Philosophies Of Existence An Introduction To The Basic Thought Of Kierkegaard

Peter Šajda, Jon Stewart

Philosophies Of Existence An Introduction To The Basic Thought Of Kierkegaard:

Philosophies of Existence Jean Wahl, 2019-04-15 This book first published in 1969 examines the philosophies of existence or Existentialism and the field's leading philosophers. These philosophers, the book argues, wished to distinguish themselves from other philosophies in their structure and approach, and it is that structure that this book takes care to analyse.

Les Philosophies de L'existence J. Wahl, 1959

Volume 9: Kierkegaard and Existentialism Jon Stewart, 2016-12-05 There can be no doubt that most of the thinkers who are usually associated with the existentialist tradition, whatever their actual doctrines were, in one way or another, influenced by the writings of Kierkegaard. This influence is so great that it can be fairly stated that the existentialist movement was largely responsible for the major advance in Kierkegaard's international reception that took place in the twentieth century. In Kierkegaard's writings, one can find a rich array of concepts such as anxiety, despair, freedom, sin, the crowd, and sickness, that all came to be standard motifs in existentialist literature. Sartre played an important role in canonizing Kierkegaard as one of the forerunners of existentialism. However, recent scholarship has been attentive to his ideological use of Kierkegaard. Indeed, Sartre seemed to be exploiting Kierkegaard for his own purposes, and suspicions of misrepresentation and distortions have led recent commentators to go back and reexamine the complex relation between Kierkegaard and the existentialist thinkers. The articles in the present volume feature figures from the French, German, Spanish, and Russian traditions of existentialism. They examine the rich and varied use of Kierkegaard by these later thinkers and most importantly, they critically analyze his purported role in this famous intellectual movement.

Kierkegaard Bibliography Peter Šajda, Jon Bartley Stewart, 2016 *Volume 19, Tome II: Kierkegaard Bibliography* Peter Šajda, Jon Stewart, 2017-03-16 The long tradition of Kierkegaard studies has made it impossible for individual scholars to have a complete overview of the vast field of Kierkegaard research. The large and ever-increasing number of publications on Kierkegaard in the languages of the world can be simply bewildering even for experienced scholars. The present work constitutes a systematic bibliography which aims to help students and researchers navigate the seemingly endless mass of publications. The volume is divided into two large sections. Part I, which covers Tomes I-V, is dedicated to individual bibliographies organized according to specific language. This includes extensive bibliographies of works on Kierkegaard in some 41 different languages. Part II, which covers Tomes VI-VII, is dedicated to shorter individual bibliographies organized according to specific figures who are in some way relevant for Kierkegaard. The goal has been to create the most exhaustive bibliography of Kierkegaard literature possible, and thus the bibliography is not limited to any specific time period but instead spans the entire history of Kierkegaard studies.

Educational Philosophy of Dr S Radhakrishnan Dr V N Deshpande, 2017 The spiritual homelessness of modern man cannot last long, thus believed Dr Sarvepalli Radhakrishnan. 1888-1975, a prominent philosopher, educationalist, and one of the makers of modern India. His solution to the problems of humanity is a return to the religion of spirit to be achieved through the right kind of education.

Radhakrishnan advocated a sound educational philosophy aimed at harmonious development of the human personality with utmost emphasis on moral and spiritual education This book effectively presents Radhakrishnan s thoughts highlighting their relevance to the present day The author has at length discussed Indian philosophy in comparison with the Western thought and successfully established that the East West synthesis as propagated by Radhakrishnan is the need of the hour to arrest the self destructive tendency of the world and ensure development and peace Readers will also get an account of

Radhakrishnan s life story in the backdrop of the political history of pre and post Independent India **The Later Poetry of Wallace Stevens** Thomas Jensen Hines,1976 This is a study of the development of the middle and later poetry of Wallace Stevens that uses comparisons with the phenomenological methods of Edmund Husserl and Martin Heidegger to clarify many of the difficulties in the poet s mature work **Phenomenology and Existentialism in the Twentieth Century**

Anna-Teresa Tymieniecka,2009-09-30 Phenomenology and existentialism transformed understanding and experience of the Twentieth Century to their core They had strikingly different inspirations and yet the two waves of thought became merged as both movements flourished The present collection of research devoted to these movements and their unfolding interaction is now especially revealing The studies in this first volume to be followed by two succeeding ones range from the predecessors of existentialism Kierkegaard Jean Wahl Nietzsche to the work of its adherents Shestov Berdyaev Unamuno Blondel Blumenberg Heidegger and Mamardashvili Dufrenne and Merleau Ponty to existentialism s congruence with Christianity or with atheism Among the leading Husserlian insights are treated essence and experience the place of questioning ethics and intentionality temporality and passivity and the life world The following book will uncover the perennial concerns guiding the wondrous interplay of these two inspirational sources **Fear and Trembling, and Repetition**

Robert L. Perkins,1993 For the first time in English the world community of scholars is systematically assembling and presenting the results of recent research in the vast literature of Soren Kierkegaard Based on the definitive English edition of Kierkegaard s works by Princeton University Press this series of commentaries addresses all the published texts of the influential Danish philosopher and theologian **The Development and Meaning of Twentieth-century Existentialism**

William Leon McBride,1997 This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare s A Comedy of Errors Miola s edited work also features a comprehensive critical history coupled with a full bibliography and photographs of major productions of the play from around the world In the collection there are five previously unpublished essays The topics covered in these new essays are women in the play the play s debt to contemporary theater its critical and performance histories in Germany and Japan the metrical variety of the play and the distinctly modern perspective on the play as containing dark and disturbing elements To compliment these new essays the collection features significant scholarship and commentary on The Comedy of Errors that is published in obscure and difficult accessible journals newspapers and other sources This collection brings together these essays for the first time

Ricœur at the Limits of Philosophy Barnabas Aspray, 2022-08-25 Can finite humans grasp universal truth Is it possible to think beyond the limits of reason Are we doomed to failure because of our finitude In this clear and accessible book Barnabas Aspray presents Ricœur's response to these perennial philosophical questions through an analysis of human finitude at the intersection of philosophy and theology Using unpublished and previously untranslated archival sources he shows how Ricœur's groundbreaking concept of symbols leads to a view of creation not as a theological doctrine but as a mystery beyond the limits of thought that gives rise to philosophical insight If finitude is created then it can be distinguished from both the Creator and evil leading to a view of human existence that instead of the anguish of no proclaims the joy of yes Jean-Paul Sartre: A Bibliography of International Criticism Robert Wilcocks, 1975 A large comprehensive compilation of journalism and international criticism of the works and activities of Jean Paul Sartre The work covers Sartre's stormy career from 1937 to 1975 containing nearly 700 000 entries and over 3 200 authors *The Early Foucault* Stuart Elden, 2021-05-20 It was not until 1961 that Foucault published his first major book History of Madness He had already been working as an academic for a decade teaching in Lille and Paris writing organizing cultural programmes and lecturing in Uppsala Warsaw and Hamburg Although he published little in this period Foucault wrote much more some of which has been preserved and only recently become available to researchers Drawing on archives in France Germany Switzerland Sweden and the USA this is the most detailed study yet of Foucault's early career It recounts his debt to teachers including Louis Althusser Jean Hyppolite Maurice Merleau Ponty and Jean Wahl his diploma thesis on Hegel and his early teaching career It explores his initial encounters with Georges Canguilhem Jacques Lacan and Georges Dumzil and analyses his sustained reading of Friedrich Nietzsche Edmund Husserl and Martin Heidegger Also included are detailed discussions of his translations of Ludwig Binswanger Victor von Weizsäcker and Immanuel Kant his clinical work with Georges and Jacqueline Verdeaux and his cultural work outside of France Investigating how Foucault came to write History of Madness Stuart Elden shows this great thinker's deep engagement with phenomenology anthropology and psychology An outstanding meticulous work of intellectual history The Early Foucault sheds new light on the formation of a major twentieth century figure *Heidegger* Thomas Sheehan, 2017-07-12 Many people consider Martin Heidegger the most important German philosopher of the twentieth century He is indisputably controversial and influential Although much has been written about Heidegger this may be the best single volume covering his life career and thought For all its breadth and complexity Heidegger's perspective is quite simple he is concerned with the meaning of Being as disclosure Heidegger's life was almost as simple He was a German professor except for a brief but significant period in which he supported the Nazi regime While that departure from philosophy continues to haunt his name and work one must question whether his thought from 1912 to 1976 should be measured by the yardstick of his politics from May 1933 through February 1934 This anthology addresses his complex but simple thought and his simple but complex life In a real sense Sheehan claims there is no content to Heidegger's topic and legacy only a method

But method must not be taken to mean a technique or procedure for philosophical thinking Rather the topic of Heidegger's thought and his pursuit of that topic the what and the how are one and the same thing Heidegger writes *Alles ist Weg* Everything is way and man's Being is to be on the way in essential movement Heidegger argues in our essence we humans are the topic and the point is not to be led there so much as to come to know what we already know and to become what we already are This brilliant collection confirms this truism and is an excellent introduction to the work of this seminal thinker

A History of Philosophy: Maine de Biran to Sartre Frederick Charles Copleston, 1946 Prominent French philosophical thinkers of the nineteenth and twentieth centuries *19th and 20th Century French Philosophy* Frederick Charles Copleston, 2003-01-01 Copleston an Oxford Jesuit and specialist in the history of philosophy created his history as an introduction for Catholic ecclesiastical seminaries The 11 volume series gives an accessible account of each philosopher's work and explains their relationship to the work of other philosophers **Transcendence and the Concrete** Jean Wahl, 2016-11-01 Jean Wahl 1888-1974 once considered by the likes of Georges Bataille Gilles Deleuze Emmanuel Levinas and Gabriel Marcel to be among the greatest French philosophers has today nearly been forgotten outside France Yet his influence on French philosophical thought can hardly be overestimated Levinas wrote that during over a half century of teaching and research Wahl was the life force of the academic extra academic and even to a degree anti academic philosophy necessary to a great culture And Deleuze for his part commented that Apart from Sartre who remained caught none the less in the trap of the verb to be the most important philosopher in France was Jean Wahl Besides engaging with the likes of Bataille Bergson Deleuze Derrida Levinas Maritain and Sartre Wahl also played a significant role in some cases almost singlehandedly in introducing French philosophy to movements like existentialism and American pragmatism and literature and thinkers like Hegel Kierkegaard Nietzsche Jaspers and Heidegger Yet Wahl was also an original philosopher and poet in his own right This volume of selections from Wahl's philosophical writings makes a selection of his most important work available to the English speaking philosophical community for the first time Jean Wahl was Professor of Philosophy at the Sorbonne from 1936 to 1967 save during World War II which he spent in the United States having escaped from the Drancy internment camp His books to appear in English include *The Pluralist Philosophies of England and America* Open Court 1925 *The Philosopher's Way* Oxford UP 1948 *A Short History of Existentialism* Philosophical Library 1949 and *Philosophies of Existence* Schocken 1969 *Twentieth-Century French Philosophy* Alan D. Schrift, 2009-02-04 This unique book addresses trends such as vitalism neo Kantianism existentialism Marxism and feminism and provides concise biographies of the influential philosophers who shaped these movements including entries on over ninety thinkers Offers discussion and cross referencing of ideas and figures Provides Appendix on the distinctive nature of French academic culture *Being at Work* Mark Cole, 2025-11-18 This thought provoking and ground breaking book offers a way for us all to consider our experience of being at work and of the nature of working life Written in an engaging and accessible style it presents the practical means by

which to apply central features of existentialism to make sense of how we relate to work and the workplace These include topics such as freedom and choice looking for purpose and making meaning and authenticity We spend a great deal of time at work and being at work is often a challenge Reference to the past in a corporate context tends to see it as a graveyard for errors and failures the future is something articulated by senior leaders and the place to which we are expected to travel in terms of their definition The specious present is the place where we experience our being in the moment the location where we do our work but it is rarely acknowledged in the places where we work This book offers new insights into how we can all meaningfully live our lives in the context of the world of work To do this it offers a personalised understanding of the existentialist way of philosophising It looks to simplify complex concepts in order to offer the reader a different way of thinking about the time that they spend at work and how they might consider different and more positive ways of being in such an environment It recognises that we spend a considerable amount of our life in the workplace and so argues that we need to consider that and find ways in which to make that experience personally meaningful Where other practices designed to help people to make sense of their actual experience are introspective existentialism is reflexive and active Similarly where those other approaches are deeply individualistic existentialism constantly reminds us that our choices are undertaken in relation to others and that they have a collective implication Whether you are keen to make sense of your experience of workplace and what it means to be a human being in that context or looking to explore how you embrace the challenges of being a leader in business this book will offer you rich perspectives for sense making and ways of rethinking your presence at work

A History of Philosophy Martin J. Walsh, 1985 These are the basis of lectures to philosophy students in universities colleges and seminaries The text has been revised repeatedly in use with students in different years of philosophical studies

Getting the books **Philosophies Of Existence An Introduction To The Basic Thought Of Kierkegaard** now is not type of inspiring means. You could not and no-one else going taking into account books accrual or library or borrowing from your friends to gain access to them. This is an unquestionably easy means to specifically get guide by on-line.
