Mounce, 2009-12-15 For years Vine's Expository Dictionary has been the standard word study tool for pastors and laypeople selling millions of copies But sixty plus years of scholarship have shed extensive new light on the use of biblical Greek and Hebrew creating the need for a new more accurate more thorough dictionary of Bible words William Mounce whose Greek grammar has been used by more than 100 000 college and seminary students is the editor of this new dictionary which will become the layperson's gold standard for biblical word studies Mounce's is ideal for the reader with limited or no knowledge of Greek or Hebrew who wants greater insight into the meanings of biblical words to enhance Bible study It is also the perfect reference for busy pastors needing to quickly get at the heart of a word's meaning without wading through more technical studies What makes Mounce's superior to Vine's The most accurate in depth definitions based on the best of modern evangelical scholarship Both Greek and Hebrew words are found under each English entry Vine's separates them Employs both Strong's and G K numbering systems Vine's only uses Strong's Mounce's accuracy is endorsed by leading scholars **The Alef-Beit** Yitzchak Ginsburg, 1977-07-07 This intriguing volume takes readers on a fascinating journey through the Hebrew alphabet Along the way Rabbi Ginsburgh reveals each letter's secrets and demonstrates that they are a key to Jewish spirituality **Musica Naturalis** Philipp Jeserich, 2013-11 A critical study of the relationship between poetics and music theory in medieval culture and aesthetics Musica Naturalis delivers the first systematic account of speculative music theory as a discursive horizon for literary poetics The title refers to the late medieval French poet Eustache Deschamps whose 1392 treatise on verse writing *L'Art de Dictier* famously casts verse as natural music in explicit distinction to song which Deschamps defines as artificial Philipp Jeserich links the significance of the speculative branch of medieval musicology to literary theory and literary production opening up a field of study that has been largely neglected Beginning with Augustine and Boethius he traces the discourse of speculative music theory to the late fifteenth century giving attention to medieval Latin and vernacular sources Ultimately Jeserich calls for the conservatism of Deschamps's poetics and develops a new perspective on the poetics and poetry of the Grands rhétoriciens Given Jeserich's reliance on the intellectual inheritance of late medieval French poetics and poetry this book will appeal to English speaking specialists of Old and Middle French as well as scholars of the French Renaissance It will also interest English language medievalists of several other disciplines intellectual historians and specialists of English as well as scholars of Italian and Iberian literature *The Rebellion Record: Jany.
