students *Reading the Hebrew Bible with Animal Studies* Ken Stone, 2023-05-25 An excellent introduction to the field of animal studies the applications of these ideas to biblical passages illuminate the text in new ways Brandon R Grafius Horizons in Biblical Theology Animal studies may be a recent academic development but our fascination with animals is nothing new Surviving cave paintings are of animal forms and closer to us as Ken Stone points out animals populate biblical literature from beginning to end This book explores the significance of animal studies for the interpretation of the Hebrew Bible Combined with biblical scholarship animal studies sheds useful light on animals animal symbolism and the relations among animals humans and God not only for those who study biblical literature and its ancient context but for contemporary readers concerned with environmental social and animal ethics Without the presence of domesticated and wild animals neither biblical traditions nor the religions that make use of the Bible would exist in their current forms Although parts of the Bible draw a clear line between humans and animals other passages complicate that line in multiple ways and challenge our assumptions about the roles animals play therein Engaging influential thinkers including Jacques Derrida Donna Haraway and other experts in animal and ecological studies *Reading the Hebrew Bible with Animal Studies* shows how prehumanist texts reveal unexpectedly relevant dynamics and themes for our posthumanist age Stone's ecological sensibilities theoretical acumen and incisive exegetical arguments open up fresh perspectives Stephen D Moore The Theological School Drew University This monograph is poised to become a key work in the field Anne L tourneau *Reading Religion* Groundbreaking Carol J Dempsey OP Horizons **Readings on Human Nature** Peter Loftson, 1998-02-04 This anthology brings together 45 selections by a wide range of philosophers and other thinkers and provides a representative sampling of the approaches to the study of human nature that have been taken within the western tradition The selections range in time from the ancient Greeks to the 1990s and in political orientation from the conservative individualism of Ayn Rand to the liberalism of John Rawls Classic writings from the sixteenth through nineteenth centuries are here Descartes Machiavelli Hobbes Rousseau and so on but so are a wide range of twentieth century writings including a number of feminist voices the biological theory of Edward O Wilson and the cultural materialist theory of Marvin Harris A substantial selection of Christian views of human nature is a central part of the anthology The anthology is as notable for its depth as it is for its breadth an important editorial principle has been to include a variety of substantial selections thus allowing the reader to engage more readily with some of the complexities of each approach The Ethical Executive Robert Hoyk, Paul Hersey, 2010-04-07 In this book Hoyk and Hersey describe 45 unethical traps into which any one of us can fall These traps they say can erupt in any organizational environment Some of these traps distort our perception of right and wrong so we actually believe our unethical behavior is right Many of them are psychological in nature and if we are not aware of them they are like illusions webs of deception In the authors analysis these traps significantly contributed to the large scale corporate disasters we witnessed in recent years Hoyk and Hersey take account of these realities and offer a real world method that will predict preclude and if necessary get

us out of these traps Given the increased scrutiny under which all executives and managers operate today this book is a must read for anyone who is charged with achieving an organization's mission whether that mission is increasing profit serving the common good or both
