**Nurse Migration in Asia** Radha Adhikari, Evgeniya Plotnikova, 2023-05-22 Nurse Migration in Asia explores the ever increasing need for a larger nursing and healthcare workforce in Asia where countries are undergoing rapid transformation given economic globalisation and commercial expansion The book examines some of the major forces that play key roles in the changing dynamics of 21st century nurse and care worker migration in the Asian context changes which inevitably have global implications The country case studies range from India China Singapore to Japan and the Philippines Common themes emerge the rapid and unpredictable nature of nurse migration patterns including the direction purpose and frequency of migration and the changes in professional training regulation and workforce policy Forces causing these shifts include the changing population demography global and regional economic fluctuations and finally changing professional roles and gender dynamics The book analyses the response to these transformations and how countries adjust their immigration regulations to attract foreign healthcare professionals It concludes by highlighting the importance for all countries to remain vigilant as regards the exacerbating workforce crisis and engage in developing coherent policy governance frameworks to manage healthcare workforce at the national or international levels A valuable addition to the literature this book will be of interest to academics in the field of nursing health and social care workforce studies population demography labour markets gender and international migration studies globalisation in health and Asian studies *Singapore's Health Care System* K. E. T. Al SATKU, 2015-11-13 How did Singapore's health care system transform itself into one of the best in the world It not only provides easy access but its standards of health care not only in curative medicine but also in prevention are exemplary Fifty years ago the infant mortality rate IMR was 26 per thousand live births today the IMR is 2 Life expectancy was 64 years then today it is 83 The Singapore Medicine brand is trusted internationally and patients are drawn to Singapore from all over the world And while many countries struggle to finance their health care Singapore has developed a health care financing framework that makes health care affordable for its people and gives sustainability to the health care system Reliability is provided by a professional workforce that seeks to continually learn improve and become ever more proficient with cutting edge technology while emphasizing the relational aspects of health care by nurturing compassion and maintaining high standards of integrity Convenience and safety are enhanced by a unifying IT system that enables the portability of medical records across health care institutions All these have been achieved not by chance but by careful planning strong leadership and dedicated people who are prepared to learn from Singapore's own experience while adapting best practices from around the world But the system is not without challenges not least those of an aging population and an increasing market influence This book provides a fascinating insight into the development of Singapore's health care system from the early days of fighting infections and providing nutrition supplementation for school children to today's management of lifestyle diseases and high end tertiary care It also discusses how the system must adapt to help Singaporeans continue to live well live long
