**Ruddy Ducks and Other Stiffetails** Paul A. Johnsgard, Montserrat Carbonell, 2010 An in depth biological overview of a fascinating group of waterfowl Paul A Johnsgard's first glimpse of a North American ruddy duck a chestnut brown bird with a blue bill black head and white cheeks led to decades of observing the eight extant species of stiff tailed ducks In **Ruddy Ducks and Other Stiffetails** he and Montserrat Carbonell introduce general readers and ornithologists to the ruddy's morphology behavior ecology and diverse relatives This richly illustrated volume highlights these unique species at a critical time when their wetlands habitats are increasingly at risk

**The North American Whistling-Ducks, Pochards, and Stiffetails** Paul Johnsgard, 2017-03-24 Although the 12 species representing three waterfowl tribes described in this volume are not closely related they fortuitously provide an instructive example of adaptive evolutionary radiation within the much larger waterfowl lineage the family Anatidae especially as to their divergent morphologies life histories and social behaviors The whistling ducks *Dendrocygna* with three known North American species are notable for their permanent pair bonds extended biparental family care and strong social cohesion In contrast males of the five typical pochards of North America diving ducks *Aythya* establish monogamous pair bonds that are maintained only long enough to assure that the female's eggs are fertilized The endpoint of this behavioral gradient promiscuity or polygyny exists among at least some of the typical stiffetails *Oxyura* Such diverse reproductive strategies have exerted powerful evolutionary influences on interspecies variations in sexual dimorphism sexual behavior anatomy ecology and other traits This volume includes more than 63 000 words plus some 200 maps photos drawings and sketches and nearly 650 literature citations It is the last of five volumes that describe all 55 waterfowl species that have been historically documented in North America collectively the volumes total over 300 000 words with nearly 3 000 literature citations and more than 600 maps photos drawings and sketches
