The Pork Pie Hat Grace James,1922 **The Jazz Standards** Ted Gioia,2021 An essential comprehensive guide to some of the most important jazz compositions telling the story of more than 250 key jazz songs and providing a listening guide to more than 2000 recordings **The World Book Dictionary** ,2003 An English language dictionary in two volumes that provides definitions spellings and pronunciations to more than 225 000 terms Oppenheimer Charles Thorpe,2008-09-15

At a time when the Manhattan Project was synonymous with large scale science physicist J Robert Oppenheimer 1904-67 represented the new sociocultural power of the American intellectual. Catapulted to fame as director of the Los Alamos atomic weapons laboratory, Oppenheimer occupied a key position in the compact between science and the state that developed out of World War II. By tracing the making and unmaking of Oppenheimer's wartime and postwar scientific identity, Charles Thorpe illustrates the struggles over the role of the scientist in relation to nuclear weapons, the state and culture. A stylish intellectual biography, Oppenheimer maps out changes in the roles of scientists and intellectuals in twentieth century America, ultimately revealing transformations in Oppenheimer's persona that coincided with changing attitudes toward science in society. This is an outstandingly well researched book, a pleasure to read and distinguished by the high quality of its observations and judgments. It will be of special interest to scholars of modern history, but non-specialist readers will enjoy the clarity that Thorpe brings to common misunderstandings about his subject. Graham Farmelo, *Times Higher Education Supplement*. A fascinating new perspective. Thorpe's book provides the best perspective yet for understanding Oppenheimer's Los Alamos years, which were critical after all, not only to his life but for better or worse, the history of mankind. Catherine Westfall, *Nature*. [Slang and Its Analogues Past and Present](#) William Ernest Henley, 1902 [Slang and Its Analogues Past and Present](#) John Stephen Farmer, 1902 **The Complete Costume Dictionary** Elizabeth J. Lewandowski, 2011-10-24

While there are costume and fashion dictionaries tied to specific countries or periods, none have been comprehensive. In *The Complete Costume Dictionary*, Elizabeth Lewandowski has collected from a variety of sources, including costume history texts, journal articles, historical publications, autobiographies, biographies, foreign language dictionaries, and contemporary publications, to create a resource that spans the globe from the earliest record of fashion to the 21st century. Including more than 20,000 fashion and costume terms, this volume also features more than 300 illustrations. The first section of the book is an alphabetical listing of these words with their definitions, period, and country of origin. This volume also contains appendixes that list the terms by country of origin, period, and type of clothing. The book is not limited to the Western World and includes both archaic and current terms. Significantly greater in scope than anything currently available online or in print, this one-of-a-kind publication is an invaluable resource for costume and fashion historians, textile preservationists, period re-enactors, and history and theatre scholars, as well as theatre professionals. **The Hats of Humanity, Historically, Humorously and Aesthetically Considered** George Augustus H.F. Sala, 1886 **The Chambers Dictionary** Allied Chambers, 1998

Translating Jazz Into Poetry Erik Redling, 2017-02-20 The study develops a new theoretical approach to the relationship between two media, jazz music and writing, and demonstrates its explanatory power with the help of a rich sampling of jazz poems. Currently, the mimetic approach to intermediality, e.g. the notion that jazz poetry imitates jazz music, still dominates the field of criticism. This book challenges that interpretive approach. It demonstrates that a mimetic view of jazz poetry hinders readers from perceiving the metaphoric ways poets rendered music in writing. Drawing on and extending

recent cognitive metaphor theories Lakoff Johnson Turner Fauconnier it promotes a conceptual metaphor model that allows readers to discover the innovative ways poets translate melody dynamics tempo mood and other musical elements into literal and figurative expressions that invite readers to imagine the music in their mind s eye i e their mind s ear Quietus Van Poyck William,2004-05 A dark secret sleeps deep in a Florida swamp Falcon asks What would you do if you found a fortune in Mafia money lost deep in a swamp unmarked and unclaimed If you are young David Alistair raised in poverty you take it and you bury it and you wait for maturity and grow a plan As the power of money develops a life of its own young Alistair tightens his seatbelt presses the accelerator and hangs on With new understanding he un harnesses a fortune redirected to find his lost sister then prepares to unleash his wrath on the men who kidnapped her Denver Rose a highly financed small town attorney launches the LEA Foundation The Baron a secretive old man an enigma with a bad larynx and a vibrating voice bent on protecting his identity channels huge sums of money into L E A F Harley Proffit arguably the best private detective in all of Florida brought back from the brink becomes point man leading the search for Lindsay Elizabeth Alistair Emily Rodenberry teacher with a gift joins the team an all seeing silent contributor Ned Baker the crusty old recluse with a questionable past runs interference Toby Lambert David s best friend snake bitten and ill develops amnesia just in the nick of time as he wants no part of this dangerous game Join the search as this adventurous young man leads his highly financed and colorful team Ride with them let the adrenaline flow taste the danger and feel the lure of easy money Travel their journey through the backwater tributaries of Florida then out deep into the Caribbean on a quest for justice and help solve the mystery of Lindsay Elizabeth Alistair s disappearance while wondering if this team has been chosen protected from darkness seduced into guerrilla warfare disarming those so evil
