Children's Errors in Mathematics Alice Hansen,Doreen

Drews, John Dudgeon, Fiona Lawton, Liz Surtees, 2017-07-29 This practical and popular guide to children's common errors and misconceptions in primary mathematics is an essential tool for teachers and trainees. It supports them in planning for and tackling potential errors and enhances their understanding of the difficulties encountered in mathematical development. This fourth edition explores how a Growth Mindset approach works alongside an awareness of children's errors and how mistakes themselves are powerful learning tools. This edition includes 50 new identifiable misconceptions children have of mathematics. The text also considers the role of the teacher in understanding and addressing children's common mathematical misconceptions. Key features: Linked to the new National Curriculum and covers every objective. Provides an essential tool for planning primary mathematics lessons. Explores how common misconceptions can be anticipated and addressed.

Primary Languages: Effective Learning and Teaching Cynthia Martin, 2008-10-16 Primary languages are to be an entitlement for all pupils in KS2 from 2010. There is therefore a need to ensure that trainee primary teachers are equipped with the required skills, knowledge and understanding to contribute to this process. This book supports specialists and also non-specialist trainees with an interest in MFL who may need to deliver languages across the curriculum, providing them with a clear understanding of the methodology and helping them to develop linguistic competence and confidence.

European Conference on Consumer Education in Schools, Stockholm 1993, 1994 *Developing A Leadership Role Within The Key Stage 2 Curriculum* Mike Harrison, 2002-01-04 Since 1989 initial teacher training courses in England and Wales have included teacher preparation for taking a lead in a school subject area in their first appointment. There is no longer a place for a teacher newly qualified or not in primary schools whose sole responsibility is for his or her own class. A teacher must have specific specialist knowledge and expertise in particular subjects which must be shared with all staff. This text contains the latest curriculum and assessment changes. It aims to help students and newly qualified teachers to understand the complexities of being a co-ordinator of a National Curriculum subject in Key Stage 2 and reports on best practice.

Understanding Primary Science Roy Phipps, 2000-07-01 Many primary teachers need help with their personal subject knowledge in science. Now that there is a nationally published scheme of work for science in primary schools, many teachers also need help in constructing lesson plans in order to cover all of the themes and possible activities in the scheme. Designed with those needs in mind, this book provides practical help in the form of sample lesson plans together with linked background subject knowledge for each of the science topics in the primary national curriculum. Each chapter has sample lesson plans for four different age groups: reception years 1, 2, years 3, 4 and years 5, 6.

The Art of Middle Management Peter Fleming, Max Amesbury, 2013-10-23 Like its predecessor on secondary middle management, this book uses a succinct and accessible style. The authors highlight the special challenge of middle management, cover the full range of middle management activities in primary schools, link to the Teacher Training Agency's National Standards for Subject Leadership and use self-assessment questions and case studies to bring management theory to life. A chapter is devoted to the

performance management framework that was introduced in September 2000 Throughout the focus is on improving the quality of education for pupils through the creation of a positive team ethos **Training to Teach in Primary Schools** Jane Medwell,2015-03-19 Full of practical help and guidance this is a must have for primary trainees on school experience whether they are in a school based or university based teacher training programme It begins by helping trainees to plan their own journey through training and beyond Taking control of their own training in this way supports student teachers to approach the course with confidence and secure their first teaching job The book provides guidance on adapting to working in school observing planning and evaluating in school teaching on placement assessing monitoring and reporting on children s progress self evaluation and how to pre empt and resolve issues securing the first teaching job and succeeding in the NQT year For student teachers the experience of school based training is exciting but also challenging this book supports them throughout and prepares them for the journey ahead Student feedback on this book Having been on a variety of teaching placements myself I know just how daunting and overwhelming experiences in school can be at times even with a supportive mentor by your side Hence I felt that this book can smooth out and rectify those worries one may face during a school placement and offers the reader a realistic insight into school experiences In my opinion the most useful chapter by far is the Moving On chapter near the end of the book This explains how to conclude a school placement what to expect from an interview and even how to set out a CV for a teaching position This was not something I expected to find in this book however it was very much welcomed and is in fact a very important valuable part of the book This is the type of book you can buy on your very first day of teacher training and use well into your days as a newly qualified teacher Jasmin Primary Teacher Trainee University of Northampton **Planning to teach Science** Rachel Linfield,2014-01-29 This resource gives primary teachers particularly non specialist science teachers both pedagogical knowledge and ideas for teaching science in one practical volume covering Years 1 to 6 The book is brimming with teachers notes bullet pointed pages and masters It will also include suggestions for different ways to record children s work and explanations about How to write a session plan Use of ICT Catering for individual needs and ideas for differentiation Importance of key vocabulary and appropriate time to introduce it Ability to plan and carry out investigations **Primary ICT Across the Curriculum** Debbie Simpson, Mike Toyn,2012-05-23 The changing landscape of primary teaching requires trainees to consider learning and teaching in new ways This book supports trainee teachers working towards primary QTS in teaching primary ICT across all areas of the curriculum Taking a truly cross curricular approach the text highlights meaningful links across the curriculum while embracing the latest thinking and current good practice A chapter on social networking and e safety is included giving essential guidance on this topical issue This is followed by a section aimed at strengthening trainees own skills and subject knowledge in ICT Interactive activities and case studies link theory to practice and encourage the reader to rethink how ICT is taught in primary schools This Second Edition is linked to the 2012 Teachers Standards About the Transforming Primary

QTS series This series reflects the new creative way schools are beginning to teach taking a fresh approach to supporting trainees as they work towards primary QTS Titles provide fully up to date resources focused on teaching a more integrated and inclusive curriculum and texts draw out meaningful and explicit cross curricular links Teaching Mathematics at Secondary Level Tony Gardiner, 2016-02-08 Teaching Mathematics is nothing less than a mathematical manifesto Arising in response to a limited National Curriculum and engaged with secondary schooling for those aged 11-14 Key Stage 3 in particular this handbook for teachers will help them broaden and enrich their students mathematical education It avoids specifying how to teach and focuses instead on the central principles and concepts that need to be borne in mind by all teachers and textbook authors but which are little appreciated in the UK at present This study is aimed at anyone who would like to think more deeply about the discipline of elementary mathematics in England and Wales and anywhere else By analysing and supplementing the current curriculum Teaching Mathematics provides food for thought for all those involved in school mathematics whether as aspiring teachers or as experienced professionals It challenges us all to reflect upon what it is that makes secondary school mathematics educationally culturally and socially important Developing Number Sense Julia Anghileri, 2008-05-15 Developing Number Sense identifies innovative teaching practices and provides a rigorous treatment of arithmetic and its assessment at Key Stages two and three
