British Librarianship and Information Work 1991-2000 J.H. Bowman, 2017-07-28 This important reference volume covers developments in almost every aspect of British library and information work during the ten year period 1991-2000. Some forty contributors, all of whom are experts in their subject, provide a robust overview of their specialities along with extensive further references which act as a starting point for further research. The book provides a comprehensive record of what took place in library and information management during a decade of considerable change and challenges. It is an essential reference resource for librarians and information professionals.

British Archives Janet Foster, Julia Sheppard, 1995-09-27 Since it was first published in 1982, British Archives has established itself as the premier reference work to holdings of archives and manuscript collections throughout the UK. The 3rd edition has been extensively revised and enlarged with more than 150 new entries, further widening the range of the book. Entries are structured to show the archives of the organisation as distinct from deposited collections, and significant non-manuscript material. Additional details of fax number and conservation provision are included for the first time. All the existing entries have been significantly updated together with the select bibliography and list of useful addresses of various organisations involved in the care and custody of archives. The introduction provides an invaluable guide to researchers using archives, including a summary of the relevant legislation and a detailed description of the usual holdings of county and other local authority record offices.

Directory of Rare Book and Special Collections in the UK and Republic of Ireland Karen Attar, 2016-05-31 This directory is a handy on-volume discovery tool that will allow readers to locate rare book and special collections in the British Isles. Fully updated since the second edition was published in 1997, this comprehensive and up-to-date guide encompasses collections held in libraries, archives, museums, and private hands. The Directory provides a national overview of rare book and special collections for those interested in seeing quickly and easily what a library holds. It directs researchers to the libraries most relevant for their research, assists libraries considering acquiring new special collections, to assess the value of such collections beyond the institution, showing how they fit into a unique and distinctive model. Each entry in the Directory provides background information on the library and its purpose, full contact details, the quantity of early printed books, information about particular subject and language strengths, information about unique works and important acquisitions, descriptions of named special collections, and deposited collections. Readership: Researchers, academic liaison librarians, and library managers.

The Library at Night Alberto Manguel, 2011-07-27 In the tradition of *A History of Reading* this book is an account of Manguel's astonishment at the variety beauty and persistence of our efforts to shape the world and our lives most notably through something almost as old as reading itself libraries *The Library at Night* begins with the design and construction of Alberto Manguel's own library at his house in western France a process that raises puzzling questions about his past and his reading habits as well as broader ones about the nature of categories catalogues architecture and identity Thematically organized and beautifully illustrated this book considers libraries as treasure troves and architectural spaces it looks on them as autobiographies of their owners and as statements of national identity It examines small personal libraries and libraries that started as philanthropic ventures and analyzes the unending promise and defects of virtual ones It compares different methods of categorization and what they imply and libraries that have built up by chance as opposed to by conscious direction In part this is because this is about the library at night not during the day this book takes in what happens after the lights go out when the world is sleeping when books become the rightful owners of the library and the reader is the interloper Then all daytime order is upended one book calls to another across the shelves and new alliances are created across time and space And so as well as the best design for a reading room and the makeup of Robinson Crusoe's library this book dwells on more nocturnal subjects fictional libraries like those carried by Count Dracula and Frankenstein's monster shadow libraries of lost and censored books imaginary libraries of books not yet written *The Library at Night* is a fascinating voyage through the mind of one of our most beloved men of letters It is an invitation into his memory and vast knowledge of books and civilizations and throughout though mostly implicitly it is also a passionate defence of literacy of the unique pleasures of reading of the importance of the book As much as anything else *The Library at Night* reminds us of what a library stands for the possibility of illumination of a better path for our society and for us as individuals That hope too at the close is replaced by something that fits this personal and eclectic book even better something more fragile and evanescent than illumination though just as important
