Intended to Illustrate a Short History of England Edward Potts Cheyney, 2015-06-24 Excerpt from Readings in English History Drawn From the Original Sources Intended to Illustrate a Short History of England All intelligent teachers of history realize the desirability of having their students do more reading of history than is contained in the text book and most of them agree that this is best found in records and writings contemporary with the events being studied But the practical problem of providing such readings for classes is by no means easy to solve Those who have tried to procure the necessary number of copies of books to discover English translations to find applicable passages and to make practicable requirements best know the difficulties of the task I hope this book of readings from the original sources of English history will help to overcome these obstacles It provides in easily accessible form a body of such material as large as can be actually utilized by most classes It is intended to be used as a close companion to my Short History of England The matter contained in it is arranged in the same order as the subjects taken up in the text book and is selected with a view to the further explanation and illustration of the principal points there discussed It differs also from previous collections in drawing on a somewhat greater variety of historical material and in being it is believed the result of a more extensive and prolonged search for suitable illustrative passages About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

[With] The young student's English history reading book [and] English history home lesson books Charlotte Mary Yonge,1881 **Readings from English History (Classic Reprint)** John Richard Green,2015-09-27 Excerpt from Readings From English History My aim in compiling these books of historical extracts is a very simple and practical one The teaching of English History is spreading fast through our schools but it can hardly be said as yet to have become a popular subject of study among their scholars In fact if I may trust my own experience a large proportion of boys and girls turn from it as hard dry and uninteresting I cannot say that the complaint is a groundless one In their zeal to cram as many facts as possible into their pages the writers of most historical text books have been driven to shut out from their narratives all that gives life and colour to the story of men History as we give it to our children is literally an old almanack and is as serviceable as an old almanack in quickening their wits or in rousing their interest No doubt wiser books will come in time but meanwhile those teachers who care to appeal to more valuable faculties than that of mere memory are hard put to it to find a remedy for the dryness of history About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections

Selected Readings in English History Harriet Emily Tuell, 2015-06-26 Excerpt from *Selected Readings in English History* In offering to teachers of English history a new collection of readings the compilers of this volume believe that they are meeting a widely recognized need The time was when teachers in convention discussed the value of such collateral reading Now they seek for ways and means The value of the work is no longer in question The general sentiment of teachers and the requirements of the colleges alike demand more than the best textbook can offer The new demand however creates new problems Where and how may suitable readings be obtained The best equipment undoubtedly is furnished by a large school library with a great variety of books from which to choose and many duplicate copies of the most useful works But the expense involved is very great so great as to be in many cases prohibitory The best alternative appears to be a collection of such extracts as are suited to the purpose By this means the pupil is furnished at moderate cost with the best a library affords If the selections prove interesting he is impelled to go further afield by himself The selection of such material is not easy The need is for vivid and interesting reading calculated to produce a clear and definite impression At first sight the field from which one may choose appears wide and fruitful but it soon narrows down to a very limited area Selections from the sources have been widely recommended and somewhat lavishly supplied About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
