Draco, 2022-03-25 Keep it Simple A Simple is a philtre derived from a single herb and was an important element among the natural resources of the parish pump witch wise women and cunning folk Simples are common kitchen stuff that have been handed down through generations of country people in the form of family cures for everyday ailments Or as William Fernie

wrote in his *Herbal Simples* 1897 The art of Simpling is as old with us as our British hills It aims at curing common ailments with simple remedies culled from the soil or got from home resources near at hand These were no fancy recipes with magical formulae and often given as a tisane the woman of the household was able to use the remedies to treat common ailments suffered by her family And this elementary form of domestic plant medicine can be as simple as a cup of chamomile tea made from flowers picked fresh from our own garden to aid sleep This was the most elementary way to use medicinal plants since no fancy recipes or scientific acumen was needed But this element of traditional witchcraft has long been in the shadows

**Bodily and Spiritual Hygiene in Medieval and Early Modern Literature** Albrecht Classen,2017-03-20 While most people today take hygiene and medicine for granted they both have had their own history We can gain deep insights into the pre modern world by studying its health care system its approaches to medicine and concept of hygiene Already the early Middle Ages witnessed great interest in bathing hot and cold swimming and good personal hygiene Medical activities grew over time but even early medieval monks were already great experts in treating the sick The contributions examine literary medical historical texts and images and probe the information we can glean from them The interdisciplinary approach of this volume makes it possible to view this large field in a complex and diversified manner taking into account both early medieval and early modern treatises on medicine water bathing and health Such a cultural historical perspective creates a most valuable bridge connecting literary and scientific documents under the umbrella of the history of mentality and history of everyday life The volume does not aim at idealizing the past but it definitely intends to deconstruct modern myths about the dirty and unhealthy Middle Ages and early modern age *The Paradise Garden* Maureen Lazarus,Heather Pardoe,Deborah Spillards,1997 An introduction to the development of botanical illustration
