Prison Breaks Tomas Max Martin,Gilles Chantraine,2018-02-12 This edited collection analyses the prison through the most fundamental challenge it faces escapes The chapters comprise original research from established prison scholars who develop the contours of a sociology of prison escapes Drawing on firm empirical evidence from places like India Tunisia Canada the UK France Uganda Italy Sierra Leone and Mexico the authors show how escapes not only break the prison but are also fundamental to the existence of such institutions how they are imagined designed organized justified reproduced and transformed The chapters are organised in four interconnected themes resistance and everyday life politics and transition imaginaries and popular culture and law and bureaucracy which reflect how escapes are productive local historical and equivocal social practices and integral to the mysterious intransigence of the prison The result is a critical and theoretically informed understanding of prison escapes which has so far been absent in prison scholarship and which will hold broad appeal to academics and students of prisons and penology as well as practitioners

Strange TV M. Keith Booker,2002-12-30 In the years since World War II commercial television has become the most powerful force in American culture It is also the quintessential example of postmodernist culture This book studies how The Twilight Zone The Prisoner Twin Peaks and The X Files display many of the central characteristics that critics and theorists have associated with postmodernism including fragmentation of narratives and characters multiplicity in style and genre and the collapse of traditional categorical boundaries of all kinds The author labels these series strange TV since they challenge the conventions of television programming thus producing a form of cognitive estrangement that potentially encourages audiences to question received ideas Despite their challenges to the conventions of commercial television however these series pose no real threat to the capitalist order In fact the very characteristics that identify these series as postmodern are also central characteristics of capitalism itself especially in its late consumerist phase An examination of these series within the context of postmodernism thus confirms Fredric Jameson s thesis that postmodernism is a reflection of the cultural logic of late capitalism At the same time these series do point toward the potential of television as a genuinely innovative medium that promises to produce genuinely new forms of cultural expression in the future *Finding Lost - Season Three* Nikki Stafford,2010-12-15 An in depth guide which will help readers decipher the clues and mysteries in the third season of hit TV show Lost Reports Great Britain.
