Portrait of Elmbury John Moore, 1945 *Brensham Village* John Moore, 2001-06

Brensham Village John Moore, 2011-09-28 First published in 1946 following on from Portrait of Elmbury the second in the series shows an England which now seems almost foreign in its remoteness Evoked with an unerringly accurate eye Brensham Village contains a mixture of action and character conveying the life of a country community in the halcyon period between the wars Sentimental it is but not so as to undermine the picture of a time when a life of landed gentry squalid poverty and routine village intimacy co existed within a familiar seasonal routine

The Countryside at War 1914-1918 Caroline Dakers, 2013-09-19 When war broke out in 1914 conscription seemed unnecessary there was no shortage of volunteers ready to lay down their lives for their country In this fascinating book illustrated with contemporary drawings and photographs Caroline Dakers explores exactly what their country meant to the men and women who fought died survived She suggests that with a little subliminal help from literature art and propaganda the British volunteer whether factory worker farm hand or public school boy felt that he was fighting for old England village church meadow and carthorse rather than city factory commerce and motor car Drawing on a wide range of unpublished papers and family archives Dr Dakers recreates the world of the countryside at war There are chapters on agriculture literally the home front and life and death in the manor house vicarage school and farm And while all this was being fought for The French countryside was smashed into a quagmire This is the most complete picture yet of the impact of the First World War on rural England a war which if only in the ubiquitous village war memorials still reverberates across the decades

What Shall I Read Next? F. Seymour Smith, 1953-01-02 Originally published in 1953 What Shall I Read Next lists nearly 2000 works published after 1900 with the compiler s own appreciatory comments on selected items It was a companion volume to Mr Seymour Smith s English Library Both books are published on behalf of the National Book League In his introduction explaining the scope and purpose of the book Mr Seymour Smith wrote Some will find it useful merely as a shopping list reminding them of books they know

something about already and serving as a remembrancer To others and particularly to younger readers it may introduce books which have so far escaped their notice It is hoped too that for booksellers and librarians it will have a practical use as a desk book for answering enquiries for serving as a check list for stock and for use as a reference book when memory fails

The Agrarian History of England and Wales Edward John T. Collins, Joan Thirsk, 2000 The unifying theme of this volume is the changing role of the countryside in national life and the impact upon it of the social and economic forces unleashed by industrialisation and the growth of towns

The Agrarian History of England and Wales: Volume 8, 1914-1939 Joan Thirsk, Edith Holt Whetham, H. P. R. Finberg, 1978 Volume VIII of the Agrarian History 1978 provides a technical social and economic history of rural England and Wales between 1914 and 1939

Modern England, 1901-1984 Alfred F. Havighurst, 2004-07-08 The most comprehensive bibliography of printed books articles and standard texts on twentieth century England

Modern England 1901-1970 Alfred Havighurst, 1976-05-13 This is a comprehensive bibliography of all printed books articles and standard texts on England Ireland Scotland the Commonwealth and the colonies up to 1970 This handbook will serve as a useful guide to scholars teachers at all levels advanced students and the general reader interested in examining the period in some depth

The English Countryside Between the Wars Paul Brassley, Jeremy Burchardt, Lynne Thompson, 2006 Organised into sections on society culture politics and the economy and embracing subjects as diverse as women novelists and village crafts this book argues that almost everywhere we look in the countryside between the wars there were signs of new growth and dynamic development

The Battle of the Fields Brian Short, 2014 This book will appeal not only to historians and geographers but to many who maintain a deep interest in the British countryside and its past and to those who continue to share a fascination for the Second World War in particular the home front The Battle of the Fields tells the story of rural community and authority in Britain during the Second World War by looking at the County War Agricultural Executive Committees From 1939 they were imbued with powers to transform British farming to combat the loss of food imports caused by German naval activity and initial European mainland successes Their powers were sweeping and draconian When fully exercised against recalcitrant farmers dispossession in part or whole could and did result This book includes the most detailed analysis of these

dispossessions including the tragic case of Ray Walden the Hampshire farmer who was killed by police after refusing to leave his farmhouse in 1940 The committees were deemed successful by Whitehall as harbingers of modernity mechanization draining artificial fertilizers reclamation of heaths marshes and woodlands We now deplore some of these changes but Britain did not starve in large part thanks to their efforts This book will appeal not only to historians and geographers but to many who maintain a deep interest in the British countryside and its past and to those who continue to share a fascination for the Second World War in particular the home front It will also demonstrate to all who are anxious about food security in the modern age how this question was dealt with 70 years ago BRIAN SHORT is Emeritus Professor of Historical Geography at
