Revolution is a colourful and revelatory account of bloggers around the globe who live and write under repressive regimes many of them risking their lives in doing so Antony Loewenstein's travels take him to private parties in Iran and Egypt internet cafes in Saudi Arabia and Damascus to the homes of Cuban dissidents and into newspaper offices in Beijing where he discovers the ways in which the internet is threatening the rule of governments Through first hand investigations he reveals the complicity of Western multinationals in the restriction of information in these countries and how bloggers are leading the charge for change The book also reveals some of the key players of the Arab Spring and how years of organising web dissent and bravery led to momentous changes in US backed dictatorships across the Middle East in 2010 and 2011 The Blogging Revolution is a superb examination of the nature of repression in the twenty first century and the power of brave individuals to overcome it

Oil and American Identity Sebastian Herbstreuth,2014-09-10 American dependence on foreign oil has long been described as a serious threat to U S national security and continues to be a political flashpoint even as domestic fracking eases the US reliance on imported energy Oil and American Identity offers a fresh perspective on the subject by reframing energy dependency as a cultural discourse with intimate connections to American views on independence freedom consumption abundance progress and American exceptionalism Through a detailed reading of primary literature Sebastian Herbstreuth also shows how the dangers of foreign oil are linked to American descriptions of foreign oil producers as culturally different and thus undependable Herbstreuth shows how even reliable imports from the Middle East are portrayed as dangerous and undesirable because this region is particularly foreign from an American point

of view while oil from friendly countries like Canada is cast as a benign form of energy trade Oil and American Identity rewrites the history of U S foreign oil dependence as a cultural history of the United States in the 20th century The Rise Of The Antichrist Kamran Faqir,2019-04-02 The Rise of The Antichrist carefully investigates the measurable effects of politics religion science and technology on the human psyche All mainstream religions traditionally share similar perspectives regarding the Antichrist and his developing systems which have been foretold by all prophets or messengers dutifully sent to every nation over time This book carefully explores the much debated topic of the Antichrist regarding his future emergence Will he lead humanity to eternal darkness or enlightenment Although modern science and human history popularly refer to the last 5 000 15 000 years of development in reality there are signs and evidence that human development is considerably older with possibilities of supernatural or otherworldly intervention This book explores stories such as the Nimrod who meticulously researched into longevity and occult magic with a possibility of alien or supernatural influence which was captured on stone glyphs Throughout history there have been developed mighty empires whose chosen kings proclaimed to be Gods But were they actually inter dimensional beings This book will ideally suit readers with an active interest in religion historical events and those interested in a thought provoking read **Turkish Instinct or the Praise of Genocide** Wahi Kachichyan,2018-05-25 Where are the Armenians of the Armenian highland Where on earth have they gone How did they disappear How is it that of the 7 million Armenians existing in the 14th century was left only two million by 1920 that otherwise if no genocides were inflicted should have counted as much as 75 million people today instead of 10 Communism and Nazism could implement such a racist and xenophobic ideology only for 70 and 25 years respectively causing that amount of human and material damage and aberration we all know No other genocide has ever lasted so many centuries and no other state has perpetrated as many genocides against as many ethnicities as Turkey An estimated 11 million Armenians have been reportedly exterminated from 1065 to 1923 through a mechanism of cyclical genocides More than 4 million Christians endured genocide and died at the hands of the Turks between 1890 and 1923 Let us not forget the scope and brutality of the events that exterminated the three quarter of the Armenian people reduced the Armenian homeland and its colossal cultural heritage to rubbles Armenia was then occupied and partitioned among neighboring countries More than 3 thousand Armenian churches were either confiscated destroyed dilapidated blown up turned into stores stables or mosques intentionally left to fall into disrepair or ruination Ottoman Turkish Pan Turkist and radical Islamist establishments have never concealed a certain fascination glorification and praise for genocide to the point to elevating it to a state adopted strategy dogma to a mystification extent supported with a contributive and elusive ideology denial And genocide deniers are three times more likely to commit genocide again than other governments Neither Armenian nor Turkish historiography have ever reported even fringe elements of Turkish establishment and political school of thought open to dialog with Armenians much less a sympathizer if at all Historically all genocide committing countries have manifested resentment and promoted

reconciliation with the survivors except for Turkey thus holding the truth hostage through denial and distortive misinformation preventing even its own people from accessing to genocide historical information although 15 years ago only 2% of Turkish population knew and accepted the truth presently 15% and threatening the international community of any recognition consequences Somebody has to invite Turkey to rationality responsibility and consciousness If the Armenians were to be assimilated Islamized and Turkified genocide wouldnt happen Ottoman Turkey lost the war and the empire but gained the battle against the Armenians An estimated 6 to 8 million hidden or crypto Armenians the progeny of the orphans and the Islamized Armenians who survived will be challenging Turkey in the foreseeable future whims of history Since the Ottoman Turks incursions into Asia Minor genocide never ceased nor the Christian community took the trouble to protect the first Christian nation state on earth To quote Martin Luther King In the end we will remember not the words of our enemies but the silence of our friends *Quo Vadis, Homine ? Are ye Sapiens or Failed Species ?* Sam T. Dudic,2019-10-05 Outlook on this insane sickly degrading insecure ugly world where the worst and meanest criminals predators and parasites win and rule not merely the fittest Is this the glory of Creation It seems we live in the world of animals in a society of inadequate morons not responsible for their actions and deeds from top to the bottom worldwide without any Cosmic guidance and grace The real issue is not East vs West or South vs North nor conflict of civilizations but incompatible antagonism between the upper strata and masses power authorities and the people exploiters and the destitute Labor and Capital the Good and the Evil Conflict between Homo Sapiens and Homo Defectus Real people s enemies are banks financial speculators bureaucracy mass media entertainment and insane politicians Criminality of the most authorities is in disrespect contempt for their own people In majority of the countries the state does not fulfill its due functions turning into the Monster degrading and terrorizing the people in all spheres That s the common social decease which can be solved only through transformation of inadequate state into Volksstaat based on equality collective just economy **Freeing God's Children** Allen D. war rhetoric Scatamburlo D Annibale adroitly reveals that their ultimate aim is to protect corporate power from any form of democratic accountability
