[Making Money Making Music](#) Quint Randle, Bill Evans, 2002-10. Regardless of talent, most musicians turning pro must play cover gigs to make their hard work pay off. This practical book gives artists step-by-step guidance for achieving financial success with a cover band: how to start or join one, choose the right covers, land the gigs, handle promotion, use sound and lighting systems, and successfully manage the details of gig playing.

[Song Sheets to Software](#) Elizabeth C. Axford, 2004-06-24. The second edition continues to be a valuable source to printed music, music software, and Web sites useful to musicians and includes interesting essays on the history of printed music, copyright laws, music theory fundamentals, and other topics. Many questions posed by musicians and others concerned with music production and instruction are answered with short, effective explanations, e.g., the duration of copyright, the concept of fair use, writing lead sheets, publishing music. Axford's volume will be especially useful to young musicians or others beginning a career in some aspect of music. A useful section, Web Sites for Musicians, reveals the book's currency: very few dead links were detected, attesting to careful updating from the first edition. The section Tech Talk Terms A-Z provides brief definitions for many new terms used by musicians or technology specialists. A valuable desk reference for everyone involved in the music industry.

Koza, 2021-08-31 A little known fact about the prominent US psychologist and educator Carl E Seashore 1866 1949 is that he was deeply involved in the American eugenics movement He was among the US academics to support eugenics long before German Nazis embraced it A titan in a host of disciplines and a proponent of radical education reform Seashore used his positional power to promote a constellation of education reforms consistent with central precepts of eugenics Many of these reforms including tracking gifted and talented programs and high stakes standardized testing were adopted and remain standard practice in the United States today He promulgated the idea that musical talent is biologically inheritable and he developed the first standardized tests of musical talent these tests were used by early twentieth century researchers in their attempts to determine whether there are race differences in musical talent Seashore's ideas and work profoundly shaped music education's research trajectory as well as enduring commonsense beliefs about musical ability An intersectional analysis *Destined to Fail* focuses on the relationship between eugenics and Seashore's views on ability race and gender Koza concludes that Seashore promoted eugenics and its companion euthenics because he was a true believer She also discusses

the longstanding silences surrounding Seashore's participation in eugenics As a diagnosis and critique of the present *Destined to Fail* identifies resemblances and connections between past and present that illustrate the continuing influence of eugenics and the systems of reasoning that made early twentieth century eugenics imaginable and seem reasonable on education discourse and practice today It maps out discursive citational and funding connections between eugenicists of the early twentieth century and contemporary White supremacists this mapping leads to some of Donald Trump's supporters and appointees
