Readings In Global History V1 2nd

Kenneth Pomeranz, Steven Topik

Readings In Global History V1 2nd:

The World that Trade Created Kenneth Pomeranz, Steven Topik, 2006 Why are railroad tracks separated by the same four feet eight inches as ancient Roman roads How did 19th century Europeans turn mountains of bird excrement from Peru into mountains of gold The answers to these tantalizing questions and dozens more will be revealed *Lifelines from Our Past* L. S. Stavrianos, 2015-03-04 This book offers an extraordinary interpretation of world history from the paleolithic era to the present Renowned historian L S Stavrianos conceptualizes human history into three categories kinship societies tributary societies and capitalist societies In each he discerns and studies four life line issues ecology gender relations social relations and war that encompass the broadest areas of human experience The revised edition projects forward to the twenty first century offering the author s views on possible future scenarios involving the same lifeline issues *World History* , 1998

World Civilizations Peter N. Stearns, 1999-10 The primary goal of World Civilizations The Global Experience Third Edition is to present a truly global history one that both discusses the development of the world s leading civilizations and also emphasizes the major stages in the interactions among different peoples and societies The book examines all the world s civilizations including those in the Western tradition but also those civilizations sometimes neglected in world history texts for example the nomadic societies of Asia Latin America and the nations and states of the Pacific Rim World Civilizations balances this discussion of independent developments in all the world s major civilizations with comparative analysis of the results of international contact MARKET Appropriate for anyone interested in World History *A History of the Laws of War: Volume 1* Alexander Gillespie, 2011-09-06 This unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day Relying on written records from as far back as 2400 BCE and using sources ranging from the Bible to Security Council Resolutions the author pieces together the history of a subject which is almost as old as civilisation itself The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and regulating the treatment of captives This first book on warfare deals with the broad question of whether the patterns of dealing with combatants and captives have changed over the last 5 000 years and if so how In terms of context the first part of the book is about combatants and those who can lawfully take part in combat In many regards this part of the first volume is a series of less than ideal pathways This is because in an ideal world there would be no combatants because there would be no fighting Yet as a species we do not live in such a place or even anywhere near it either historically or in contemporary times This being so a second best alternative has been to attempt to control the size of military forces and therefore the bloodshed This is also not the case by which humanity has worked over the previous centuries Rather the clear assumption for thousands of years has been that authorities are allowed to build the size of their armed forces as large as they wish The restraints that have been applied are in terms of the quality and methods by which combatants are taken The considerations pertain to questions of biology such as age and sex

geographical considerations such as nationality and the multiple nuances of informal or formal combatants These questions have also overlapped with ones of compulsion and whether citizens within a country can be compelled to fight without their consent Accordingly for the previous 3 000 years the question has not been whether there should be a limit on the number of soldiers but rather who is or is not a lawful combatant It has rarely been a question of numbers It has been and remains one of type The second part of this book is about people typically combatants captured in battle It is about what happens to their status as prisoners about the possibilities of torture assistance if they are wounded and what happens to their remains should they be killed and their bodies fall into enemy hands The theme that ties all of these considerations together is that all of the acts befall those who are to one degree or another captives of their enemies As such they are no longer masters of their own fate As a work of reference this first volume as part of a set of three is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself

[The Cambridge Global History of Fashion: Volume 1](#) Christopher Breward, Beverly Lemire, Giorgio Riello, 2023-08-17 Explores how the long history of fashion from antiquity to c 1800 created global networks and animated world communities

The Chautauquan ,1883

Encyclopedia of Global Warming and Climate Change, Second Edition S. George Philander, 2012-06-13 The First Edition of the Encyclopedia of Global Warming and Climate Change provided a multi authored academic yet non technical resource for students and teachers to understand the importance of global warming to appreciate the effects of human activity and greenhouse gases around the world and to learn the history of climate change and the research enterprise examining it This edition was well received with notable reviews Since its publication the debate over the advent of global warming at least partially brought on by human enterprise has continued to ebb and flow depending literally on the weather politics and media coverage of climate summits and debates Advances in research also change the discourse as new data is collected and new scientific projects continue to explore and explain global warming and climate change Thus a new Second Edition updates more than half of the original entries and adds new perspectives and content to keep students and researchers up to date in a field that has proven provocatively lively

Research in Education ,1968

The Cambridge World History: Volume 1, Introducing World History, to 10,000 BCE David Christian, 2015-04-09 Volume 1 of the Cambridge World History is an introduction to both the discipline of world history and the earliest phases of world history up to 10 000 BCE In Part I leading scholars outline the approaches methods and themes that have shaped and defined world history scholarship across the world and right up to the present day Chapters examine the historiographical development of the field globally periodisation divergence and convergence belief and knowledge technology and innovation family gender anthropology migration and fire Part II surveys the vast Palaeolithic era which laid the foundations for human history concentrating on the most recent phases of hominin evolution the rise of Homo sapiens and the very earliest human societies through to the end of the last ice age

Anthropologists archaeologists historical linguists and historians examine climate and tools language and culture as well as offering regional perspectives from across the world

The New Cambridge History of the Bible: Volume 1, From the Beginnings to 600 James Carleton Paget, Joachim Schaper, 2013-05-09 Recent years have witnessed significant discoveries of texts and artefacts relevant to the study of the Old and New Testaments and remarkable shifts in scholarly methods of study The present volume mirrors the increasing specialization of Old Testament studies including the Hebrew and Greek Bibles and reflects rich research activity that has unfolded over the last four decades in Pentateuch theory Septuagint scholarship Qumran studies and early Jewish exegesis of biblical texts The second half of the volume discusses the period running from the New Testament to 600 including chapters on the Coptic Syriac and Latin bibles the Gnostic use of the scriptures pagan engagement with the Bible the use of the Bible in Christian councils and in popular and non literary culture A fascinating in depth account of the reception of the Bible in the earliest period of its history

The Cambridge World History of Sexualities: Volume 1, General Overviews Merry E. Wiesner-Hanks, Mathew Kuefler, 2024-04-30 Volume I offers historiographical surveys and general overviews of central topics in the history of world sexualities Split across twenty two chapters this volume places the history of sexuality in dialogue with anthropology women s history LGBTQ history queer theory and public history as well as examining the impact Freud and Foucault have had on the history of sexuality The volume continues by providing overviews on the sexual body family and marriage the intersections of sexuality with race and class male and female homoerotic relations trans and gender variant sexuality the sale of sex sexual violence sexual science sexuality and emotion erotic art and literature and the material culture of sexuality

Recording for the Blind & Dyslexic, ... Catalog of Books, 1996

The First Age of Industrial Globalization Maartje Abbenhuis, Gordon Morrell, 2019-10-17 This book offers an accessible and lively survey of the global history of the age of industrialization and globalization that arose in the wake of the Napoleonic Wars and collapsed in the maelstrom of the First World War Through a combination of industrialization technological innovation and imperial expansion the industrializing powers of the world helped to create inter connected global space that left few regions untouched In ten concise chapters this book relays the major shifts in global power economics and society outlining the interconnections of global industrial imperial and economic change for local and regional experiences identities and politics It finishes with an expos on the catastrophic impact of the First World War on this global system The First Age of Industrial Globalization weaves together the histories of industrialization world economy imperialism international law diplomacy and war which historians usually treat as separate developments and integrates them to offer a new analysis of an era of fundamental historical change It shows that the revolutionary changes in politics society and international affairs experienced in the 19th century were inter connected developments It is essential reading for any student of modern global history

The School World, 1907

[The Labour Party and the World, Volume 1](#) Rhiannon Vickers, 2003 Part of a set tracing the evolution of the Labour Party s foreign policy during the 20th century this

text assesses the development and evolution of Labour's world view and follows its foreign policy during World War I the Russian Revolution the Spanish Civil War World War II and the Cold War **Resources in Education** ,1997 **Ancient Rome** Matthew Dillon,Lynda Garland,2013-10-28 A companion volume to the highly successful and widely used Ancient Greece this Sourcebook is a valuable resource for students at all levels studying ancient Rome Lynda Garland and Matthew Dillon present an extensive range of material from the early Republic to the assassination of Julius Caesar Providing a comprehensive coverage of all important documents pertaining to the Roman Republic Ancient Rome includes source material on political developments in the Roman Republic 509 44 BC detailed chapters on social phenomena such as Roman religion slavery and freedmen women and the family and the public face of Rome clear precise translations of documents taken not only from historical sources but also from inscriptions laws and decrees epitaphs graffiti public speeches poetry private letters and drama concise up to date bibliographies and commentaries for each document and chapter a definitive collection of source material on the Roman Republic All students of ancient Rome and classical studies will find this textbook invaluable at all levels of study China: A History (Volume 1) Harold M. Tanner,2010-03-15 Available in one or two volumes this accessible yet rigorous introduction to the political social and cultural history of China provides a balanced and thoughtful account of the development of Chinese civilization from its beginnings to the present day Each volume includes ample illustrations a full complement of maps a chronological table extensive notes recommendations for further reading and an index Volume 1 From Neolithic Cultures through the Great Qing Empire 10 000 BCE 1799 Volume 2 From the Great Qing Empire through the People's Republic of China 1644 2009 To Sanctify the World George Weigel,2022-10-04 A leading Catholic intellectual explains why the teachings of the Second Vatican Council are essential to the Church's future and the world's The Second Vatican Council 1962 1965 was the most important Catholic event in the past five hundred years Yet sixty years after its opening on October 11 1962 its meaning remains sharply contested and its promise unfulfilled In To Sanctify the World George Weigel explains the necessity of Vatican II and explores the continuing relevance of its teaching in a world seeking a deeper experience of freedom than personal willfulness The Council's texts are also a critical resource for the Catholic Church as it lives out its original Christ centered evangelical purpose Written with insight and verve To Sanctify the World recovers the true meaning of Vatican II as the template for a Catholicism that can propose a path toward genuine human dignity and social solidarity
