Nursing Leadership and Management Gertrude K. McFarland, H. Skipton Leonard, Martha M. Morris, 1984-01-01

Nursing Leadership John Daly, Sandra Speedy, Debra Jackson, 2003 Nursing Leadership covers contemporary concepts in leadership and management and their application to nursing practice. In addition to covering the fundamentals, a wide range of current topics are addressed including change management, contemporary approaches to nursing care delivery, developing research-based practice, cultural change processes, shared governance, development of quality of work life issues, quality work environments, and industrial relations. Nursing Leadership provides a fresh, innovative approach to the topic and is designed to stimulate interest in theory and concepts as well as providing the reader with strategies that can be readily tested and applied in practice.

Transformational Nursing Leadership Anne M. Barker, 1992 Nursing leadership is in crisis. Nurses are dissatisfied with their practice settings, with the attitudes and behaviors of nurse managers, with limited professional growth, advancement, and achievement, with oppressive organizational hierarchies that hinder autonomy in practice, and with the lack of job status and power.
