Origen Of Alexandria His World And His Legacy:

Origen of Alexandria Charles Kannengiesser, William Lawrence Petersen, 1988 **Origen on the Song of Songs as the Spirit of Scripture** J. Christopher King, 2005-10-06 Christian interpretations of the Song of Songs have long depended upon the allegorical reading developed by Origen of Alexandria c 185 c 254 This study aims to show that Origen's Commentary and two Homilies on the Song of Songs clearly portray the Song of Songs as the biblical book that as the Bridegroom's perfect marriage song reveals the spirit of Scripture with greater intensity and immediacy than any other

Origen, the Philosophical Theologian Ilaria L. E. Ramelli, 2024-11-18 How did Origen one of the major Patristic thinkers construct his philosophical theology What are his main innovations in metaphysics protology Trinitarian Theology and Christology How did he view the relation between philosophy and theology This is a collection of over twenty essays mostly from world leading journals and books from outstanding publishers besides two new ones from Professor Ilaria L E Ramelli's life long and always continuing research on Origen This coherent set of studies is grouped around Origen's metaphysics protology Trinitarian theology and Christology and the relation between theology and philosophy with reception aspects The essays address Origen's towering figure in Patristic philosophy Christian Platonism and the Platonic tradition facets of his reception of Platonism reflections concerning the Christianization of Hellenism vs the Hellenization of Christianity and the relation between philosophy and theology and between pagan and Christian Platonism Origen's philosophical theology and connections to Platonism the question of Origen's conversion and his lexicon of epistrophē a comparison between the imperial Platonist Atticus and Origen's theories on the soul of God the Creator Alexander of Aphrodisias as a source of Origen's philosophy and the birth of the eternity formula in reference to the Son the problem of Origen's subordinationism which must be nuanced Origen's major contribution to Trinitarian theology in the notion of hypostasis and its foundation in Scripture and philosophy the reciprocal indwelling of the Father in the Son and its implications against Origen's subordinationism Origen's influence on Augustine as paradoxical and a Christological case study the divine as inaccessible object of knowledge in ancient and Patristic Platonism the reception of Origen's ideas in the West the notion of divine power in Origen sources and aftermath Platonist exemplarism in Origen and Plotinus Paul's notion of nous in Origen and Evagrius the reception of Origen in Pseudo-Dionysius and Origen's heritage in the concept of matter in the Dialogue of Adamantius The volume is rounded off by theoretical reflections on philosophy of religion and philosophical theology This book is very relevant to the study of Origen the foundations of Christian thought and ancient and late antique philosophy theology and culture *The Formation of Hell* Alan E. Bernstein, 2020-06-30 What becomes of the wicked Hell exile from God subjection to fire worms and darkness for centuries the idea has shaped the dread of malefactors the solace of victims and the deterrence of believers Although we may associate the notion of hell with Christian beliefs its gradual emergence depended on conflicting notions that pervaded the Mediterranean world more than a millennium before the birth

of Christ Asking just why and how belief in hell arose Alan E Bernstein takes us back to those times and offers us a comparative view of the philosophy poetry folklore myth and theology of that formative age Bernstein draws on sources from ancient Egypt Mesopotamia Greece Rome and Israel as well as early Christian writings through Augustine in order to reconstruct the story of the prophets priests poets and charismatic leaders who fashioned concepts of hell from an array of perspectives on death and justice The author traces hell s formation through close readings of works including the epics of Homer and Vergil the satires of Lucian the dialogues of Plato and Plutarch the legends of Enoch the confessions of the Psalms the prophecies of Isaiah Ezechiel and Daniel and the parables of Jesus Reenacting lively debates about the nature of hell among the common people and the elites of diverse religious traditions he provides new insight into the social implications and the psychological consequences of different visions of the afterlife This superb account of a central image in Western culture will captivate readers interested in history mythology literature psychology philosophy and religion

Origeniana Nona György Heidl,Róbert Somos,2009 This volume contains the written versions of the lectures delivered by the participants of the Colloquium Origenianum Nonum held in Pecs Hungary 29 August 2 September 2005 The main topic of the conference was Origen and the religious practice of his time Here 49 scholars from some 18 countries publish their newest findings on the greatest and most influential Christian thinker before Augustine who laid the foundation of the Biblical textual studies created systematic theology and was regarded as an authentic spiritual leader of Christianity The papers not only provide the best overview on a lively field of studies but also demonstrate how Origen s heritage in Christian history theology and spirituality carried with it the imprint of one of the most vital traditions of our civilization Similarly to the volumes of the earlier conferences Boston 1989 Chantilly 1993 Hofgeismar Marburg 1997 and Pisa 2001 the contributions are published by the series Bibliotheca Ephemeridum Theologiarum Lovaniensium *Hidden Wisdom*

Gedaliahu A. Guy Stroumsa,Guy G. Stroumsa,1996 This book investigates the problem of esoteric traditions in early Christianity their origin and their transformation in Patristic hermeneutics in the West as well as in the East It argues that these traditions eventually formed the basis of nascent Christian mysticism in Late Antiquity These esoteric traditions do not reflect the influence of Greek Mystery religions as has often been claimed but rather seem to stem from the Jewish background of Christianity They were adopted by various Gnostic teachings a fact which helps explaining their eventual disappearance from Patristic literature The ten chapters study each a different aspect of the problem including the questions of Gnostic and Manichaeic esotericism This book will be of interest to all students of religious history in Late Antiquity This publication has also been published in paperback please click here for details [Perspectives on the Song of Songs /](#) [Perspektiven der Hoheliedauslegung](#)

Anselm C. Hagedorn,2012-02-13 The collection of essays contains nineteen contributions that aim at locating the Song of Songs in its ancient context as well as addressing problems of interpretation and the reception of this biblical book in later literature In contrast to previous studies this work devotes considerable

attention to parallels from the Greek world without neglecting the Ancient Near East or Egypt Several contributions deal with the use of the Song in Byzantine Medieval German Romantic and modern Greek Literature Due to the interdisciplinary nature of the collection new perspectives and avenues of approach are opened **Methodius of Olympus** Katharina Bracht,2017-12-04 Methodius of Olympus ca 311 CE is regarded as a key author in 3rd c Christian theology In recent years his works have become objects of intense research interest on the part of Church historians classical Greek and Paleoslav philologists and scholars of Armenia The essays in this volume examine the current state of research enhance our understanding of Methodius with valuable new information and open up new research perspectives **Commentary on the Gospel According to John, Books 13-32** Origen,1993 This volume contains what remains of Books 13 32 of Origen s Commentary on the Gospel according to John and thus completes the publication of the first full English translation of this work that stands as the beginning of Christian scriptural exegesis Ronald Heine introduces his translation with a discussion of the times and circumstances within which the commentary was composed He also provides a survey of the major theological questions with which the commentary is concerned These include Origen s thought on the nature of God the person and work of Christ his relation to the Father and to the created order his teaching on the Holy Spirit the Resurrection and eschatology and his ideas on the devil Beginning with the conversation between Christ and the Samaritan woman at the well and ending with Christ s discourse to his disciples at the Last Supper the commentary displays Origen s attention to the literal meaning of the passages but moves beyond them to try to grasp their spiritual significance providing us with the opportunity to examine Origen s mystical thought Origen also refutes the Gnostic reading of the Gospel presented by Heracleon but this polemic is subordinate to his own investigation of the theological philosophical historical and etymological questions raised by the Gospel Because it treats many of the same passages of the Gospel of St John for which St Augustine provides a commentary in The Fathers of the Church volume 88 this volume provides a worthy companion to it and invites a comparison of the thoughts of these two great exegetes upon what both regarded as the greatest of the Gospels *Become Like the Angels* Benjamin P. Blosser,2012-10-09 An ambitious and very well researched book on the way in which Origen deals with a fundamental issue in ancient philosophy the position state and function of the soul in a living being It is a topic at the core of all anthropological and cosmological thinking in Late Antiquity In elegant lucid prose Blosser takes the reader gently through the minefield of previous scholarship and presents a very clear and skillful exposition of Origen as religious philosopher John A McGuckin Professor of Byzantine Church History Columbia University and Editor of The Westminster Handbook to Origen of Alexandria Book Jacket

Whispering the Secrets of Language: An Psychological Quest through **Origen Of Alexandria His World And His Legacy**

In a digitally-driven world where displays reign great and instant interaction drowns out the subtleties of language, the profound techniques and emotional nuances concealed within phrases often go unheard. Yet, located within the pages of **Origen Of Alexandria His World And His Legacy** a fascinating literary value pulsing with raw thoughts, lies a fantastic journey waiting to be undertaken. Penned by a skilled wordsmith, that wonderful opus invites viewers on an introspective trip, lightly unraveling the veiled truths and profound influence resonating within the very material of every word. Within the emotional depths with this moving review, we shall embark upon a sincere exploration of the book is primary themes, dissect its fascinating writing model, and yield to the powerful resonance it evokes deep within the recesses of readers hearts.
