Reading Sites Social Difference And Reader Response:

Consumption and Wealth in Luke's Travel Narrative James A. Metzger, 2007 While several recent studies have suggested that the Gospel of Luke recommends generous almsgiving or a relatively benign sharing ethic that mimics existing redistributive measures in early Roman Palestine this book argues that a much more subversive reading of the Gospel's wealth and possessions traditions is defensible

Modern Criticism and Theory Nigel Wood, David Lodge, 2014-06-11 This third edition of Modern Criticism and Theory represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection's aim to reflect contemporary preoccupations the reader has expanded forward to include such newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories Modern Criticism and Theory has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today

Theories of Reading Karin Littau, 2006-12-04 Bringing insights from book history to bear on literary history and theory this book points to a split between literary study that regards reading as a reducibly mental activity and a tradition reaching back to antiquity which assumed that reading was not only about sense making but also about sensation

Great Books by German Women in the Age of Emotion, 1770-1820 Margaretmary Daley, 2022 Literature written by women in German during the period long known patriarchally as the Age of Goethe was largely lumped in with other unserious or artistically unworthy works under the category Trivialliteratur literally trivial literature Using insights from Gender Studies yet acknowledging the need for a literary canon Great Books by German Women offers a critical interpretation of six canon worthy German novels written by women in the period for which it coins the term Age of Emotion The novels are chosen because they depict women's ordinary yet interesting lives and equally because each displays formal strengths that yield prose particularly able to express emotion The first Sophie von La Roche's Die Geschichte des Fräuleins von Sternheim The

History of Lady von Sternheim draws on the tradition of the epistolary novel while also finding new ways to depict empathetic emotions The second Friederike Unger s Julchen Gr unthal brings to the Frauenroman or women s novel the use of irony to portray a heroine s emotions during her coming of age The next novels add lyricism to their prose to capture sensual emotions Sophie Mereau s Bl utenalter der Empfindung The Blossoming of Feeling imagines women s affinity for the philosophical sublime while Caroline Wolzogen depicts female desire in her Agnes von Lilien The fifth novel Die Honigmonathe The Honeymoon by Karoline Fischer explores the agony that extreme emotions cause not only for women but also for men The last novel Caroline Pichler s Frauenwurde The Dignity of Women expands the focus from a young heroine to multiple mature characters while maintaining the centrality of women s talents and emotions Finally this study accords honorable mention to some other women s novels before concluding that the influence of these six works was in no way trivial either in portraying women s lives and emotions or in the history of German literature

Defying the Odds Donna Dunbar-Odom, 2012-02-01 For me literacy is like trying to open a locked door with the wrong key I don t always see the meaning at first and usually I have to have someone let me in with their key I tend to think that being in college is enough but it still isn t going to guarantee higher literacy for me It is something I am trying to grasp but I am going about it slowly simply because I am not so sure of how important it is to me Rachel According to key literacy research working class students are far less likely to pursue higher literacy than their middle class counterparts yet there are countless examples of those who have defied the odds In this thoughtful look at why some determinedly pursue higher literacy against all expectations and predictions Donna Dunbar Odom explores the complex relationships people have with literacy paying particular attention to the relationship between literacy and class She shares the personal and often poignant literacy narratives of writers academics and her own students to reveal a great deal about

what motivates desire for higher literacy as well as what gets in the way Bringing together these reflections with current literacy composition and class theories Dunbar Odom provides a better understanding of how to tap that desire in writing classrooms Ultimately the author argues that teachers need to focus less attention on how students should read and more on why they might want to

Writing through Jane Crow Ayesha K. Hardison, 2014-05-13 In *Writing through Jane Crow* Ayesha Hardison examines African American literature and its representation of black women during the pivotal but frequently overlooked decades of the 1940s and 1950s At the height of Jim Crow racial segregation a time of transition between the Harlem Renaissance and the Black Arts movement and between World War II and the modern civil rights movement black writers also addressed the effects of Jane Crow the interconnected racial gender and sexual oppression that black women experienced Hardison maps the contours of this literary moment with the understudied works of well known writers like Gwendolyn Brooks Zora Neale Hurston Ann Petry and Richard Wright as well as the writings of neglected figures like Curtis Lucas Pauli Murray and Era Bell Thompson By shifting her focus from the canonical works of male writers who dominated the period the author recovers the work of black women writers Hardison shows how their texts anticipated the renaissance of black women's writing in later decades and initiates new conversations on the representation of women in texts by black male writers She draws on a rich collection of memoirs music etiquette guides and comics to further reveal the texture and tensions of the era
