Holistic Nurses' Association**

Nutritional Therapy Vol 2 The Complete Core Program:

Alpha Nutrition Program Stephen Gislason MD,2017-07-24 The Alpha Nutrition Program is a set of instructions and nutrient tools designed to resolve disease through diet revision The program is nutritional therapy a personal technology of health restoration and health maintenance The development of the Alpha Nutrition Program began many years ago with observation that some food selection patterns are associated with dysfunction and disease In one person for example the daily ingestion of multigrain bread milk cheese bran muffins beef coffee orange juice and wine is associated with chronic fatigue sleepiness after eating nose congestion flushing headaches generalized aching stiffness and episodes of unexplained depression When the food list is changed to rice vegetables chicken peaches and pears the symptoms disappear and the person reports increased energy and a renewed sense of well being Similar observations are reported in a large sample of people of all ages A variety of other dysfunctional patterns are found to improve with proper diet revision We reasoned that everyone probably has a small set of best fit foods that would allow them to feel and function optimally The first goal of therapy should then be to identify the simplest set of best foods for each person The core concept further developed as we kept score of adverse food reactions reported by patients and found that rice and common cooked vegetables were among the best tolerated and most acceptable of all food choices
