*Speaking* Peter Swirski, 2010-04-01 In a new approach to interdisciplinary literary theory *Literature Analytically Speaking* integrates literary studies with analytic aesthetics girded by neo Darwinian evolution Scrutinizing narrative fiction through a lens provided by analytic philosophy revered literary theorist Peter Swirski puts new life into literary theory while fashioning a set of practical guidelines for critics in the interpretive trenches Dismissing critical inquirers who deny intention its key role in the study of literary reception Swirski extends the defense of intentionality to art and to human behavior in general In the process Swirski takes stock of the recent work in evolutionary theory arguing that the analysis of narrative truth may be grounded in the neo Darwinian paradigm which forms the empirical backbone behind his analytic approach *Literature Analytically Speaking* provides a series of revolutionary precepts designed to capture the ways in which we do interpret and ought to interpret works of literature Reflecting a resounding shift from the poststructuralist paradigm Swirski s lively and colorful presentation backed up by a dazzling variety of examples and case studies reconceptualizes the aesthetics of literature and literary studies      **Of Literature and Knowledge**

Peter Swirski, 2007-02-12 *Of Literature and Knowledge* looks like an important advance in this new and very important subject literature is about to become even more interesting Edward O Wilson Pellegrino University Professor Harvard University Framed by the theory of evolution this colourful and engaging volume presents a new understanding of the mechanisms by which we transfer information from narrative make believe to real life Ranging across game theory and philosophy of science as well as poetics and aesthetics Peter Swirski explains how literary fictions perform as a systematic tool of enquiry driven by thought experiments Crucially he argues for a continuum between the cognitive tools employed by scientists philosophers and scholars or writers of fiction The result is a

provocative study of our talent and propensity for creating imaginary worlds different from the world we know yet invaluable to our understanding of it Of Literature and Knowledge is a noteworthy challenge to contemporary critical theory arguing that by bridging the gap between literature and science we might not only reinvigorate literary studies but above all further our understanding of literature
