

A dirt path leads through a field of tall grass and a fence, with a sunset sky in the background. The path is in the foreground, leading towards the horizon. The fence is made of wooden posts and wire, and the grass is tall and green. The sky is a mix of orange, yellow, and blue, with some clouds.

Reading Poverty:

Reading Poverty in America Patrick Shannon, 2014-03-14 In this book Shannon's major premise remains the same as his 1998 *Reading Poverty*. Poverty has everything to do with American public schooling: how it is theorized, how it is organized, and how it runs. Competing ideological representations of poverty underlie school assumptions about intelligence, character, textbook content, lesson formats, national standards, standardized achievement tests, and business school partnerships, and frame our considerations of each. In this new edition, Shannon provides an update of the ideological struggles to name and respond to poverty through the design, content, and pedagogy of reading education, showing how through their representations and framing, advocates of liberal, conservative, and neoliberal interpretations attempt the ideological practice of teaching the public who they are, what they should know, and what they should value about equality, civic society, and reading. For those who decline these offers, Shannon presents radical democratic interpretations of the relationship between poverty and reading education that position the poor, the public students, and teachers as agents in redistribution of economic, cultural, and political capital in the United States.

Reading Is Our Business Sharon Grimes, 2006-02-06 Discusses current research on how children learn to read and outlines a seven-step teaching strategy for enhancing all aspects of reading comprehension.

Putting Social Justice and Equity at the Heart of Reading for Pleasure Jane Carter, 2025-03-31 This essential book discusses what reading for pleasure is and what it is not, introducing some fundamental ideas about how we learn to read and how this process can impact a child's identity as a reader in classrooms that promote equality, inclusion, and diversity. The profile and importance of Reading for Pleasure has grown significantly over the last few years and is now firmly embedded in both government policy and the Ofsted framework. Developing a Reading for Pleasure school that is truly inclusive of the whole school community, however, can require a culture shift in relation to the teaching of reading, representation in the reading environment, and the knowledge and attitudes of the school community. This book seeks to use the current research, teacher case studies, and the voices of children to address some of the issues that teachers and pre-service teachers encounter when trying to develop an inclusive Reading for Pleasure culture within their schools. Each chapter is co-authored by teachers and researchers and includes case studies and children's perspectives. It provides practical and evidence-based advice, lesson ideas, and creative ideas to both support and challenge all school leaders, staff, and student teachers in their journey to create readers rather than children that can just read.
