Kaiser Wilhelm II New Interpretations John C. G. Röhl, Nicolaus Sombart, 2005-09-15 As assessment of the Kaiser's character and its implications on Imperial German history      **The Last Hope of the Habsburgs: Crown Prince Rudolf's Journey** Ferdinand von Arx, 2025-03-17

Crown Prince Rudolf of Habsburg was destined to rule one of Europe's most powerful empires. As the only son of Emperor Franz Joseph I and Empress Elisabeth, he was the great hope of a dynasty struggling to maintain its influence in a rapidly changing world. A brilliant mind and a progressive thinker, Rudolf sought to modernize the Austro-Hungarian Empire, embracing liberal ideals that often put him at odds with the rigid traditions of the imperial court. Yet behind the grandeur of royal life, Rudolf wrestled with deep personal conflicts. Trapped between duty and his own convictions, isolated from both his father's authority and his mother's affections, he found solace in intellectual pursuits, political discourse, and forbidden love. His tragic fate at Mayerling remains one of history's great mysteries: was it despair, conspiracy, or something even darker? In *The Last Hope of the Habsburgs*, Ferdinand von Arx paints a vivid portrait of a prince who dared to challenge his destiny. This compelling biography offers fresh insights into Rudolf's struggles, ambitions, and the turbulent forces that shaped his life and his tragic end. An enthralling story of power, idealism, and the weight of a fading empire.

**Carl Menger's Lectures to Crown Prince Rudolf of Austria** Carl Menger, Rudolf (Crown Prince of Austria), 1994-01-01 This book will be of interest on a number of different levels. Most simply, it is a fascinating historical record of a pedagogical experience: the Notebooks present the historian of economic thought and those interested in the Austrian school in particular with a number of intriguing, even frustrating puzzles. Peter Lewin, *History of Economic Ideas*, in all this volume provides a useful addition to our understanding of Carl Menger. The translation is very readable and the index is good. The Streisslers are to be commended for performing a real service to the scholarly community in editing and publishing this book. Karen I. Vaughn, *Journal of the History of Economic Thought*. In 1876, Carl Menger, then a young professor at the University of Vienna, was asked to teach the principles of political economy to Crown Prince Rudolf of Austria, the 17-year-old only son of Emperor Francis Joseph, who was to die tragically before he could inherit the throne. Rudolf's recently discovered Notebooks, of these lectures corrected by Menger, are a fascinating record of what the founder of the Austrian marginalist school thought worth teaching to the heir presumptive of a great power. Without referring to his own theories, Menger delivered a course on the economics of Adam Smith as presented in the mainstream German textbooks of the time in such a way that the Notebooks can be viewed as a key document on classical economic liberalism, pure and unadulterated. They cast new light on Menger's own theoretical discoveries, his view of government, and his interpretation of classical economics. In this important volume, Rudolf's Notebooks are published for the first time, both in German and an English translation. The editor's detailed introduction provides the historical and intellectual background to the Notebooks, as well as a thorough analysis of classical economics and its treatment by Menger. The text is fully annotated in German and English.

**Teaching the Empire** Scott O. Moore, 2020-05-15 Teaching the Empire explores how Habsburg Austria utilized education to cultivate the patriotism of its people Public schools have been a tool for patriotic development in Europe and the United States since their creation in the nineteenth century On a basic level this civic education taught children about their state while also articulating the common myths heroes and ideas that could bind society together For the most part historians have focused on the development of civic education in nation states like Germany France and the United Kingdom There has been an assumption that the multinational Habsburg Monarchy did not or could not use their public schools for this purpose Teaching the Empire proves this was not the case Through a robust examination of the civic education curriculum used in the schools of Habsburg from 1867 1914 Moore demonstrates that Austrian authorities attempted to forge a layered identity rooted in loyalties to an individual's home province national group and the empire itself Far from seeing nationalism as a zero sum game where increased nationalism decreased loyalty to the state officials felt that patriotism could only be strong if regional and national identities were equally strong The hope was that this layered identity would create a shared sense of belonging among populations that may not share the same cultural or linguistic background Austrian civic education was part of every aspect of school life from classroom lessons to school events This research revises long standing historical notions regarding civic education within Habsburg and exposes the complexity of Austrian identity and civil society deservedly integrating the Habsburg Monarchy into the broader discussion of the role of education in modern society Vienna Angus Robertson, 2021-10-07 Vienna is unique amongst world capitals in its consistent international importance over the centuries From the ascent of the Habsburgs as Europe's leading dynasty to the Congress of Vienna which reordered Europe after Napoleon to bridge building summits during the Cold War it is the Austrian capital that has been the scene of key moments in European and world affairs History has been shaped by scores of figures influenced by their time in Vienna including Empress Maria Theresa Count Metternich Bertha von Suttner Theodore Herzl Gustav Mahler Adolf Hitler Josef Stalin John F Kennedy and many others In a city of great composers and thinkers it is here that both the most positive and destructive ideas of recent history have developed From its time as the capital of an imperial superpower through war dissolution dictatorship to democracy Vienna has reinvented itself and its relevance to the rest of the world
