Oxford History Of New Zealand:

The New Oxford History of New Zealand Giselle Byrnes, 2009-10-22 The New Oxford History of New Zealand is a new multi authored revisionist history of Aotearoa New Zealand The book tests the idea that New Zealand history can be explained as a quest for national identity and considers whether narratives that rely on the colony to nation storyline are still relevant in the early twenty first century The book proposes instead that history and identity have been shaped by culture community class region and gender and that these have been more important than ideas of evolving nationhood Above all this new book responds to the need for a general re interpretation of the big picture of New Zealand history *The Oxford History of New Zealand* William Hosking Oliver, Bridget R. Williams, 1981 **Oxford History of New Zealand Literature in English** Terry Sturm, 1993 A Concise History of New Zealand Philippa Mein Smith, 2012 The story of this rugged and dynamic land is beautifully narrated from its origins in Gondwana to the twenty first century *The History of New Zealand* Tom Brooking, 2004-06-30 With its closest neighbor some 1 200 miles away New Zealand is one of the most geographically isolated countries in the world Its remoteness led to its relatively late settlement Brooking traces New Zealand from its earliest Maori settlers to issues in 2003 covering intertribal relations the effects of European contact the challenges of globalization and more The volume includes a timeline of historical events biographical entries of notable people in the history of New Zealand a glossary of Maori terms and a bibliographic essay With its closest neighbor some 1 200 miles away New Zealand is one of the most geographically isolated countries in the world Its remoteness led to its relatively late settlement Brooking traces New Zealand from its earliest Maori settlers to issues in 2003 covering intertribal relations the effects of European contact the challenges of globalization and more The volume includes a timeline of historical events biographical entries of notable people in the history of New Zealand a glossary of Maori terms and a bibliographic essay This concise engagingly written volume is ideal for students and general interest readers seeking information on New Zealand s history **New Zealand's empire** Katie Pickles, Catharine Coleborne, 2015-11-01 Both colonial and postcolonial historical approaches often sideline New Zealand as a peripheral player This book redresses the balance and evaluates its role as an imperial power as both a powerful imperial envoy and a significant presence in the Pacific region **The Far East and Australasia 2003** Europa Publications, 2002 A unique survey of each country in the region It includes an extensive collection of facts statistics analysis and directory information in one accessible volume **The Routledge Handbook of the History of Settler Colonialism** Edward Cavanagh, Lorenzo Veracini, 2016-08-12 The Routledge Handbook of the History of Settler Colonialism examines the global history of settler colonialism as a distinct mode of domination from ancient times to the present day It explores the ways in which new polities were established in freshly discovered New Worlds and covers the history of many countries including Australia New Zealand Israel Japan South Africa Liberia Algeria Canada and the USA Chronologically as well as geographically wide reaching this volume focuses on an extensive array of topics and regions

ranging from settler colonialism in the Neo Assyrian and Roman empires to relationships between indigenes and newcomers in New Spain and the early Mexican republic to the settler dominated polities of Africa during the twentieth century Its twenty nine inter disciplinary chapters focus on single colonies or on regional developments that straddle the borders of present day states on successful settlements that would go on to become powerful settler nations on failed settler colonies and on the historiographies of these experiences Taking a fundamentally international approach to the topic this book analyses the varied experiences of settler colonialism in countries around the world With a synthesizing yet original introduction this is a landmark contribution to the emerging field of settler colonial studies and will be a valuable resource for anyone interested in the global history of imperialism and colonialism **Te Puna - A New Zealand Mission Station**

Angela Middleton,2009-03-01 Evangelical missionary societies have been associated with the processes of colonisation throughout the globe from India to Africa and into the Pacific In late 18th century Britain the Church Missionary Society for Africa and the East CMS began its missionary ventures and in the first decade of the 19th century sent three of its members to New South Wales Australia and then on to New Zealand an unknown little explored part of the world Across the globe a common material culture travelled with its evangelizing and later colonizing settlers with artefacts appearing as cultural markers from Cape Town in South Africa to Tasmania in Australia and the even more remote Bay of Islands in New Zealand After missionization colonization occurred Additionally common themes of interaction with indigenous peoples household economy the development of commerce and social and gender relations also played out in these communities This work is unique in that it provides the first archaeological examination of a New Zealand mission station and as such makes an important contribution to New Zealand historical archaeology and history It also situates the case study in a global context making a significant contribution to the international field of mission archaeology It informs a wider audience about the processes of colonization and culture contact in New Zealand along with the details of the material culture of the country s first European settlers providing a point of comparison with other outposts of British colonization *The Quest for Security*

Jesse Tumblin,2019-10-31 Colonial hierarchy and race fueled rapid militarization in the British Empire that shaped the violent course of the twentieth century This innovative study reveals the colonial backstory of a century that witnessed total war resulting in new political norms that enthrone national security as the dominating feature of contemporary politics

Madness in the Family C. Coleborne,2009-11-18 Madness in the Family explores how colonial families coped with insanity through a trans colonial study of the relationships between families and public colonial hospitals for the insane in New South Wales Victoria Queensland and New Zealand between 1860 and 1914 Trends in International Migration 2000 Continuous Reporting System on Migration OECD,2001-01-15 This book presents an analysis of recent trends in migration movements and policies in OECD countries as well as in certain non member countries **Victorian Settler Narratives** Tamara S Wagner,2015-10-06 This edited collection from a distinguished group of contributors explores a range of topics

Colonization and Development in New Zealand between 1769 and 1900 Ian Pool, 2015-09-03 This book details the interactions between the Seeds of Rangiatea New Zealand's Maori people of Polynesian origin and Europe from 1769 to 1900 It provides a case study of the way Imperial era contact and colonization negatively affected naturally evolving demographic epidemiologic transitions and imposed economic conditions that thwarted development by precursor peoples wherever European expansion occurred In doing so it questions the applicability of conventional models for analyses of colonial histories of population health and of development The book focuses on and synthesizes the most critical parts of the story the health and population trends and the economic and social development of Maori It adopts demographic methodologies most typically used in developing countries which allow the mapping of broad changes in Maori society particularly their survival as a people The book raises general theoretical questions about how populations react to the introduction of diseases to which they have no natural immunity Another more general theoretical issue is what happens when one society's development processes are superseded by those of some more powerful force whether an imperial power or a modern day agency which has ingrained ideas about objectives and strategies for development Finally it explores how health and development interact The Maori experience of contact and colonization lasting from 1769 to circa 1900 narrated here is an all too familiar story for many other territories and populations Natives and former colonists This book provides a case study with wider ramifications for theory in colonial history development studies demography anthropology and other fields

Kiwi Keith Barry Gustafson, 2013-10-01 The definitive life story of New Zealand Prime Minister Kiwi Keith Holyoake is revealed in this deftly composed exploration of how one man was able to weather complex changes in society to stay in power for more than 11 years Through his leadership in the 1960s to his position as Governor General in the late 1970s Holyoake was often derided as pompous and unprincipled but this biography demonstrates the astute understanding of people and political issues that allowed him to defuse division and preserve order while encouraging gradual and incremental progress Holyoake's performance as Minister of Foreign Affairs is also examined including his opposition to nuclear testing and his reluctant commitment to assisting the United States in Vietnam

Changing Times Jenny Carlyon, Diana Morrow, 2014-02-01 From the golden weather of postwar economic growth through the globalization economic challenges and protest of the 1960s and 1970s to the free market revolution and new immigrants of the 1980s and 1990s and beyond this account the most complete and comprehensive history of New Zealand since 1945 illustrates the chronological and social history of the country with the engaging stories of real individuals and their experiences Leading historians Jennifer Carlyon and Diana Morrow discuss in great depth New Zealand's move toward nuclear free status its embrace of a small state free market ideology and the seeming rejection of its citizens of a society known for the worship of averages Stories of pirate radio in Auckland's Hauraki Gulf the first DC8 jets landing at Mangere airport feminists liberating pubs public protests over the closing of post offices and indigenous language nests vividly demonstrate how a postwar society famous around the world for its dull conformity became one of the most ethnically economically and socially diverse countries on earth

The Big Smoke Ben Schrader, 2016-10-10
Unlike in Europe North America Australia and elsewhere urban history has never been sustained as a distinct field of scholarship in New Zealand This is surprising considering that since the early twentieth century most New Zealanders have lived in towns and cities 86 per cent were urban in 2014 Yet we know surprisingly little about these urban dwellers and the spaces in which they lived The pursuit of city life is one of the most important untold stories of New Zealand The Big Smoke is the first comprehensive history to tell this story presenting a dynamic and highly illustrated account of city life from 1840 to 1920 It explores such questions as what did cities look like and how did they change why were women especially drawn to live in cities in what ways did M ori experience and shape cities how far was the street a living room and stage for city life and why did New Zealand so quickly become a nation of townspeople At a time of national debate over housing and the growth of our cities Ben Schrader's superb new history reveals how our urban origins have shaped the people we are today Available in paperback and ebook formats from booksellers and using the Buy buttons on this page For more information on these purchase options please visit our Sales FAQs page or contact us
