guiding Machiavellian behaviour The author also demonstrates how Machiavellianism is related to strategic thinking and flexible long term decisions rather than to a short term perspective as previously thought and explores Machiavellianism in relation to the construct of the Dark Triad The first comprehensive psychological book on Machiavellianism since Christie and Geis pioneering work in 1970 Machiavellianism summarizes the most important research findings over the last few decades This book is fascinating reading for students and researchers of psychology and related courses as well as professionals dealing with Machiavellians in their work and practice
