Style is Matter

Leland De la Durantaye,2007 How should we read Lolita The beginning of an answer is that we should read it the way all

great works deserve to be read with attention and intelligence But what sort of attention should we pay and what sort of intelligence should we apply to a work of art that recounts so much love so much loss so much thoughtlessness and across which flashes something we might be tempted to call evil To begin with we should read with the attention and intelligence we call empathy A point on which all readers can agree is that great literature offers us a lesson in empathy it encourages us to feel with the strange and the familiar the strong and the weak the vulgar and the cultivated the young and the old the lover and the beloved It urges us to see our own fates as connected to those of others to link the starry sky we see above us with whatever moral laws we might sense within from Style is Matter Some of my characters are no doubt pretty beastly but I really don't care they are outside my inner self like the mournful monsters of a cathedral facade demons placed there merely to show that they have been booted out Vladimir Nabokov Strong Opinions With this quote Leland de la Durantaye launches his elegant and incisive exploration of the ethics of art in the fiction of Vladimir Nabokov Focusing on Lolita but also addressing other major works especially Speak Memory and Pale Fire the author asks whether the work of this writer whom many find cruel contains a moral message and if so why that message is so artfully concealed Style is Matter places Nabokov's work once and for all into dialogue with some of the most basic issues concerning the ethics of writing and of reading itself De la Durantaye argues that Humbert's narrative confession artfully seduces the reader into complicity with his dark fantasies and even darker acts until the very end where he expresses his bitter regret for what he has done In this sense Lolita becomes a study in the danger of art the artist's responsibility to the real world and the perils and pitfalls of reading itself In addition to Nabokov's fictions de la Durantaye also draws on his nonfiction writings to explore Nabokov's belief that all genuine art is deceptive as is nature itself Through de la Durantaye's deft and compelling writing we see that Nabokov learned valuable lessons in mimicry and camouflage from the intricate patterns of the butterflies he adored

Education of the Senses Peter Gay, 1999 The most learned as well as the wittiest survey of human sexuality ever to be published New York Times

Nardo,1991-09-03 This book argues that play offered Hamlet John Donne George Herbert Andrew Marvell Robert Burton and Sir Thomas Browne a way to live within the contradictions and conflicts of late Renaissance life by providing a new stance for the self Grounding its argument in recent theories of play and in a historical analysis that sees the seventeenth century as a point of crisis in the formation of the western self the author demonstrates how play helped mediate this crisis and how central texts of the period enact this mediation **Choral Music in Print** James H.
