Reflexivity And The Crisis Of Western Reason:

Reflexivity And The Crisis of Western Reason Barry Sandywell, 2013-06-17 This ground breaking work explores the genealogical analysis of the discourses of reflection Barry Sandywell traces the differences between the traditional discourses of reflection and the experiences of reflexivity in everyday social and philosophical thought Brilliantly organised and abounding with astonishing insights Reflexivity and the Crisis of Western Reason offers a fundamental challenge to our normal ways of viewing social thought *Dante's Paradiso and the Theological Origins of Modern Thought* William Franke, 2021-03-24 Self reflection as the hallmark of the modern age originates more profoundly with Dante than with Descartes This book rewrites modern intellectual history taking Dante's lyrical language in Paradiso as enacting a Trinitarian self reflexivity that gives a theological spin to the birth of the modern subject already with the Troubadours The ever more intense self reflexivity that has led to our contemporary secular world and its technological apocalypse can lead also to the poetic vision of other worlds such as those experienced by Dante Facing the same nominalist crisis as Duns Scotus his exact contemporary and the precursor of scientific method Dante's thought and work indicate an alternative modernity along the path not taken This other way shows up in Nicholas of Cusa's conjectural science and in Giambattista Vico's new science of imagination as alternatives to the exclusive reign of positive empirical science In continuity with Dante's vision they contribute to a reappropriation of self reflection for the humanities **Reason After Its Eclipse** Martin Jay, 2016-04-21 Tackles a question as old as Plato and still pressing today What is reason and what roles does and should it have in human endeavor The eminent intellectual historian Martin Jay surveys Western ideas of reason particularly in German philosophy from Kant to Habermas **Worlds in Transition** Joseph Camilleri, Jim Falk, 2009-01-01 We are living through a unique moment of transition marked by a frenetic cycle of invention construction consumption and destruction However there is more to this transition than globalization argue the authors of this unique and penetrating study In their highly innovative approach they set this transition against a broader evolutionary canvas with the emphasis on the evolution of governance The book's detailed analysis of five strategic sectors economy environment health information and security points to an intricate and rapidly evolving interplay of geopolitical cultural and *Language, Eros, Being* Elliot R. Wolfson, 2009-08-25 This long awaited magisterial study an unparalleled blend of philosophy poetry and philology draws on theories of sexuality phenomenology comparative religion philological writings on Kabbalah Russian formalism Wittgenstein Rosenzweig William Blake and the very physics of the time space continuum to establish what will surely be a highwater mark in work on Kabbalah Not only a study of texts Language Eros Being is perhaps the fullest confrontation of the body in Jewish studies if not in religious studies as a whole Elliot R Wolfson explores the complex gender symbolism that permeates Kabbalistic literature Focusing on the nexus of asceticism and eroticism he seeks to define the role of symbolic and poetically charged language in the erotically configured visionary imagination of the medieval Kabbalists He demonstrates that the traditional

Kabbalistic view of gender was a monolithic and androcentric one in which the feminine was conceived as being derived from the masculine He does not shrink from the negative implications of this doctrine but seeks to make an honest acknowledgment of it as the first step toward the redemption of an ancient wisdom Comparisons with other mystical traditions including those in Christianity Buddhism and Islam are a remarkable feature throughout the book They will make it important well beyond Jewish studies indeed a must for historians of comparative religion in particular of comparative mysticism Praise for Elliot R Wolfson Through a Speculum That Shines is an important and provocative contribution to the study of Jewish mysticism by one of the major scholars now working in this field Speculum **Rhetoric and Educational**

Discourse Richard Edwards,Katherine Nicoll,Nicky Solomon,Robin Usher,2013-02-01 Educational policy is often dismissed as simply rhetoric and a collection of half truths However this is to underestimate the power of rhetoric and the ways in which rhetorical strategies are integral to persuasive acts Through a series of illustrative chapters this book argues that rather than something to be dismissed rhetorical analysis offers a rich and deep arena in which to explore and examine educational issues and practices It adopts an original stance in relation to contemporary debates and will make a significant contribution to educational debates in elucidating and illustrating the pervasiveness of persuasive strategies in educational practices Rhetoric and Educational Discourse is a useful resource for postgraduate and research students in education and applied linguistics The book will also be of interest to academics and researchers in these fields of study and those interested in discursive approaches to research and scholarship **Phronesis as Professional Knowledge** Elizabeth Anne

Kinsella,Allan Pitman,2012-07-30 Phronesis is the Aristotelian notion of practical wisdom In this collected series phronesis is explored as an alternate way of considering professional knowledge In the present context dominated by technical rationalities and instrumentalist approaches a re examination of the concept of phronesis offers a fundamental re visioning of the educational aims in professional schools and continuing professional education programs This book originated from a conversation amongst an interdisciplinary group of scholars from education health philosophy and sociology who share concerns that something of fundamental importance of moral significance is missing from the vision of what it means to be a professional The contributors consider the ways in which phronesis offers a generative possibility for reconsidering the professional knowledge of practitioners The question at the centre of this inquiry is If we take phronesis seriously as an organising framework for professional knowledge what are the implications for professional education and practice A multiplicity of understandings emerge as to what is meant by phronesis and how it might be reinterpreted understood applied and extended in a world radically different to that of the progenitor of the term Aristotle For those concerned with professional life this is a conversation not to be missed Tell Me This Carey Borkoski,Brianne Roos,2025-05-30 In Tell Me This a diverse array of voices including educators leaders researchers and parents combines to tell a rich and complex story of human connection This groundbreaking work blends rigorous academic research with deeply personal narratives offering

a unique exploration of belonging in its many forms **Urban Constellations** Zoë Thompson, 2016-02-11 This book investigates the iconic architectural cultural spaces of the contemporary cityscape as engines of regeneration Promising much to their fading locales these spaces locate culture in the space where production once ruled in order to revitalise post industrial urban provinces With close attention to four sites across the UK *Urban Constellations* engages with the work of Walter Benjamin and Jean Baudrillard to read these spaces and in so doing offer a critical intervention into the theory and experience of contemporary cityscapes Developing the notion of surface ethnography as a methodological approach to examining the form of cultural experience produced by urban cultural spaces the author sheds light on the manner in which they transform cultural spectatorship express wider political and ecological concerns and offer differing views to the native and the tourist in the construction of local history The book also examines the decline of the idea that iconic projects can drive regeneration in the failures and delays that can beset such undertakings Offering a rich examination of the legacy of urban change in its most recent formulation that of cultural regeneration this book reveals the fragile potential of the spaces produced by contemporary dream houses and as such will be of interest to scholars of cultural studies sociology and social theory urban studies cultural geography and architecture *Critical Perspectives in Canadian Music Education* Carol A. Beynon, Kari K. Veblen, 2012-09-01 Music education in Canada is a vast enterprise that encompasses teaching and learning in thousands of public and private schools community groups and colleges and universities It involves participants from infancy to the elderly in formal and informal settings Nevertheless as post secondary faculties of music and programs are growing significantly academic books and materials grounded in a Canadian perspective are scarce This book attempts to fill that need by offering a collection of essays that look critically at various global issues in music education from a Canadian perspective Topics range from a discussion of the roots of music education in Canada and analysis of music education practices across the country to perspectives on popular music distance education technology gender globalization Indigenous traditions and community music in music education Foreword by composer R Murray Schafer *Making Digital Cultures* Martin Hand, 2016-05-13 Many people in the West or global North now live in a culture of 24/7 instant messaging iPods and MP3s streamed content blogs ubiquitous digital images and Facebook But they are also surrounded by even more paper books telephone calls and material objects of one kind or another The juxtaposition and proliferation of older and newer technologies is striking *Making Digital Cultures* brings together recent theorizing of the digital age with empirical studies of how institutions embrace these technologies in relation to older established technological objects processes and practices It asks how relations between analogue and digital are conceptualized and configured both in theory and inside the public library the business organization and the archive With its direct engagement with new media theory science and technology studies and cultural sociology this volume will be of interest to scholars and students in the areas of media and communication and science and technology studies **Evaluating the Impact of Implementing Evidence-Based**

New Thinking in Complexity for the Social Sciences and Humanities Ton Jörg, 2011-08-09 The underlying idea and motive for the book is that the notion of complexity may humanize

the social sciences may conceive the complex human being as more human and turn reality as assumed in our doing social science into a more complex that is a richer reality for all The main focus of this book is on new thinking in complexity with complexity to be taken as derived from the Latin word *complexus* that which is interwoven The trans disciplinary approach advocated here will be trans disciplinary in two ways firstly by going beyond the separate disciplines within the fields of both natural sciences and social sciences and secondly by going beyond the separate cultures of the natural sciences and of the social sciences and humanities

Bakhtin and the Human Sciences Michael Bell, Michael E Gardiner, 1998-08-28 Bakhtin and the Human Sciences demonstrates the abundance of ideas Bakhtin's thought offers to the human sciences and reconsiders him as a social thinker not just a literary theorist The contributors hail from many disciplines and their essays implications extend into other fields in the human sciences The volume emphasizes Bakhtin's work on dialogue carnival ethics and everyday life as well as the relationship between Bakhtin's ideas and those of other important social theorists In a lively introduction Gardiner and Bell discuss Bakhtin's significance as a major intellectual figure and situate his ideas within current trends and developments in social theory

Occupational Therapies without Borders - Volume 2 Frank Kronenberg, Nick Pollard, Dikaïos Sakellariou, 2011-10-24 The companion text to *Occupational Therapy without Borders Volume 1* learning from the spirit of survivors In this landmark text writers from around the world discuss a plurality of occupation based approaches that explicitly acknowledge the full potential of the art and science of occupational therapy The profession is presented as a political possibilities based practice concerned with what matters most to people in real life contexts generating practice based evidence to complement evidence based practice As these writers demonstrate occupational therapies are far more than as some critical views have suggested a monoculture of practice rooted in Western modernity Nobel Peace Laureate Desmond Tutu captures the ethos of this book which essentially calls for engagements in the service of a purpose that is larger than the advancement of our profession's interests Your particular approach to advancing our wellbeing and health strikes me as both unique and easily taken for granted Whilst you value and work with medical understandings your main aim seems to go beyond these You seem to enable people to appreciate more consciously how what we do to and with ourselves and others on a daily basis impacts on our individual and collective wellbeing As occupational therapists you have a significant contribution to make allowing people from all walks of life to contribute meaningfully to the wellbeing of others Links philosophy with practical examples of engaging people in ordinary occupations of daily life as a means of enabling them to transform their own lives Includes contributions from worldwide leaders in occupational therapy research and practice Describes concrete initiatives in under served and neglected populations Looks at social and political mechanisms that influence people's access to useful and meaningful occupation Chapters increase diversity of contributions geographically culturally and politically Emphasis on practice education and research maintains academic credibility A glossary and practical examples in nearly every chapter make text more accessible to students

The

Reflexive Initiative Stanley Raffel, Barry Sandywell, 2016-03-31 The Reflexive Initiative is an authoritative intervention in the practice and tradition of reflexive social theory. It demonstrates the importance of the reflexive imperative not only in the investigation of everyday life but across a wide range of human sciences and philosophical perspectives. Forty years after the publication of *On the Beginning of Social Inquiry*, the chapters in this collection range from re-appraisals of earlier essays on topics such as reunions, rethinking art and ex-pats to contributions emphasising the opening of radical dialogues with other reflexive traditions and perspectives. These include psychoanalysis, Lacan, Hegel, René Girard, Daseinanalysis, dialectical method, critical feminism and the dialogical tradition. In this dialogical spirit, the book contributes to the continuing project of analytic theorizing associated with the work of Alan Blum and Peter McHugh and the recent turn to more existential topics and politically engaged forms of reflexive research. It will be of particular use to students working in interpretive traditions of sociology, Critical theory, Postmodern thought and debates associated with reflexivity and dialectics in other disciplines and research programmes.

Modernity Theory John Jervis, 2018-12-29 Modernity theory approaches modern experience as it incorporates a sense of itself as modern modernity along with the possibilities and limitations of representing this in the arts and culture generally, modernism. The book interrogates modernity in the name of a fluid, unsettled, unsettling modernism. As the offspring of the Enlightenment and the Age of Sensibility, modernity is framed here through a cultural aesthetics that highlights not just an instrumental, exploitative approach to the world but the distinctive configuration of embodiment, feeling and imagination that we refer to as civilization in turn both explored and subverted through modernist experimentalism and reflexive thinking in culture and the arts. This discloses the rationalizing pretensions that underlie the modern project and have resulted in the sensationalist melodramatic conflicts of good and evil that traverse our contemporary world of politics and popular culture alike. This innovative approach permits modernity theory to link otherwise fragmented insights of separate humanities disciplines, aspects of sociology and cultural studies by identifying and contributing to a central strand of modern thought running from Kant through Benjamin to the present. One aspect of modernity theory that results is that it cannot escape the paradoxes inherent in reflexive involvement in its own history.
