Urban and Regional Development in India Baleshwar Thakur, 2005 Festschrift volume to Lakshmi Niwas Ram b 1937 geographer from Bihar India contributed articles

Sustainable Urbanization in India Jenia Mukherjee, 2017-10-06 This comprehensive volume contributes to the existing and emerging body of literature on contemporary urbanization and the interactions between cities and the environment The volume is contextualized against latest theories debates and discussions on sustainable urbanization the post 2015 development agenda of the United Nations

and India's official launching of the smart city agenda. Reflecting on three major components of urban sustainability: investments and infrastructures, waste management and urban ecologies, and environmentalisms, it moves beyond the bi-centric approach of only looking into the differences between the developed and the developing world and reflects on cities across India using polycentric methods and approaches. The Indian urban scenario is extremely complex and diverse, and solutions laid out in official and non-official documents tend to miss these complexities. This volume includes innovative research across different parts of India, identifying city-specific sources of unsustainability and challenges along with strategies and potentials that would make the process of urban transition both sustainable and equitable. Complex explorations of non-linear, bottom-up, multisectoral process-based local urban contexts across north, south, east, and west Indian cities in this volume critique a general acceptance of the universalized concept of sustainable urbanization and suggest ways that might be important for transcending inclusive theories to form practical policy-based recommendations and actions.

Jharkhand Amit Prakash, 2001 This book traces the evolution and transformation of the Jharkhandi identity over the last half century, culminating in the formation of the Jharkhand state in November 2000. The book provides decade-wise detailed socio-economic data for Jharkhand and undivided Bihar, beginning with 1950 and correlates the performance of the Jharkhandi political formations in Lok Sabha elections with the development profile of Jharkhand in relation to undivided Bihar.
