Cheung,Ian Scott,2003-08-29 Based on new field research this book assesses the current state of governance and public sector reforms in eleven Asian countries and jurisdictions especially in the wake of the recent regional financial crisis that seriously affected some of them It analyses reform efforts comparatively against a backdrop of governance problems and seeks to establish whether these efforts represent a substantive shift in attitudes towards reform or whether they serve simply to reinforce existing practices The authors explore a number of important themes that are central to governance and public sector reform issues These include the role of the state the success or failure of organizational reforms corruption the applicability of the new public management model in the Asian context and the governance values and reform models promoted by regional and international agencies Institutional Engineering and Political Accountability in Indonesia, Thailand and the Philippines Patrick Ziegenhain,2016-05-13 Political accountability is a crucial element of any democracy since it is a safeguard against power abuse and corruption both urgent problems of many political systems in Southeast Asia Based on social science theories the author analyses from a comparative perspective the ways institutional engineering concerning different dimensions of political accountability influenced the quality of democracy in Indonesia Thailand and the Philippines By highlighting the successes and shortcomings this book evaluates the degree these institutional reforms resulted in the deepening stagnation or regression of the respective democratization processes in these three Southeast Asian countries State and Society in the Philippines Patricio N. Abinales,Donna J. Amoroso,2017-07-06 This clear and nuanced introduction explores the Philippines ongoing and deeply charged dilemma of state society relations through a

historical treatment of state formation and the corresponding conflicts and collaboration between government leaders and social forces Patricio N Abinales and Donna J Amoroso examine the long history of institutional weakness in the Philippines and the varied strategies the state has employed to overcome its structural fragility and strengthen its bond with society The authors argue that this process reflects the country s recurring dilemma on the one hand is the state s persistent inability to provide essential services guarantee peace and order and foster economic development on the other is the Filipinos equally enduring suspicions of a strong state To many citizens this powerfully evokes the repression of the 1970s and the 1980s that polarized society and cost thousands of lives in repression and resistance and billions of dollars in corruption setting the nation back years in economic development and profoundly undermining trust in government The book s historical sweep starts with the politics of the pre colonial era and continues through the first year of Rodrigo Duterte s controversial presidency

**Murder Without Borders** Terry Gould, 2010-03-08 I am not interested in why man commits evil I want to know why he does good Vaclav Havel What makes a poor small town journalist stay on a story even though threatened with certain death and offered handsome rewards for looking the other way Over four years Terry Gould has travelled to Colombia the Philippines Bangladesh Russia and Iraq the countries in which journalists are most likely to be murdered on the job to attempt to answer this question In each place through conversations with their colleagues their families and in some cases their murderers he uncovers the lives of local reporters and broadcasters who stayed on a story to the point of death He searches for the moment in which each of his protagonists understood that they were willing to die and finds complex reasons for their bravery In his wonderfully vivid portraits of seven courageous souls he brings their lives and the stories they worked on to light telling truth to those who would murder

Pippa Norris,2009-11-19 What are the ideal roles the mass media should play as an institution to strengthen democratic governance and thus bolster human development Under what conditions do media systems succeed or fail to meet these objectives And what strategic reforms would close the gap between the democratic promise and performance of media systems Working within the notion of the democratic public sphere Public Sentinel News Media and Governance Reform emphasizes the institutional or collective roles of the news media as watchdogs over the powerful as agenda setters calling attention to social needs in natural and human caused disasters and humanitarian crises and as gatekeepers incorporating a diverse and balanced range of political perspectives and social actors Each is vital to making democratic governance work in an effective transparent inclusive and accountable manner The capacity of media systems and thus individual reporters embedded within those institutions to fulfill these roles is constrained by the broader context of the journalistic profession the market and ultimately the state Successive chapters apply these arguments to countries and regions worldwide This study brought together a wide range of international experts under the auspices of the Communication for Governance and Accountability Program CommGAP at the World Bank and the Joan Shorenstein Center on the Press Politics and Public Policy at Harvard University The book is designed for policy makers and media professionals working within the international development community national governments and grassroots organizations and for journalists democratic activists and scholars engaged in understanding mass communications democratic governance and development *The Power of Institutions* Andrew MacIntyre,2018-08-06 Conventional wisdom holds that institutions matter Here Andrew MacIntyre reveals exactly how they matter in the developing world Combining an eye for current concerns in international politics with a deep knowledge of Southeast Asia MacIntyre explores the impact of institutions on effective governance He examines the national political architecture the complex of rules that determine how leadership of a state is constituted and how state authority is exercised The Power of Institutions sets out an intriguing conundrum one well established body of literature decries the evils of highly centralized political systems while an equally vigorous school of thought outlines the dangers of political fragmentation MacIntyre presents the problems associated with institutional extremes common in developing countries as the power concentration paradox Either extreme is likely to be associated with distinctive governance problems MacIntyre illustrates his wider arguments by focusing on Indonesia Malaysia the Philippines and Thailand He shows how

their diverse political architectures influenced their responses to the Asian economic crisis and played into pressures for political reform. The Power of Institutions makes clear why the configuration of political institutions is one of the most pressing challenges in many parts of the developing world today.
