes overviews of reigns and successions genealogical charts and dynastic timelines addresses concepts problems and theories of monarchy provides background and information for further research highlights important places structures symbols events and legends related to particular monarchs and dynasties includes a master bibliography and multiple indexes

**Supplanting Empires** Kendall Stiles,2024-12-15 What happens when one empire or hegemon cedes the global stage to a rising power *Supplanting Empires Power Transitions Across Human History* argues that historically such power transitions tend to be relatively smooth resulting in the preservation of the status quo with respect to the global order and institutions This stems from the tendency of rising powers to be closely associated with declining powers to the point that they generally support and perpetuate the old ways of governing They maintain similar governing

institutions retain ties to the former empire's allies and generally endorse the declining empire's ideology and norms. The violence involved in such transitions tends to be limited and societies and economies are typically left undisturbed. To test this proposition, Kendall Stiles and his students undertake a systematic study of numerous power transitions across millennia of human history. The implications of these findings have considerable relevance with respect to the contemporary power struggle between the United States and China.

*Armageddon: or the overthrow of Romanism and Monarchy; the existence of the United States foretold in the Bible, its future greatness, invasion by allied Europe ... expansion into the millennial republic, and its dominion over the whole world ... Revised edition* Samuel Daires BALDWIN, 1854

*From Empires to Imperialism* Boris Kagarlitsky, 2014-06-27. Translated from the original Russian, this book analyzes the economic development of leading European empires and the United States of America. The author exposes the myths of the spontaneous emergence of the market economy and the role of government as a disincentive towards private initiative when for centuries the state power has been carrying out a coercing to the market with all its strength. This book presents a somewhat epic depiction of the development of Western hegemonic powers within the capitalist world system from the struggles of the late Middle Ages to the rise and crisis of the American Empire. It both develops and questions some of the traditional assumptions of the world system theory, arguing that it was very much the political form of the state that shaped capitalism as we know it and that though the existence of a hegemonic power results from the logic of the system, hegemony is often missing in reality. A major work of historical Marxist theory, this book is essential reading for students of international political economy, globalisation and the crisis of capitalism. This book is also ideal for students of politics, history, economics and international relations.

*Theory and History in International Relations* Donald J. Puchala, 2013-01-11. Theory and History in International Relations is an eloquent plea to scholars of global politics to turn away from the manufacture of data and return to a systematic study of history as a basis for theory. While the modest use of empiricism will always be important, Puchala rejects the logical positivism of the so-called scientific revolution in the field in favor of a more complex, even intuitive, vision of global politics. He addresses the potential uses of history in studying some of the major debates of our time: the Cold War as a struggle between empires, the collision of civilizations, cultural encounters and colonies in the ancient world, and liberal approaches to the understanding of history and ethical contributions to the dialogue over theory.

[Notes, Critical, Illustrative, and Practical, on the Book of Daniel](#) Albert Barnes, 1855

**Prophets and Prophecy. A Compilation from Notes of the Lectures Before the Senior Class. Re-edited from the Class of 1882** William Henry Green, 2025-07-11. Reprint of the original first published in 1881. The Antigonos publishing house specialises in the publication of reprints of historical books. We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage.

*Notes Critical, Explanatory and Practical on the Book of Daniel* Albert Barnes, 1853

*The Beginning and End of the Earth as We Know It* John W. Pyles, 2011-05. I have a friend who recently told me that the Lord has to return this year because

he can't hold out any longer. Others want to know when he is coming so they can slack off until that day. My reaction is radically different. The more facts that we learn about the end of the age, the more motivated we should become. Many Christians have the point of view that he hasn't returned in 2,000 years so there is no reason to believe that he will return in their lifetime. These people are in for a shock. Have you ever wondered if there was any way to tell when the world will end? Does it puzzle you why the Magi knew when Jesus came the first time and yet we are told that we can't know when he will return? John Pyles seeks to prove that we can indeed know the course and timetable of end-times events. Using a series of biblical clues, John establishes a timeline for Creation, the birth of Christ, and His Second Coming. We truly can know and understand The Beginning and End of the World as We Know It. **Macedonia and Greece** John Shea, 2016-03-18. With the breakup of the former Yugoslavia and a pending NATO membership bid, an old conflict between Greece and Macedonia has taken on added significance for the international community. Greece has vehemently argued, particularly in the West, that the name Macedonia was in fact Greek and that its use by this new nation in the Balkans portended Macedonia's expansionist ambitions. The Macedonians bitterly disputed this, noting that Alexander the Great was a Macedonian and adducing many other fascinating and rational arguments. Tensions were said to have been reduced by an interim agreement between the two countries, but the attempted assassination of Macedonian president Kiro Gligorov in October 1995 has again heightened hostility in the area. The genesis of the conflict is detailed here, as well as the modern-day events that have led many observers to believe that the area is a flashpoint for a major war greater than that in Bosnia. **Rivalry of the Legendary Empires** Pasquale De Marco, 2025-07-19. In the annals of history, few rivalries have captured the imagination quite like that between Sparta and Athens. This epic struggle between two ancient Greek city-states shaped the course of Western civilization, leaving an enduring legacy of conflict, innovation, and resilience. **Rivalry of the Legendary Empires** delves into the heart of this extraordinary rivalry, exploring the political, military, and cultural factors that fueled the animosity between Sparta and Athens. From their humble origins to their rise as dominant powers, these city-states embarked on a collision course that would ultimately determine the fate of Greece. With its rigid military discipline and unwavering commitment to martial prowess, Sparta stood in stark contrast to Athens, renowned for its vibrant democracy, intellectual pursuits, and cultural achievements. These fundamental differences gave rise to a deep-seated rivalry that would erupt into open conflict, time and again. The Peloponnesian War, spanning two grueling decades, stands as the most iconic clash between Sparta and Athens. This protracted struggle, marked by shifting alliances, devastating battles, and countless lives lost, left an enduring legacy of bitterness and resentment. Yet, beyond the battlefields, the rivalry between these city-states extended to every aspect of their societies, from politics and economics to religion and philosophy. This book is not merely a tale of conflict and competition; it is also a narrative of human ambition, innovation, and resilience. Through their rivalry, Sparta and Athens pushed the boundaries of human knowledge, art, and governance. Their contributions to Western civilization continue to shape

our world today from the foundations of democracy to the pursuit of philosophical inquiry Join us on a journey back in time to witness the rise and fall of empires and to ponder the enduring significance of this epic rivalry Rivalry of the Legendary Empires is a captivating and inspiring story that offers valuable lessons for our own time If you like this book write a review

## Unveiling the Power of Verbal Artistry: An Emotional Sojourn through **Macedonian Empire**

In a global inundated with monitors and the cacophony of quick interaction, the profound power and mental resonance of verbal art often disappear in to obscurity, eclipsed by the continuous assault of sound and distractions.
