Contact: Art and the Pull of Print Jennifer L. Roberts, 2024-05-14 A leading art historian presents a new grammar for understanding the meaning and significance of print In process and technique printmaking is an art of physical contact From woodcut and engraving to lithography and screenprinting every print is the record of a contact event the transfer of an image between surfaces under pressure followed by release Contact reveals how the physical properties of print have their own poetics and politics and provides a new framework for understanding the intelligence and continuing relevance of printmaking today Focusing on the material and spatial transformations of the printmaking process rather than its reproducibility this beautifully illustrated book explores the connections between print painting and sculpture but also between the fine arts industrial arts decorative arts and domestic arts Throughout Roberts asks what artists are learning from print and what we in turn can learn from them **The Bulletin** University of Rochester. Surrealism to Contemporary Art Julia Kelly, 2017-07-05 Taking its departure point from the 1933 surrealist photographs of involuntary sculptures by Brassa and Dalí *Found Sculpture and Photography from Surrealism to Contemporary Art* offers fresh perspectives on the sculptural object by relating it to both surrealist concerns with chance and the crucial role of photography in framing the everyday This collection of essays questions the nature of sculptural practice looking to forms of production and reproduction that blur the boundaries between things that are made and things that are found One of the book's central themes is the interplay of presence and absence in sculpture as it is highlighted disrupted or multiplied through photography's indexical nature The essays examine the surrealist three dimensional object its relation to and transformation through photographs as well as the enduring legacies of such concerns for the artwork's materiality and temporality in performance and conceptual practices from the 1960s through the present *Found Sculpture and Photography* sheds new light on the shifts in status of the art object challenging the specificity of visual practices pursuing a radical interrogation of agency in modern and contemporary practices and exploring the boundaries between art and everyday life
