**Art After the Bomb** Darrell D. Davisson, 2008 This book is requisite reading material for any person claiming to be an educated and informed member of the global community Our understanding in the West of the Eastern cultures specially the different cultures involving the Muslims is alarmingly low The book strives to offer a view from the ground a keyhole perspective that offers the readers a close and personal peek into some of the ethical underpinnings and the philosophical guiding parameters that inform the Muslim and the Eastern mind There are over 1.3 billion Muslims in the world It would be a serious intellectual fallacy to assume that they are all homogenous or to be more preposterous assume they are all terrorists It is extremely tragic that it took the Iranian hostage crisis to teach us about Shia Islam and 9/11 to teach us about Wahabi Islam Properly acquired knowledge not just what we learn from the media will allow us to be anticipatory and rational rather than being reactive and emotional For the Muslim reader specially the children and the youth the book strives to offer a deeper understanding of Islam beyond the boundaries of ritual Islam into the wide open space of spiritual and intellectual Islam To inspire them to appreciate and live up to the wonderful legacy of Islam and not to be mired down into some deviant interpretations of people with questionable motives The book is designed to encourage the process of tearing down walls and building bridges We share common dreams aspirations and challenges We share a common globe and a common destiny The author believes that there are no clashes of civilizations just clashes of ignorance and misunderstanding

Pop Art and the Origins of Post-modernism Sylvia Harrison, 2001 Examines the critical reception of Pop Art identifying the American roots of deconstructive post modernism

Danto, 2021-06-08 The classic and provocative account of how art changed irrevocably with pop art and why traditional aesthetics can't make sense of contemporary art A classic of art criticism and philosophy After the End of Art continues to generate heated debate for its radical and famous assertion that art ended in the 1960s Arthur Danto a philosopher who was also one of the leading art critics of his time argues that traditional notions of aesthetics no longer apply to contemporary art and that we need a philosophy of art criticism that can deal with perhaps the most perplexing feature of current art that everything is possible An insightful and entertaining exploration of art's most important aesthetic and philosophical issues conducted by an acute observer of contemporary art After the End of Art argues that with the eclipse of abstract expressionism art deviated irrevocably from the narrative course that Vasari helped define for it in the Renaissance Moreover Danto makes the case for a new type of criticism that can help

us understand art in a posthistorical age where for example an artist can produce a work in the style of Rembrandt to create a visual pun and where traditional theories cannot explain the difference between Andy Warhol's Brillo Box and the product found in the grocery store After the End of Art addresses art history pop art people's art the future role of museums and the critical contributions of Clement Greenberg whose aesthetics based criticism helped a previous generation make sense of modernism Tracing art history from a mimetic tradition the idea that art was a progressively more adequate representation of reality through the modern era of manifestos when art was defined by the artist's philosophy Danto shows that it wasn't until the invention of pop art that the historical understanding of the means and ends of art was nullified Even modernist art which tried to break with the past by questioning the ways in which art was produced hinged on a narrative
