## **Population Growth The Brain Drain:**

*Population Growth and Brain Drain* Bechhofer F.,1962      *Population Growth and the Brain Drain* ,1969      Population Growth and the Brain Drain Frank Bechhofer,1969      **The Brain Drain** Herbert Grubel,2006-01-01 Theoretical studies of the determinants of migration by skilled persons and the output and welfare effects of such migration on the migrants and the countries of departure and destination The volume measures the numbers of highly skilled migrants from different countries to the U S and Canada with an analysis of policy alternatives      **International Migration of Physicians and Nurses** Riitta-Liisa Kolehmainen-Aitken,1975 311 references to books journal articles and reports as well as to theses dissertations and other unpublished documents Concerns movement of physicians and nurses between 65 countries Mostly English language materials Arrangement by authors under 6 major headings e g Impact of migration Entry gives bibliographical information and annotations Author geographical indexes      **Sub-Saharan African Migration** Mr.Jesus R Gonzalez-Garcia,Mr.Ermal Hitaj,Mr.Montfort Mlachila,Arina Viseth,Mustafa Yenice,2016-11-02 Amid rapid population growth migration in sub Saharan Africa has been increasing briskly over the last 20 years Up to the 1990s the stock of migrants citizens of one country living in another country was dominated by intraregional migration but over the last 15 years migration outside the region has picked up sharply In the coming decades sub Saharan African migration will be shaped by an ongoing demographic transition involving an enlargement of the working age population and migration outside the region in particular to advanced economies is set to continue expanding This note explores the main drivers of sub Saharan African migration focusing on migration outside the region as this has greater global spillovers It finds that the economic impact of migration for the region occurs mainly through two channels First the migration of young and educated workers brain drain takes a toll as human capital is already scarce in the region although some recent studies suggest that migration may have also a positive effect brain gain Second remittances represent an important source of foreign exchange and income in a number of sub Saharan African countries contribute to the alleviation of poverty and help smooth business cycles      Brain Drain and Brain Gain Tito Boeri,2012-07-26 Part II examines the consequences of brain drain for the sending countries

**Contemporary Challenges for Caribbean Economies** Terence M. Yhip,Brian Alagheband,2024-09-30 The COVID 19 pandemic laid bare economic weaknesses throughout the Caribbean region and humane standards of living are at risk This book highlights the retooling that must be done to promote economic stability in this important area of the world It contributes to ongoing discourse regarding Caribbean economies and highlights the long term economic challenges that must be addressed to move forward In this book economists Terence M Yhip and Brian Alagheband offer ideas and proposals to reinvigorate economic growth through the adoption of technology and investment in human capital The book explains how to diversify economies by increasing the complexity of exports With a shift in priorities nations will need to raise total factor productivity and potential output The book offers strategies to diversify the production and export of complex goods and

services The authors note that the necessary capabilities can take nations decades to build Such investment will require trade offs and sacrifice Progress cannot and will not be immediate but such modifications will produce meaningful economic returns Contemporary Challenges for Caribbean Economies includes a chapter on the oil future for Guyana a rising economic superstar due to the nation's oil riches that portend either blessing or curse It also includes a chapter written by Tawfik Ramtoolah about the impressive dynamism of the Mauritius economy which transformed from sugar cane monoculture to industrial and financial services diversification

**The Global Dimension of Economic Evolution** Kurt Dopfer, 2012-12-06 This volume on evolutionary approaches to economic development and growth is a member of a family of special volumes that Springer has published on Evolutionary Economics recently The present volume has excellent predecessors There is a special volume on Evolution in Markets and Institutions edited by Ulrich Witt and another on Evolutionary and Neoclassical Perspectives on Market Structure and Economic Growth edited by Yannis Katsoulacos And there are more in the pipeline The volumes already published reflect the broad ranging interests of evolutionary economists and within the scope delineated they are devoted to major research areas of the discipline The editorial intention behind the venture of special volumes has been to bundle together some of the research areas in order to sharpen the problem focus and to generate research synergies within major research fields We may somewhat obviously define a research field by its research topics For the present purpose however we may wish to conceive the research conducted by evolutionary economists as belonging to either a research area that is inspired in its problem perspective by neoclassical economics or to one that is not The very success of the critique of the neoclassical paradigm relied on a preoccupation with its research scope and questions Evolutionary economics has scored marvelously in challenging major neoclassical stands and neoclassical economics may never be quite the same in the future

**Brain Drain and Gender Inequality in Turkey** Adem Yavuz Elveren, 2018-05-22 This book provides a comprehensive analysis of the brain drain from Turkey with particular focus on its gender dimension The author presents a review of brain drain literature as well as analyzing the brain drain from Turkey using original survey data Presenting an account of state changes in Turkey and using a range of empirical methods the book argues that women have a higher tendency not to return to the country due to increasing gender inequality borne out of a shift towards a more authoritarian regime over the last decade Brain Drain and Gender Inequality in Turkey will be of interest to students and scholars across a range of disciplines including migration studies social policy and gender studies

**World Economic Outlook, October 2016** International Monetary Fund.

Research Dept.,2016-10-04 According to the October 2016 World Economic Outlook global growth is projected to slow to 3.1 percent in 2016 before recovering to 3.4 percent in 2017. The forecast revised down by 0.1 percentage point for 2016 and 2017 relative to April's report reflects a more subdued outlook for advanced economies following the June U.K. vote in favor of leaving the European Union. Brexit and weaker than expected growth in the United States. These developments have put further downward pressure on global interest rates as monetary policy is now expected to remain accommodative for longer. Although the market reaction to the Brexit shock was reassuringly orderly, the ultimate impact remains very unclear as the fate of institutional and trade arrangements between the United Kingdom and the European Union is uncertain. Financial market sentiment toward emerging market economies has improved with expectations of lower interest rates in advanced economies, reduced concern about China's near-term prospects following policy support to growth, and some firming of commodity prices. But prospects differ sharply across countries and regions, with emerging Asia in general and India in particular showing robust growth and sub-Saharan Africa experiencing a sharp slowdown. In advanced economies, a subdued outlook subject to sizable uncertainty and downside risks may fuel further political discontent with anti-integration policy platforms gaining more traction. Several emerging market and developing economies still face daunting policy challenges in adjusting to weaker commodity prices. These worrisome prospects make the need for a broad-based policy response to raise growth and manage vulnerabilities more urgent than ever.

**The Pervasive Role of Science, Technology, and Health in Foreign Policy** National Research Council, Policy and Global Affairs, Office of International Affairs, Committee on Science, Technology, and Health Aspects of the Foreign Policy Agenda of the United States, 1999-12-09 Issues involving science, technology, and health (STH) have moved to the forefront of the international diplomatic agenda. Other vital issues linked to technological developments pervade longer-range foreign policy concerns. Thus, STH considerations are often central to the Department of State's bilateral and multilateral interactions with other governments. STH aspects play a large role in discussions of such critical topics as nuclear nonproliferation, use of outer space, population growth, adequate and safe food supply, climate change, infectious diseases, energy resources, and competitiveness of industrial technologies. In addressing these issues, expert STH knowledge is essential to the anticipation and resolution of problems and to the achievement of foreign policy goals. The Department recognizing that it requires strengthened capabilities to address such an array of topics, asked for suggestions by the National Research Council as to how it could better deal with foreign policy issues with STH content.

**Globalization and International Development** H.E. Baber, Denise Dimon, 2013-08-19 This new anthology offers a wide selection of readings addressing the contemporary moral issues that arise from the division between the Global North and South, the problem of the color line that W.E.B. Du Bois identified at the beginning of the twentieth century, and which on a scale that Du Bois could not have foreseen is the problem of the twenty-first. The book is interdisciplinary in scope. In addition to standard topical essays in ethical theory by philosophers such as Anthony Appiah, Martha Nussbaum, and Peter

Singer it contains essays from economists such as Amartya Sen Joseph Stiglitz and Thomas DeGregori as well as current empirical data from the World Bank IMF United Nations and other sources

*Mobility in Transition* Izabela Grabowska-Lusinska, Aimee Kuvik, 2025-10-01 This volume presents new research on post accession migration from Central and Eastern Europe in the short period since the EU enlargements of 2004 and 2007 Explanations of post accession migration patterns trends and mechanisms delve into the complexities of these phenomena New groups of migrants and types of migrations are identified such as young migrants often students or graduates without family obligations and without clear plans concerning their future life Case studies on Poland Romania Hungary and Latvia as well as the United Kingdom and Germany being major destination countries divulge the multifaceted nature of transition whether in the form of labour migration short term mobility including among international students or return migration The volume insightfully points towards future migration trends and sets guidelines for further research

[The Economics of Immigration](#) Örn B. Bodvarsson, Hendrik Van den Berg, 2013-05-17 The Economics of Immigration is written as both a reference for researchers and as a textbook on the economics of immigration It is aimed at two audiences 1 researchers who are interested in learning

more about how economists approach the study of human migration flows and 2 graduate students taking a course on migration or a labor economics course where immigration is one of the subfields studied The book covers the economic theory of immigration which explains why people move across borders and details the consequences of such movements for the source and destination economies The book also describes immigration policy providing both a history of immigration policy in a variety of countries and using the economic theory of immigration to explain the determinants and consequences of the policies The timing of this book coincides with the emergence of immigration as a major political and economic issue in the USA Japan Europe and many developing countries

**Reforming the United Nations [electronic resource]** Joachim Müller, 2006 The United Nations is in need of reform There has always been widespread agreement that this is the case indeed throughout the 60 year history of the Organization Differences over the best cure reflect the political confrontation between its 191 member states The institution has been criticized to lack legitimacy to need accountability and to be inefficient with a bloated bureaucracy Recently allegations of mismanagement and corruption in the Oil for Food Program have led to a crisis of confidence The public debate followed reform initiatives for enlarging the Security Council achieving the Millennium Development Goals and establishing new collective mechanisms to protect human rights counter terrorism and respond to crimes against humanity Strengthening oversight governance and management practices aimed at introducing fundamental institutional changes The publication describes the reform process leading to the United Nations Summit in September 2005 The achievements remain disappointing with the failure to approve a grand bargain A number of recommendations are put forward to facilitate the reform process in the United Nations realising however that this will remain cumbersome and a lengthy step by step effort
