The Catastrophe of Modernity Patrick Dove, 2004 This work examines four Latin American writers Jorge Luis Borges Juan Rulfo Cesar Vallejo and Ricardo Piglia in the context of their respective national cultural traditions The author proposes that a consideration of tragedy affords new ways of understanding the relation between literature and the modern Latin American nation state As an interpretive index this tragic attunement sheds new light on both the foundational works of modern Latin American literature and the counter foundational literary critiques of modernization and nation building Topics include Borges s short story *El Sur* in relation to the Argentine civilization and barbarism debate Juan Rulfo s novella *Pedro Paramo* in the context of post revolutionary reflection on national identity in Mexico and the lyric poetry of Cesar Vellajo s *Trilce* The reading is based on a juxtaposition of aporetically incompatible terms mourning the avant garde and Andean indigenism or messianism The final section of the book investigates two novels by Ricardo Piglia *Respiracion artificial* and *La ciudad ausente* in the dual context of dictatorship and the market Piglia s writing both echoes and marks a limit for tragedy as an interpretive paradigm

The Persistence of the Human Matthew Escobar, 2016-09-07 Recent narrative fiction and film increasingly exploit explore and thematize the embodied mind revealing the tenacity of a certain brand of humanism The presence of narratively based concepts of personal identity even in texts which explore posthuman possibilities is strong proof that our basic understanding of what it means to be human has despite appearances remained mostly unchanged This is so even though our perception of time has been greatly modified by the same technology which both interrupts and allows for the rearrangement of our experience of time at a rate and a level of ease which until recently had never been possible

Basing his views on a long line of philosophers and literary theorists such as Paul Ricoeur Daniel Dennett and Francisco Varela Escobar maintains in *The Persistence of the Human* that narrative plays an essential role in the process of constituting and maintaining a sense of self It is narrative s effect on the embodied mind which gives it such force Narrative projects us into possible spaces shaping a temporary corporeality termed the meta body a hybrid shared by the lived body and an imagined corporeal sense The meta body is a secondary embodiment that we inhabit for however long our narrative immersion lasts something which in today s world may be a question of milliseconds or hours The more agreeable the meta body is the less happy we are upon being abruptly removed from it though the return is essential We want to be able to slip back and forth between this secondary embodiment and that of our lived body each move entails both forgetting and remembering different subject positions loss and recuperation being salient themes in the works which highlight this process The negotiation of the transfer between these states is shaped by culture and technology and this is something which is precisely in flux now as multiple ephemeral narrative immersion experiences are created by the different screens we come into contact with

The Thousand and One Nights and Twentieth-Century Fiction Richard van Leeuwen, 2018-07-17 It is gradually being acknowledged that the Arabic story collection *Thousand and One Nights* has had a major influence on European and world literature This study analyses the influence of *Thousand and One Nights* as an intertextual model on 20th century prose from all over the world Works of approximately forty authors are examined those who were crucial to the development of the main currents in 20th century fiction such as modernism magical realism and post modernism The book contains six thematic sections divided into chapters discussing two or three authors works each from a narratological perspective and supplemented by references to the cultural and literary context It is shown how *Thousand and One Nights* became deeply rooted in modern world literature especially in phases of renewal and experiment

The Decline and Fall of the Lettered City Jean FRANCO, Jean Franco, 2009-06-30 The cultural Cold War in Latin America was waged as a war of values artistic freedom versus communitarianism Western values versus national cultures the autonomy of art versus a commitment to liberation struggles and at a time when the prestige of literature had never been higher The projects of the historic avant garde were revitalized by an anti capitalist ethos and envisaged as the opposite of the republican state *The Decline and Fall of the Lettered City* charts the conflicting universals of this period the clash between avant garde and political vanguard This was also a twilight of literature at the threshold of the great cultural revolution of the seventies and eighties a revolution to which the Cold War indirectly contributed In the eighties civil war and military rule together with the rapid development of mass culture and communication empires changed the political and cultural map A long awaited work by an eminent Latin Americanist widely read throughout the world this book will prove indispensable to anyone hoping to understand Latin American literature and society Jean Franco guides the reader across minefields of cultural debate and histories of highly

polarized struggle Focusing on literary texts by Garc a Marquez Vargas Llosa Roa Bastos and Juan Carlos Onetti conducting us through this contested history with the authority of an eyewitness Franco gives us an engaging overview as involving as it is moving **Cy-Borges** Stefan Herbrechter,Ivan Callus,2009 Cy Borges provides radically new posthumanist readings of such established Borgesian fictions as The Aleph The Library of Babel Funes the Memorious The Garden of Forking Paths and The Circular Ruins They will be equally illuminating to readers of Hispanic and world literature as to students of critical and cultural theory and anybody who is fascinated with the idea of the posthuman and posthumanism BOOK JACKET

Counterfeit Politics David Kelman,2012-10-20 In Counterfeit Politics David Kelman reassesses the political significance of conspiracy theory Traditionally political theory has sought to banish the paranoid style from the proper domain of politics But if conspiracy theory lies outside the sphere of legitimate politics why do these narratives continue to haunt political life Counterfeit Politics accounts for the seemingly ineradicable nature of conspiracy theory by arguing that all political statements ultimately take the form of conspiracy theory Through careful readings of works by Ernest Hemingway Ricardo Piglia Thomas Pynchon Don DeLillo Jorge Luis Borges Ishmael Reed Jorge Volpi Rigoberta Mench and ngel Rama Kelman demonstrates that conspiracy narratives bear witness to an illegitimate or counterfeit secret that cannot be fully recognized understood and controlled Even though the secret is not authorized to speak this silence is nevertheless precisely what gives the secret its force Kelmangoes on to suggest that all political statements even those that do not seem paranoid are constitutively illegitimate or counterfeit since they always narrate this unresolved play of legitimacy between an official or authorized plot and an unofficial or unauthorized plot a complot In short Counterfeit Politics argues that politics only takes place as conspiracy theory Traumatic Imprints: Performance, Art, Literature and Theoretical Practice ,2020-09-25 This ebook presents conference proceedings from the 1st Global Conference Trauma theory and practice held in Prague Czech Republic in March 2011 Flügel Memorial Volume Stanford University.
