 More,2021-01-25 We live in an era rife with cultural conflict The 21st century is by no means free of wars terrorism riots  
 famine nor epidemics We may attempt to solve the challenges of our times by uniting the humanistic disciplines of philosophy  
 science and technology Our modern reality requires a fundamental understanding of the problems beleaguering our  
 existence Science and literature are key tools for gaining this insight The wisdom accumulated throughout the centuries by  
 scientists philosophers and writers is a solid foundation on which modern man can build the future Our ability to learn from  
 those who have come before is precisely what led Protagoras to declare that Man is the measure of all things The 33 works in  
 this book possess foundational importance and continue to influence our modern world The reader of these texts is well
