## **Reading The Roots:**

*Reading the Roots* Michael P. Branch, 2004 *Reading the Roots* is an unprecedented anthology of outstanding early writings about American nature a rich influential yet critically underappreciated body of work Rather than begin with Henry David Thoreau who is often identified as the progenitor of American nature writing editor Michael P Branch instead surveys the long tradition that prefigures and anticipates Thoreau and his literary descendants The selections in *Reading the Roots* describe a diversity of landscapes wildlife and natural phenomena and their authors represent many different nationalities cultural affiliations religious views and ideological perspectives The writings gathered here also range widely in terms of subject rhetorical form and disciplinary approach from promotional tracts and European narratives of contact with Native Americans to examples of scientific theology and romantic nature writing The volume also includes a critical introduction discussing the cultural scientific and literary value of early American nature writing headnotes that contextualize all authors and selections and a substantial bibliography of primary and secondary sources in the field *Reading the Roots* at last makes early American landscapes and a range of literary responses to them accessible to scholars students and general readers

**Reading and Writing Instruction in the Twenty-First Century** Ellen C. Carillo, 2021-08-02 Robert Scholes passed away on December 9 2016 leaving behind an intellectual legacy focused broadly on textuality Scholes's work had a significant impact on a range of fields including literary studies composition and rhetoric education media studies and the digital humanities among others In *Reading and Writing Instruction in the Twenty First Century* contemporary scholars explore and extend the continued relevance of Scholes's work for those in English and writing studies In this volume Scholes's scholarship is included alongside original essays providing a resource for those considering everything from the place of the English major in the twenty first century to best practices for helping students navigate misinformation and disinformation *Reading and Writing Instruction in the Twenty First Century* not only keeps Scholes's legacy alive but carries it on through a commitment in Scholes's 1998 own words to offer our students the cultural equipment they are going to need when they leave us Contributors Angela Christie Paul T Corrigan Lyn e Lewis Gaillet Doug Hesse Alice S Horning Emily J Isaacs Christopher La Casse Robert Lest n Kelsey McNiff Thomas P Miller Jessica Rivera Mueller Christian Smith Kenny Smith

**One Million Children** Robert E. Slavin, Nancy A. Madden, 2001 *One Million Children* describes the Success for All and Roots Wings programmes in detail presents the extensive research evaluating them and discusses the implications of this research for policy and practice Success for All and Roots Wings are comprehensive restructuring programmes for primary schools designed to promote the idea that all children can learn

**Success for All** Robert E. Slavin, Nancy A. Madden, 2001 Success for All is a comprehensive reform model for elementary school that combines state of the art curriculum research based instructional methods assessments and professional development with one to one tutoring extensive family support services and other strategies to ensure that every child is successful in the early grades and then builds on that success

throughout the elementary years Started in 1987 it is the most widely used of all reform designs It is currently in about 1800 schools serving more than a million U S children mostly in high poverty schools It is also the most extensively researched comprehensive reform program with two dozen evaluations carried out in eight research institutions Success for All Research and Reform in Elementary Education is the first edited volume presenting research on Success for All in the U S and in five other countries for which the program has been adapted This book presents a description of Success for All an overall summary of all achievement studies reviews of research original presentations of new research and discussions of the impacts and the implications of this research and dissemination for educational policy and practice in many arenas

**Infantry Journal** ,1923      **Bold Plans for School Restructuring** Samuel C. Stringfield,Steven M. Ross,Lana Smith,2012-11-12 Two powerful forces are driving American s demands for better schools one longstanding force is idealistic and the other is new and economic The current group of young Americans is in danger of being the first full generation to consistently make less money and enjoy fewer worldly rewards than their parents The intersection of idealistic and pragmatic forces has produced an era of calls for reform in U S education that is unparalleled calls that have resulted in the creation of the New American Schools Development Corporation NASDC The chapters in this book highlight the path traveled by NASDC a private non profit corporation charged with creating new break the mold school designs for the 21st century and describes the first three years accomplishments of nine NASDC development teams      American Roots Karen Lourie Blanchard,Christine Baker Root,2001 This reading skill builder is designed to enrich students study of English while also providing a general understanding of the social cultural economic and political forces that have shaped the United States Written for intermediate level students American Roots includes articles written in a variety of styles These readings describe major events people and trends within nine broad historical periods and are designed to increase reading confidence while building knowledge of U S history and culture Readings are accompanied by maps photos charts and graphs as well as follow up exercises to strengthen reading skills including Previewing Identifying main ideas and details Separating fact from opinion Summarizing Understanding inferences and more In addition to building reading skills American Roots also improves speaking listening and writing as students work through a variety of activities [www longman com americanroots](http://www.longman.com/americanroots)

**Effective Programs for Latino Students** Robert E. Slavin,Margarita Calderon,Margarita Calderon,2012-11-12 Latino or Hispanic children are one of the fastest growing groups in U S schools today On average these students perform worse than Anglo students on measures of academic achievement and other measures of academic success and their drop out rate is high There are schools of excellence among those serving Latino children but the majority of these children are placed at risk by schools and community institutions unable to build on the cultural personal and linguistic strengths these children are likely to bring with them to school Schools serving Latino students need programs based on high quality research capable of being replicated and adapted to local circumstances and needs The purpose of this book is to present the current state of the

art with respect to research on effective instructional programs for Latino students in elementary and secondary grades Surprisingly this has not been done before there are many books on the situation of Latino students in U S schools but none so far have reviewed research on the outcomes of programs designed to enhance the academic achievement of these students The chapters represent a broad range of methodologies from experimental to correlational to descriptive and the solutions they propose are extremely diverse Each examines in its own way programs and practices that are showing success Together they present a rich array of research based effective programs that are practical widely available and likely to make a profound difference What binds the chapters together is a shared belief that Latino students can succeed at the highest levels if they receive the quality of instruction they deserve and a shared belief that reform of schools serving many Latino students is both possible and essential This is a book filled with statistics description and reviews of research but even more it is filled with optimism about what schools for Latino students can be and what these students will achieve It is a highly relevant and useful resource for educators policymakers and researchers who want to use research to inform the decisions they make about how to help Latino students succeed in elementary and secondary schools and beyond **Education for All**

Robert E. Slavin,1996-01-01 This work is a collection of previously published articles by Robert Slavin The articles trace the evolution over a quarter century of the powerful idea that given well developed rigorously evaluated methods and materials teachers can succeed with virtually all children *Advanced Exercises in Practical Physics* Sir Arthur

Schuster,Charles Herbert Lees,1901 **2 Million Children** Robert E. Slavin,Nancy A. Madden,Bette Chambers,Barbara Haxby,2008-12-05 Based on a program that has benefited over 2 million children this updated edition outlines steps for school reform and achievement through prevention intervention and assessment to promote reading *Improving Schools and Educational Systems* Alma Harris,Janet Hageman Chrispeels,2023-05-09 School improvement has become a dominant feature of educational reform in many countries The pressure upon schools to improve performance has resulted in a wide range of improvement programmes and initiatives which can provide both inspiration and advice to everyone involved in school improvement This book draws together the most effective school improvement projects from around the world in one comprehensive text including detailed comparative analysis of a wide variety of initiatives Drawing on examples from the UK the USA Canada South Africa and Australia this book gives both an international snapshot and a coherent synthesis of initiatives that have given achievable results **Practical Mathematics (stage 1)** Alfred George Cracknell,1906

**Journal of Industrial and Engineering Chemistry** ,1922 **Preventing Early Learning Failure** Robert Sornson,2001 Each year thousands of young children come to school without good early learning experiences and are unprepared for school learning activities Others have experienced physical or emotional setbacks that make learning difficult and frustrating In Preventing Early Learning Failure expert educators describe practices that can help children find success in school Topics include a look at what s important in reading and math the nature of true learning disabilities and problem

solving using the Instructional Support Team model with a report on an elementary school that has adopted that model and changed the lives of many at risk learners Other chapters report on basic sensory skill development at the kindergarten level and reflect on the concepts and practices that make a difference in the lives of young learners The authors examine four programs including the widely heralded Success for All program that show promise in helping children get ready for early learning success The authors also describe effective preschool programs and principles and they look at how an awareness of multiple intelligences and individual learning needs can be useful Three of the chapters include stories that illustrate some ways to prevent failure One story describes a classroom teacher who learned to think differently about student behavior another describes innovative ways a school dealt with three problem children and the third tells about the productive relationship of a young boy his mother and his teacher We cannot afford to let children in the early years of school fall into a pattern of failure that will affect them their families and their communities throughout a lifetime Preventing Early Learning Failure offers practical approaches to help develop every child s capacity for learning and ensure that no child will be left behind Note This product listing is for the Adobe Acrobat PDF version of the book

**Preventing Early Learning Failure** Bob Sornson, 2001-05-15 Each year thousands of young children come to school without good early learning experiences and are unprepared for school learning activities Others have experienced physical or emotional setbacks that make learning difficult and frustrating In Preventing Early Learning Failure expert educators describe practices that can help children find success in school Topics include a look at what s important in reading and math the nature of true learning disabilities and problem solving using the Instructional Support Team model with a report on an elementary school that has adopted that model and changed the lives of many at risk learners Other chapters report on basic sensory skill development at the kindergarten level and reflect on the concepts and practices that make a difference in the lives of young learners The authors examine four programs including the widely heralded Success for All program that show promise in helping children get ready for early learning success The authors also describe effective preschool programs and principles and they look at how an awareness of multiple intelligences and individual learning needs can be useful Three of the chapters include stories that illustrate some ways to prevent failure One story describes a classroom teacher who learned to think differently about student behavior another describes innovative ways a school dealt with three problem children and the third tells about the productive relationship of a young boy his mother and his teacher We cannot afford to let children in the early years of school fall into a pattern of failure that will affect them their families and their communities throughout a lifetime Preventing Early Learning Failure offers practical approaches to help develop every child s capacity for learning and ensure that no child will be left behind Note This product listing is for the Adobe Acrobat PDF version of the book

**Seeing Complexity in Public Education** Donald Peurach, 2011-09-05 In a period of unprecedented pressure to reform education in the United States two questions stand out What is involved in the work of transforming underperforming schools into higher performing schools

And what makes this work so difficult Seeing Complexity in Public Education examines these questions in light of the history of the Success for All Foundation an organization that has collaborated with thousands of elementary schools across the US to enact a common design for comprehensive school reform all in the effort to improve the reading achievement of millions of students This story of Success for All spans a long and turbulent period beginning in 1987 with the strategy of improving reading achievement by improving students cooperative learning in classrooms and stretching through 2008 with efforts to influence federal policy to support that strategy There is nothing in the story of Success for All to suggest that schools can be improved through silver bullets stump speeches or passionate debate Rather the theme that emerges from the story of Success for All is that the problems and possibilities of effective large scale and sustainable education reform lie in the complexity of public education in the interactions among underperforming schools programs of reform the organizations that advance those programs and the environments in which they operate The story of Success for All is sobering in that it locates first order problems of education reform not in the schools that need to improve but instead in the many reformers so determined to improve them By tracing Success for All s deep push into the full world of US public education this book assists both populist and professional reformers in seeing understanding and ultimately confronting its complexity

*The State of Education Policy Research* Susan H. Fuhrman, David K. Cohen, Fritz Mosher, 2020-11-25 The State of Education Policy Research is a comprehensive insightful evaluation of the strengths and weaknesses of education policy research in the U S today Editors Susan Fuhrman David Cohen and Fritz Mosher examine key issues facing policymakers and researchers including race education equity teacher quality early education privatization and the politics of education policy Collectively the chapters present a complex mosaic of education policy research that integrates the views of policy experts from education economics and related disciplines Important topics discussed in this influential new text include Politics of education Covers research on key political groups including teachers unions business roundtables parent and or religious advocates as well as state and federal lawmakers Race Discusses race as an issue as well as a non issue and includes a discussion of the testing gap State policies Provides an overview of state policies directed at improving teacher quality and discusses the reality of a teacher shortage National Trends Analyzes current trends toward centralization and standardization and the growing influence of federal and state mandates This book is appropriate for advanced courses in education administration politics and policy It will also appeal to policy researchers in education economics and political science to policy makers at the federal state and local levels and to the academic libraries serving them

Trust and School Life Dimitri Van Maele, Patrick B. Forsyth, Mieke Van Houtte, 2014-01-31 This book samples recent and emerging trust research in education including an array of conceptual approaches measurement innovations and explored determinants and outcomes of trust The collection of pathways explores the phenomenon of trust and establishes the significance of trust relationships in school life It emboldens the claim that trust merits continued attention of both scholars and practitioners

because of the role it plays in the production of equity and excellence Divided into four parts the book explores trust under the rubrics of learning teaching leading and bridging The book proposes a variety of directions for future research These include the simultaneous investigation of trust from the perspectives of various trusters and at both the individual and group levels longitudinal research designs and an elaboration of methods

**Crespar Findings (1994-1999)** A. Wade Boykin, Robert E. Slavin, 2014-10-13 This double issue presents summaries of the scholarly and practical reform accomplishments of the first five years of the Center for Research on the Education of Students Placed at Risk CRESPAR This bold five year initiative addressed several of the problems that most directly challenge the values and practical aspirations of modern democracies The included articles emphasize how CRESPAR has focused on the schools in many of America s most challenging communities It has both helped local schools improve themselves and advanced the nation s research base This issue was written in commemoration of the life and work of John Henry Hollifield Jr founding coeditor For 28 years Hollifield served as an editor and administrator at Johns Hopkins University s Center for Social Organization of Schools When JESPAR was just an idea Hollifield was one of the people who most strongly advocated its development He had a ready smile a fine editorial touch and a relentless will to produce each excellent issue This issue summarizing much of the research from CRESPAR s first five years is presented by the full team of authors in his loving memory
