Maxwell,1994 *Reading the Market* Peter Knight,2016-09-01 America s fascination with the stock market dates back to the Gilded Age Winner of the BAAS Book Prize of the British Association of American Studies Americans pay famously close attention to the market obsessively watching trends patterns and swings and looking for clues in every fluctuation In *Reading the Market* Peter Knight explores the Gilded Age origins and development of this peculiar interest He tracks the historic shift in market operations from local to national while examining how present day ideas about the nature of markets are tied to past genres of financial representation Drawing on the late nineteenth century explosion of art literature and media which sought to dramatize the workings of the stock market for a wide audience Knight shows how ordinary Americans became both emotionally and financially invested in the market He analyzes popular investment manuals brokers newsletters newspaper columns magazine articles illustrations and cartoons He also introduces readers to fiction featuring financial tricksters which was characterized by themes of personal trust and insider information The book reveals how the popular culture of the period shaped the very idea of the market as a self regulating mechanism by making the impersonal abstractions of high finance personal and concrete From the rise of ticker tape technology to the development of conspiracy theories *Reading the Market* argues that commentary on the Stock Exchange between 1870 and 1915 changed how Americans understood finance and explains what our pervasive interest in Wall Street says about us now **Understanding South African Financial Markets** ,2003 Understanding South African financial markets is an introductory text which should serve as a useful reference and guide for commerce students public servants and members of the business fraternity alike **Understanding South African Financial Markets** Cecilia Van Zyl,Ziets Botha,Peter Skerritt,2006 A reference and guide for commerce students public servants and the business fraternity giving an overview of how the various institutions in the South African financial system operate as well as of the different financial markets in the economy and the instruments traded in those markets *Business*
